PROOF OF SUPERIORITY!

This brand has followers and imitators but as is always the case the genuine is always better than the imitation. Imitation proves the superiority of an article whether it be one thing or another. In this case it's FLOUR. But they have not succeeded in producing the equal of IMPERIAL. Made from the choicest Dakota wheat. Nothing like it. Grocers sell it.

SPEECH BY WASHBURN

The Junior Senator From Minnesota Addressed the Senate Today on the Wilson Tariff Bill.

He Entered a Strong Protest Against the Repeal of the McKinley Law's Reciprocity Clauses.

Will Be Considered a Breach of Faith on the Part of the United States.

WASHINGTON, April 23.—Senator Washburn, of Minnesota, addressed the senate today, devoting his time almost entirely to the proposition in the tariff bill to repeal the reciprocity clause of the McKinley law. In his opening remarks he discussed briefly the various tariff acts since 1816. Coming to the proposed repeal of the reciprocity provisions in the law of 1890 he said: "There is probably no section of the country where the effect of reciprocity treaties with foreign nations consummated by the wisdom and persistent efforts of Mr. Blaine, under the late administration, have been so marked and favorable as the states of the Northwest. I am not only opposed, Mr. President, to termination of the reciprocity arrangements already existing between the United States and other countries, but I am in favor of applying the same principle in all our foreign trade."

Senator Washburn said that Democrats of the finance committee and members of the house had misgivings about the repeal of the reciprocity clause of the act of 1890. He said that the direct repeal of the reciprocity clause and abrogation of the treaties was made necessary in order to make it possible to collect duties on sugar. The people of the United States did not want the reciprocity

which we cannot sell at home. Much money has already been invested, and much time has been spent in the introduction of our merchandise into southern markets; in the establishment of agencies; in the study of the tastes and requirements of people and conditions of trade; and in the making of the acquaintance of the buyers and consumers in the Latin-American countries and colonies.

"This demonstrates that the advantages of the reciprocity arrangements have been recognized and appreciated by those for whose benefits they were intended, but just now as they are beginning to see the results of their efforts, the majority of this congress proposes to deprive them of the advantages they enjoy."

Mr. Washburn declared that the only increase in our trade during the past year of hard times was with the reciprocity countries, while there had been a falling off in other countries. Discussing the treaty with Brazil, he said that trade relations had been disturbed by the revolution and this was not a time for a fair test. Senator Washburn gave a deal of attention to the results of the treaty with Cuba in the course of which, citing his personal observations in Cuba, he said:

"In conversation with American merchants and others doing business in Cuba, I learned that the efforts of the commercial relations created by this arrangement had been really remarkable, and increasing in importance and magnitude day by day. The Americans doing business there are more than satisfied with results. The Cubans are satisfied and everyone is satisfied excepting Spain itself. The representatives of other continental countries."

Mr. Washburn sketched with some detail the results of reciprocity with South American countries, and then turned his attention to the German treaty, which he spoke of as in many respects the most important of the several commercial arrangements negotiated by the last administration under the authority of the reciprocity section of the McKinley act. As to the proposed abrogation of the treaty he said:

"The commercial arrangements which were entered into by the United States under the authority of section three of what is familiarly known as the McKinley law are solemn compacts between this and friendly nations which cannot be carelessly kicked aside like a memorial from the legislature or an appeal from some domestic industry whose prosperity is threatened. They have the sanction of formal treaties, and if they are to be terminated, it should be done without national dishonor. There must be good reasons to show why this government desires to withdraw from such compacts and asks to be released from its obligations."

"No government," he said, in conclusion, "ever threw away greater opportunities to promote its foreign trade and secure commercial advantages for its citizens than are being sacrificed by the pending bill. Not only are the reciprocity treaties that were made by the last administration to be absolutely and permanently revoked without consulting the rights and wishes of the other parties to the agreements, but the duties upon a long list of imported merchandise are to be removed and reduced without giving the countries which will enjoy the benefits a chance to offer us some concessions in return."

ANARCHIST HEAD CENTER.

Italian Arrested in London Believed to be Chief of the Anarchist Movement. Great Northern Strike May Soon Be Settled Owing to the Mediation of Governor Nelson.

ST. PAUL, April 23.—[Special to The Herald.]—Governor Nelson this morning wrote to President Hill, asking that the trouble with the strikers be submitted to arbitration. In reply he received a note from Mr. Hill saying that the company would comply with the request on condition that the men return to work at once, in order that business might not be interfered with while the arbitration was going on; one arbitrator to be selected by the men on the pay roll of the company, another by a third party, and in case they do not agree, a third, to be selected by Judge R. R. Nelson, of the United States district court, or Judge Nelson and Judge Thomas sitting together.

Time is to be taken to give both sides a full hearing. The men in the different sections may select their own representatives and all are to be heard or they can present their case through one committee. At noon the men had not received a copy of Mr. Hill's reply, but had received Governor Nelson's letter and Debs and Howard called on the governor and held a short conference, but neither side would say what was done. Debs said what this morning he did not know what step would be taken next.

Seven committee men are here today and three more are expected from the coast. The strikers say they are unable to account for the delay of the committee men and do not know where Hogan is. It is suspected that he is organizing on the Northern Pacific system West.

Mr. Hill said this morning that the strike would end today and Howard said the men were sure to win. There were 270 men organized at Superior yesterday and they wired officers that they would strike if ordered. Two branch trains went out this forenoon and an overland train will be sent out at 6:30 p. m., expecting to go as far as Great Falls at any rate.

The employees are conferring this afternoon on Mr. Hill's reply to the arbitration proposition. The Willmar strikers were released on bonds. Eight arrests were made at Barnesville. Governor Nelson is besieged with requests from business men along the line to use his influence to stop the strike.

Later—President Debs said this afternoon that their full conference committee would be here, and that in the meantime they would consent to have matters arbitrated. Later on, if they find the committee is unable to arrange matters, they may accept the arbitration proposition.

McKane's Appeal. WASHINGTON, April 23.—Chief Justice Fuller decided today to take the appeal of John Y. McKane, the Gravesend boss, on briefs and gave the attorneys until Friday to prepare their briefs.

TUNNEL LAW IS VOID.

The Supreme Court Decides the Law Regarding Constructing the Minnesota Point Tunnel Is Bad.

Held to Be a Violation of the Constitutional Amendment in Prohibition of Special Legislation.

Order of the St. Louis County District Court Also Reversed in a West Duluth Case.

ST. PAUL, April 23.—[Special to The Herald.]—Of twenty-two decisions handed down by the supreme court today two are from Duluth. Both are reversals of the order of the St. Louis County District Court. The first is the case of the Minnesota Point Tunnel. The second is the case of the West Duluth case.

Under the constitutional provision any act regulating the affairs of a city must reduce all cities or all cities of the same class to uniformity in respect to the particular question with which the legislation deals, as to the mode as well as to the causes of the exercise of the granted power. Any act which adopts and extends existing special legislation is as obnoxious to the constitution as if it created the special legislation which it thus attempts to extend and perpetuate. Our reversed. The opinion is by Mitchell, J.

In the case of the village of West Duluth for use and benefit of the Pioneer Fireproof Construction company, appellant, vs. James H. Norton, et al., respondent, the syllabus is as follows: Where a village organized under chapter 148, general laws of 1891, takes the bond of a contractor conditioned for the faithful performance of the contract, and that he will pay for all labor and material furnished, as provided in section 4, sub-section 9, of said chapter, and such village brings an action on such bond to recover the sum due from the contractor to a third party to furnish material, but claims nothing in its own right, held that such suit is brought in a representative capacity, and it is no defense to it that the plaintiff has in its hands more than sufficient funds withheld from the contractor to pay all such claims. Order reversed. Cady, J., wrote the opinion of the court.

IT MAY BE ARBITRATED.

Great Northern Strike May Soon Be Settled Owing to the Mediation of Governor Nelson.

ST. PAUL, April 23.—[Special to The Herald.]—Governor Nelson this morning wrote to President Hill, asking that the trouble with the strikers be submitted to arbitration. In reply he received a note from Mr. Hill saying that the company would comply with the request on condition that the men return to work at once, in order that business might not be interfered with while the arbitration was going on; one arbitrator to be selected by the men on the pay roll of the company, another by a third party, and in case they do not agree, a third, to be selected by Judge R. R. Nelson, of the United States district court, or Judge Nelson and Judge Thomas sitting together.

Time is to be taken to give both sides a full hearing. The men in the different sections may select their own representatives and all are to be heard or they can present their case through one committee. At noon the men had not received a copy of Mr. Hill's reply, but had received Governor Nelson's letter and Debs and Howard called on the governor and held a short conference, but neither side would say what was done. Debs said what this morning he did not know what step would be taken next.

Seven committee men are here today and three more are expected from the coast. The strikers say they are unable to account for the delay of the committee men and do not know where Hogan is. It is suspected that he is organizing on the Northern Pacific system West.

Mr. Hill said this morning that the strike would end today and Howard said the men were sure to win. There were 270 men organized at Superior yesterday and they wired officers that they would strike if ordered. Two branch trains went out this forenoon and an overland train will be sent out at 6:30 p. m., expecting to go as far as Great Falls at any rate.

Later—President Debs said this afternoon that their full conference committee would be here, and that in the meantime they would consent to have matters arbitrated. Later on, if they find the committee is unable to arrange matters, they may accept the arbitration proposition.

McKane's Appeal. WASHINGTON, April 23.—Chief Justice Fuller decided today to take the appeal of John Y. McKane, the Gravesend boss, on briefs and gave the attorneys until Friday to prepare their briefs.

RIGHT OR WRONG.

In these times a merchant may just as well plant broomsticks and expect blossoms as to try and build a business on mere "BUNCOMBE." The fellow who follows the fallacy may think he is plucking apples of gold from the GARDEN OF HESPERIDES—but he isn't! When the public "get on to him," they do it with both feet, and—

"The fruit he loved so much, Will turn to dust and ashes at his feet."

Our success—such as it is—was never attained by any amplification of the truth. WHEN WE ADVERTISE BARGAINS we give them. WHEN WE ADVERTISE NOVELTIES they are here for your inspection. Did you ever notice the amount of exaggeration used by the different mercantile houses at the head of the lake in their daily and weekly advertisements. JUST THINK HOW RIDICULOUS THEIR CLAIMS ARE. They say their stock of Cloaks and Wraps is the largest in this city; they control the product of the leading manufacturers in Europe and America — — —! We say—importers and manufacturers generally confine their product to the largest and best house in each city. Where is that house in Duluth? Is it hard to answer? They say their stock of Hardware and Crockery is the largest and finest in the Northwest. "We say" if our reserve Crockery room was empty it would hold their entire stock, and as for fine goods, they don't know what fine goods are. Patrons, inspection will prove our assertion. They say their Dress Goods and Silk department, Boot and Shoe department, Millinery department, Carpet and Upholstery department shows the largest and most complete assortment in the city. What say you? They say their store is the largest. They say their yearly sales are the largest and a thousand other claims just as ridiculous and false as the above ones. No exaggeration at THE GLASS BLOCK STORE. Facts are "heats" that winna ding. Facts are what has built our business to its present size. Here are the facts we give you for

TUESDAY AND WEDNESDAY.

On Monday morning we will place on sale our entire stock of black and colored Silks and colored Velvets at prices never before equaled in this city. We have too many Silks and take this means to dispose of them. Remember, this is no shoddy lot of stuff bought to sell cheap, but all of our reliable brands which we can guarantee for wear. Call and see the bargains.

Tuesday and Wednesday.

THE CHANCE OF A LIFETIME!

PANTON & WATSON

Glass Block Store, Duluth.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

NURSES WERE DRUNK.

Disgraceful Condition of Affairs Found at the Pest House Where R. L. Montgomery Is Sick.

First Nurse Got Drunk, a Second Was Secured and Then Both of Them Filled Up.

Finally Two Frenchmen Were Secured and They Are Keeping Sober—All Are in Quarantine.

Drunken nurses in charge of a small-pox patient is an unusual state of affairs, yet that is just the shape things were in down at the West End last night. The whole story is somewhat long and very interesting.

Last Friday night the board of health secured James McGone as a nurse for R. L. Montgomery, the clerk who was found in St. Mary's hospital all broken out with that dread disease, smallpox. He represented that he cared for many smallpox patients; he declared that he had been a cook for nineteen years and, to crown all, he thought that \$3 a day would amply satisfy him for his services, which promised to be most arduous. Dr. Coffe, Alderman Cox and the rest thought they were in luck and were mightily pleased over the nurse that providence seemingly has thrown in their way.

Yesterday noon a boy came running down to Alderman Cox's office saying that the smallpox patient was trying to get out of the window and yelling, "I'm dying! I'm dying!" and that McGone, the nurse, was lying dead drunk on the floor.

Cox jumped about ten feet in the air, hurriedly summoned Dr. Coffe and set about to get another nurse. William Ritchie, of West Duluth, was finally secured and put in charge.

Now McGone is an Irishman and Ritchie a regular little cockney Englishman. Ritchie was wakened to look out lest McGone fight him when he came out of his stupor and found another nurse in the pestilential camp.

"Hoh hi can manage 'im," said the Briton, "I'm used to 'em kind o' men." "Now if you get drunk, Ritchie," said Dr. Coffe, "we'll quarantine you forty days and then send you to the pest house. Ritchie swore by all that was good that he would not get under the influence of the cup that cheers.

About nine o'clock a young man came running down to Alderman Cox's residence on "Broom Corn Alley," yelling, "The guard says for God's sake come up to the smallpox patient, he's drunk and fighting. They have broken the windows up stairs. They threaten to break out and go down town. The guard has no gun and he's afraid he cannot keep them back."

Cox had not slept much for two days and nights but he jumped ten feet in the air a second time and hastened to the pest house. He found that the guard wanted help. He summoned Patrolman Miller. Ritchie came out on the porch and swore that he was going to leave and go up town.

"You get back inside there or I'll blow a hole through you," said Miller. Ritchie retired as quickly as he could considering the jag he was carrying.

"Ritchie," groined Cox, "you ought to be ashamed of yourself to get drunk when we hired you to nurse this smallpox patient. You ought to be tarred and feathered and run out of America."

Cox, who was a little tipsy himself, leered the inebriated nurse. Come here and draw a line how the pork. H'm a—, h'm H! can't walk but better not ye can."

Dr. Coffe was again summoned. The police department was notified of the new turn of affairs and assistance was secured from that source. A hustle for another sober nurse was commenced. Finally a Frenchman named Comte-manche who has had the smallpox was secured.

Ritchie and McGone would not let him in. "Court-manche then said that if they would get another man, he would go in anyway and lock up the drunken nurse. So another Frenchman named LeVasseur was secured and chased them out to order on the scourgings of the pest house.

When Ritchie was asked how he broke the window said he said: "H! did not break hit, the other feller broke hit."

"How did he break it?" "Ho, 'e got it 'cels igher than 'e 'ead, has he man will, ye know."

It seems that whisky is considered a medical necessity in caring for smallpox patients. When Dr. Coffe sent down food and medicine he put in half a gallon of liquor. That is what the unfaithful nurses drank.

Up to noon the two French nurses were sober. The board of health went out to the neighborhood of the old pest house Saturday evening. They recommended the erection of an emergency hospital out there. At the mayor's request Building Inspector Robinson is figuring today on the cost of such a structure. The matter will be acted upon by the council this evening.

Montgomery is a pretty sick man, but if a corps of temperate nurses can be secured there seems, at present, no reason why he cannot recover in due time.

Part IX on sale now. Bring in your coupons and dimes.

Part IX of "Art Portfolio" now ready.

AMUSEMENTS.

"A Night at the Circus."

The fun in "A Night at the Circus" is not at all microscopic. All the humor is broad enough for the most unenlightened mind. It seemed to please people, for the acrobatic comedy of the play received its fair share of applause. Some of the specialties are very good. Nellie McHenry is jolly and that is about all that can be said. She is getting to be a back number and certainly needs a new play.

The Bohemians.

The Bohemians will hold the boards at the Temple Thursday night in comedy with a double bill beginning with a curtain raiser of about twenty minutes consisting of the funny farce "Pasha of Pimlico" and concluding with the legitimate comedy "Our Boys." A number of boxes have been spoken for and this will no doubt prove the society event of the week.

The Strong Men.

The famous athletes Wahlund and Johnson appeared last Saturday night in Minneapolis and in speaking of their performance the Minneapolis Tribune says:

"The Swedish giants Wahlund and Johnson performed some astonishing athletic feats at Harmonia hall last evening. They tossed dumbbells weighing hundreds of pounds about as an ordinary person would toss a rubber ball, and raised weights with one hand that a strong man could not lift from the floor with both hands. The crowning feat was the holding of eighteen men suspended in the air by Wahlund. This performance created a furore of applause."

They appear at the Pavilion next Friday. A musical program by the orchestra and soloists will be given.

PEOPLE WHO TALK.

Set of Rules for the Pavilion Concerts—One of A. D. Thomson's Stories.

"I want to suggest a few rules and conditions for conducting these Sunday concerts" said a crank at the Pavilion as he kicked a yellow dog that had just rubbed the shine off one glossy shoe.

"In the first place, station a special policeman at the gate to keep out dogs. Let them exercise the same authority on small boys who pay no tribute to the incline, unless accompanied by their parents."

"These mottoes hung around under the roof are evidently good and should be translated into all the European tongues so that the majority can read them."

"If the ladies are to be choked with tobacco smoke, compel the use of a betel-nut pipe."

"Station a few special policemen about the building to suppress the irrelevant noise that now disturbs both musicians and audience."

"Add a few more seats so that at least half the ladies may sit."

"Printed programs would probably be well received by the patrons."

POLICE STATISTICS.

Record of the Departments During the Month of March.

According to the report of the police department for the month of March, which has just been completed by the clerk, the fines amounted to \$944.66. One year ago, for the same month, they ran up to \$1246.89. For the same month last year there were 166 arrests; this year there were 220.

Classified those arrested were: Male, 107; female, 23; married, 28; single, 192; white, 212; colored, 8. The offenses charged were: Assault and battery, 9; assault with intent to kill, 2; bastardy, 1; drunk, 76; forgery, 3; larceny from justice, 1; grand larceny, 10; incorrigible, 2; keeping house of ill fame, 15; malicious injury to property, 1; selling cigarettes to minors, 2; peace warrants, 3; destroying evidence, 1; petit larceny, 2; perjury, 2; residing in house of ill fame, 1; common beggar, 5; disorderly conduct, 7; vagrancy, 57; insulting language, 2; keeping disorderly house, 2; non-support of family, 1; no complaint, 7.

The nativity of those arrested was: Austria, 1; Canada, 4; Denmark, 3; Finland, 10; France, 9; Germany, 17; Ireland, 33; Norway, 7; Poland, 1; Russia, 1; Scotland, 6; Sweden, 31; Turkey, 1; United States, 30-7 colored and 21 white.

For the same month 612 lamps were reported unlighted, 9 lost children were returned to their parents, 165 meals were served to prisoners and the patrol wagon traveled 156 miles.

The Skill and Knowledge

Essential to the production of the most perfect and popular laxative remedy known, have caused the California Fig Syrup company to achieve a great success in the reputation of its remedy, Syrup of Figs, as it is conceded to be the universal laxative. For sale by all druggists.

20 Per Cent Discount on All of Our Spring overcoats.

CHARLES W. ERICKSON, 219 West Superior street.

THE REPUBLICAN CLUB.

Its Organization Completed at Saturday Evening's Meeting.

The organization of the St. Louis County Republican club was completed on Saturday evening in the council chamber. H. M. Myers was elected vice president and J. R. Carey treasurer. A committee consisting of the officers of the club was appointed to revise the constitution so as to comply with the requirements of the state league.

H. M. MYERS.

Messrs. Spencer, LaVaque and Myers were appointed to look up quarters for the club and to confer with committees from the Scandinavian club relative to sharing the rooms.

A statement was made that the club ought to interest itself in the caucuses and see that good Republicans are chosen to represent the party, but Dr. Barrett differed and thought that the club should have nothing to do with the selection of candidates. Its province is to elect them when they are chosen.

C. A. Towne made a motion that congratulations be sent to Thomas B. Reed upon the success of his common-sense ruling of counting a man when he is present. It was unanimously carried.

There was some discussion as to the advisability of circulating literature, and C. A. Towne volunteered to make inquiries at the national Republican headquarters when he is in Chicago in a few days.

An adjournment was taken to Wednesday, May 2.

The Pavilion Concert.

About 1500 people were at the pavilion concert yesterday afternoon, the delightful weather drawing everybody out. The music was excellent, the band never having played better. Several of the numbers were enthusiastically received.

I. O. O. F. Lecture.

All Oddfellows in the city are cordially invited to meet with Silver Lodge, I. O. O. F., at Odd Fellows hall, on Wednesday evening, April 25, at which meeting Rev. Dr. A. W. Ryan, will deliver an address. H. A. HAMILTON, N. G.

The Best Salesman is the Price!

\$11.98.

For Monday, 23d, Tuesday, 24th, and Wednesday, 25th, we place on sale 392 Clay Worsted Suits, in Long Cut Sacks and Three-Button Cutaway Frocks, at \$11.98.

Oh, Nothing! No, No; Nothing!

Nothing will please you more than to buy what you want cheap. We can say that we own our goods for less money than any other merchant in the West. We have buyers on the market all the time, picking up snaps, and this year of all years they have been buying them, and all are bought in the East—New York, Boston and Philadelphia.

The Talk of the Town

Is The Woodward. There is such a marked difference in our prices that you do not have to be a first class judge to see it. We ask you to come and look, even if you do not want to buy. Just think! We sell Suits for \$8 and \$10 that you will pay \$15 to \$18 anywhere for.

Advise your boys, or bring them along. You cannot make any money easier than by buying cheap. We have Boys' Nobby Suits, 4 to 14 years, for \$1.50, \$2, \$2.50 and \$3. A beauty for \$5, with two pairs Pants and a Cap to Match.

You Will Miss It

If you do not take a look at our Hats, just bought for a price. We put on sale 100 dozen Nobby Stiff Hats that usually sell for \$2, \$2.50 and \$3, for

\$1.50

The Woodward Clothing Co.,

224 West Superior Street,

FRED SCHOFIELD, Manager.

THE THOMAS ORCHESTRA.

Herr Carl Reidsberger, Formerly a Member, Talks Interestingly of It.

"I hear that the Thomas orchestra is going to leave Chicago," said Herr Carl Reidsberger the other day. "It seems hardly possible to believe that the citizens of Chicago who have always been so proud of their greatness will no longer subscribe to an orchestra that is undoubtedly the finest in existence. The probable return of the orchestra to New York will be highly welcomed by its members who have been crying to get back to that city ever since they left there. Of course the expense of keeping the orchestra together is something enormous. The salaries range from \$35 to \$80 a week per man, according to the instrument he plays, and when travelling, the management pays the expenses of first-class hotel, railroad and sleeping car fare. It you add the high salary of Thomas, you will see how difficult it is to make both ends meet with four concerts a week which the orchestra is obliged to play. No wonder the deficit in the first season in Chicago, when I was with it, amounted to about \$35,000."

"There can be no doubt that the Thomas orchestra is the finest symphonic orchestra in existence. The fifty-eight musicians who form the so-called regular Thomas orchestra which came from New York are men of experience secured from the best European orchestras. The examination they have to pass before Thomas in order to enter the orchestra is very severe. Solo playing and sight-reading are the principal features of it. After obtaining the position the new member is constantly watched for quite a long time by the conductor and musicians who do not come up to his expectations is sure to lose his place very soon."

"The discipline of the orchestra is wonderful and cannot be excelled anywhere. As the salaries paid exceed those of any orchestra, either in Europe or America, almost every first-class musician desires to become a member of the orchestra. Theodore Thomas gets more applications from every part of Europe and America than he can read, and when traveling he is asked time after time in smaller cities to listen to violinists and others who apply for positions. You see he can select from a large list. The second season of our Chicago engagement he had such a fine orchestra that when we had our first rehearsal he said that any member could play in public if he wished to."

"In nationality the orchestra is very varied. At my time we had forty-five Germans, three Scandinavians, three Dutchmen, three Scandinavians, two Belgians, two Frenchmen and one Irishman, the librarian. The latter is a very original character. He has charge of the biggest musical library any conductor ever possessed and without knowing one single note, he knows it to perfection. There is never a sheet of music missing and I don't think Thomas could get along without 'Mac' as we called him. Often his place has been taken by some first class musician who with all their musical knowledge could not manage the library. 'Mac' was called back again and knowing how invaluable his services are, he commands a surprisingly big salary. He, in speaking of the organization, invariably says myself, the old man (meaning

Thomas) and the musicians." It has occurred in small cities where Thomas is not known personally that when 'Mac,' all important, in full dress, has started out to place the conductor's baton on his stand, he has been greeted with storms of applause being taken for Thomas."

"Of course when leading the orchestra he has to go through some hardships. I remember that once we left Kansas City for Omaha, a distance of a little over 200 miles at 8 o'clock in the evening on a special train, and as the Missouri valley was all flooded and our train was moving through water all the time we did not reach Omaha until 10 o'clock at night. Milward Adams, the manager of the Chicago Auditorium, and the orchestra was standing in the locomotive for several hours during the day, trying with the aid of several men to make the engineer run his train a little faster. We started the concert in Omaha at 10:30 o'clock at night and were through at 12:45. The audience had admirable patience and had been waiting for us since 8 o'clock. In spite of such happenings the boys enjoy themselves immensely and their performances are always successful. The only wish is that the time may come when their concerts will be a success financially also."

Somebody has circulated the report that I am to leave here in August. This is entirely incorrect. I am more than satisfied with Duluth and I am here to stay.

Bryant School Contract.

The board of education let the contract for building the foundation of the Bryant school, on Saturday evening to Fredin & Wilson. The president and clerk will consult with the architects and determine what material to use. The bid was as follows: Trap rubble walls, \$4.00; sandstone rubble, \$4.85; additional excavating, 30 cents per cubic yard; additional trap rubble masonry, \$10 per cord; additional sandstone rubble masonry, \$13 per cord; with trap rubble walls and iron river stone footings, \$4.50; with both from river stone rubble and footings, \$4.65. Thirty days is the time given in which to complete the work.

The Pool Tournament.

At the Duluth club Saturday evening, the handicap pool tournament was continued. S. E. Matter defeating C. A. Davis, making 25, the required number, to the latter's 27, he requiring 60. H. E. Gilbert defeated E. C. Maxwell, 70 to 66, the latter needing 80. Gilbert forfeited to McLennan, and tonight the final game will be played. S. E. Matter will play Den McLennan 25 points to 100.

The whist tournament will be continued this evening.

A bowling tournament will begin this week and thirty or forty contestants will be entered.

Ralph Marble the Choice.

Ralph Marble will be Maj. Baldwin's choice for the appointment to the Annapolis Naval academy. He passed highest in the educational examination and has passed the physical examination also. Charles Morris is named as alternate.

NOTICE OF MORTGAGE SALE.

Default has been made in the conditions of a certain mortgage, duly made and delivered by John Duncan Moore and Dania A. Moore, his wife, of Duluth, Minnesota, mortgagee, to Peoples Savings Bank of Duluth, Minnesota, mortgagee, bearing date the 20th day of November, 1893, in and for St. Louis County, Minnesota, on the 18th day of December, 1890, at 4 o'clock p. m., in book 82 of mortgages, on page 155, which mortgage and the debt thereby secured were duly assigned by said Peoples Savings Bank to the undersigned, Miles H. Johnson, Lewis County, New York, who is now the owner and holder thereof, by written instrument, bearing date the 22nd day of December, 1893, and duly recorded in the office of the register of deeds in and for St. Louis County, Minnesota, on the 14th day of February, 1894, at 4 o'clock p. m., in book 14 of mortgages, on page 287.

And whereas said default consists in the failure of the mortgagee, their heirs or assigns, to pay the amount of seven hundred and thirty dollars and 60 cents, due and payable by the mortgagee, on the 25th day of November, 1893, all of which is yet due and owing upon said mortgage. And also in the failure to pay one hundred and seventy-five and 37-100 dollars taxes and assessments duly levied upon the premises covered by said mortgage and herebefore paid by the undersigned, after sale of said premises, therefore, and in the failure to pay sixty-nine and 30-100 dollars principal and the disbursements allowed by said mortgage, to-wit: the sum of seven hundred and thirty dollars and 60 cents, principal and interest, and the sum of two hundred forty-four and 10-100 dollars paid for taxes and insurance as aforesaid, amounting to the total sum of nine hundred and ninety-four and 70-100 dollars, is claimed to be due and is due, owing and unpaid upon said mortgage at the date of this notice.

And whereas, said mortgage contains a power of sale which by reason of said default has become operative and no action or proceeding at law or otherwise has been instituted to recover the debt secured by the said mortgage or any part thereof.

Now, therefore, notice is hereby given that the action of sale of said mortgage and premises therein described is and covered thereby and situated in St. Louis County, Minnesota, to-wit: Lot number fifty-four (54), in block number fifty-one (51), in Duluth Proper, Third Division, according to the recorded plat thereof, with the hereditaments and appurtenances, will be sold at public auction to the highest bidder for cash, to pay said debt, and interest and seventy-five dollars attorney's fee, (one hundred dollars having been stipulated in said mortgage to be paid as attorney's fee in case of foreclosure) and the disbursements allowed by the mortgage, which sale will be made by the sheriff of said St. Louis County, Minnesota, at the court house of said county, in the city of Duluth, in said county and state, on Saturday, the 2nd day of June, 1894, at 10 o'clock in the forenoon of that day, subject to redemption at any time within one year from the day of sale as by law provided.

Dated April 22d, 1894.

RICHARDSON & DAY, Attorneys for said Assignee of Mortgage, 1001 Torrey building, Duluth, Minn. Apr 24-16-23d May 7-14

Part IX on sale now. Bring in your coupons and dimes.

NOTICE OF MORTGAGE SALE.

Default has been made in the payment of the sum of fifteen and 50-100 dollars interest which became due and payable on June 1st, 1893 and in the payment of seventeen and 25-100 dollars which became due and payable as interest on December 1st, 1893, all of which is yet owing and unpaid upon a certain mortgage and mortgage note duly made and delivered by Charles E. Shannon and Martha D. Shannon, his wife, of Duluth, Minnesota, mortgagee, to American Loan and Trust Company, of the same place, mortgagee, bearing date the 2nd day of December, 1892, and duly recorded in the office of the register of deeds in and for St. Louis County, Minnesota, on the 15th day of March, 1893, at 12 o'clock p. m., in book 54 of mortgages, on page 61, which mortgage and the debt thereby secured were duly assigned by said American Loan and Trust Company to the undersigned, Mary E. Haskell, who is now the owner and holder thereof, which assignment of said mortgage and the debt secured thereby, bearing date the 25th day of April, 1893, and duly recorded in the office of said register of deeds on the 19th day of October, 1893, at 4 o'clock p. m., in book 17 of mortgages, on page 101.

And whereas, said default is a default in one or more of the conditions of said mortgage, and has remained for a period of more than ten days, it has become operative with the lender of said mortgage and the notes secured thereby, by the terms thereof to declare the whole debt secured by said mortgage to be immediately due and payable in the exercise of which option the whole amount secured by said mortgage is hereby declared and claimed to be due, and is due and owing upon said mortgage at the date of this notice to the sum of one hundred forty-seven and 30-100 dollars.

And whereas, said mortgage contains a power of sale which by reason of said default has become operative and no action or proceeding at law or otherwise has been instituted to recover the debt secured by said mortgage or any part thereof.

Now, therefore, notice is hereby given, that by virtue of said power of sale and pursuant to statute in such case made and provided, the said mortgage will be foreclosed and the premises therein described and covered thereby, and situated in St. Louis County, Minnesota, to-wit: Lot number eleven (11), in the rearrangement of a part of Summit Park Division of Duluth, according to the recorded plat thereof, with the hereditaments and appurtenances, will be sold at public auction to the highest bidder for cash, to pay said debt, and interest and fifty dollars attorney's fee, stipulated in said mortgage to be paid in case of foreclosure, and the disbursements allowed by law, which sale will be made by the sheriff of said St. Louis County, Minnesota, at the front door of the court house of said county, in the city of Duluth, in said county and state, on Saturday, the 2nd day of June, 1894, at 10 o'clock in the forenoon of that day, subject to redemption at any time within one year from day of sale as by law provided.

Dated April 18th, 1894.

THE DISTRICT COURT

**Charles A. Moore Receives a Verdict For
 Over Four Thousand Dollars Against
 Hutch Bevier et al.**

**W. S. Norton Convicted of Selling Minutes
 To a Piece of Land Under
 False Pretenses.**

**Daniel Carney and James Miller Being Tried
 for Burglary—Court Cases Taken
 Up Today.**

The sealed verdict in the case of
 Charles A. Moore against G. W. Davis,
 Hutch Bevier and Jeff Hildreth was
 opened this morning and found to be in
 favor of the plaintiff for \$4131.44.

The jury in the case against W. S.
 Norton for grand larceny in the second
 degree found him guilty, but recom-
 mended him to the mercy of the court.
 No reason for this was given.

Judge Lewis was this morning hearing
 the case against Daniel Carney and
 James Miller for burglary in the third
 degree for breaking into a refrigerator
 car and taking some pork belonging to
 the Cudahy Packing company.

They were tried last term for the steal-
 ing, being charged with grand larceny
 in the second degree. The jury found
 them guilty of petit larceny. Their
 counsel this morning moved to dismiss
 on the ground that they had previously
 been tried and convicted for the same
 offense. Judge Lewis overruled the
 motion, deciding that the crime was
 composed of two parts—breaking into
 the car and stealing therefrom—and that
 they might be tried separately for each
 part.

Judges Moer and Ensign commenced
 on the court cases this morning. All the
 day's settings were continued except the
 case of H. E. Long against John Clerici
 et al, which was stricken from the calen-
 dar. All jurors except those engaged
 were excused this morning.

The following setting of court cases
 for the remainder of the week contains
 all except twelve of the cases to be tried:
 Tuesday—20, 21, 23, 26, 35, 37, 48, 49,
 50, 51, 52, 55.

Wednesday—58½, 59, 60, 65, 66, 67, 70,
 71, 72, 73, 75, 76, 78, 84, 86.
 Thursday—89, 90, 91, 97, 102, 105, 106,
 110, 111, 112, 114, 116, 118, 122, 123.

Friday—133, 134, 137, 138, 139, 140, 141,
 142, 144, 146, 148, 150, 152, 154, 154.

The Municipal Court.
 Pat Cain and George McDonald were
 sent up for ten days each this morning
 for drunkenness. Archie McDonald got
 a suspended sentence on a similar
 offense and Lola Wheeler, charged with
 residing in a house of ill fame, forfeited
 \$10 bail. Solomon Baine was up for
 threatening an assault on his wife. He
 will be tried tomorrow afternoon.

CARLTON COUNTY SLATE.

**Francis Omeis Has Leased the Quarry Near
 Cloquet.**

Levi Deetz has leased his main slate
 quarry to Francis Omeis, stone worker,
 of Duluth. It is a 25-year lease
 upon a basis of 12½ per cent of the net
 profits of the enterprise. Mr. Omeis has
 a crew of six men already at work, and
 will add to that number shortly, says the
 Cloquet Pine Knot.

He has ordered a quantity of the best
 quarrying machinery in the land, includ-
 ing two Channelers, and will go about
 forty feet deeper, or a total depth of 120
 feet, before commencing to drift. There
 is a ready and inexhaustible market for
 the Carlton county slate that can be
 turned out and these valuable deposits
 are only in the infancy of their develop-
 ment.

Slate and its manufacture is bound to
 be one of our chief industries in the near
 future, and a great deal of credit for this
 is due to the persistence, pluck and per-
 severance of Levi Deetz.

Will Cure Bert Costello.
 Bert Costello is to be taken to Red
 Wing today to be placed under the care
 of a specialist, Dr. Hewitt. He agrees
 to effect a cure in three or four months
 and declares that he does not merely
 think he can cure him, but knows that
 he can.

NEW DEFENDANTS JOINED.

**Further Proceedings Incident to the West Su-
 perior Company's Collapse.**

In the case of the Northwestern Iron
 company against the West Superior Iron
 and Steel company and others a number
 of new defendants were joined Saturday,
 and the complaint was amended to show
 that they were stockholders.

The new defendants and the amount
 of stock held by each are as follows:
 John D. Rockefeller, \$17,300; Colgate
 Hovi, \$53,200; R. L. Belknap, \$67,300; R.
 J. Wemyss, \$69,000; T. F. Oakes, \$37,-
 500; J. H. Ames, \$14,700; A. M. Paterson,
 \$15,000; James De Forrest, \$10,000;
 A. M. Gurney, \$15,000; George
 Bertier, \$15,000; and J. R. Rose-
 velt, \$6,000. The original defendants
 were the West Superior Iron and Steel
 company, the Land and River Improve-
 ment company and James L. McGrath.

LOOKING FOR BURNS.
 Promised to Get Them Employment, but Did
 Not Do It.

Superintendent of Police Smith, of
 Minneapolis, was visited on Saturday by
 a crowd of laboring men who claim to
 have been swindled by a man named
 Henry Burns, who represented to them
 that he would get them work. The men
 state that they first knew Burns last
 summer when they worked with him on
 the Missabe railroad in the Lake Su-
 perior mining country, and when they
 met him in Minneapolis he told them
 that he could secure work for all of them.

There were twenty-three of them in all,
 and placing full confidence in his state-
 ments they paid him \$5.50 apiece and he
 went to St. Paul ostensibly to buy rail-
 road tickets, promising to return in the
 afternoon. He has not come back yet
 and they are of the opinion that they
 have lost their money.

A "Taxpayer" Kicks.
 Building Inspector Robinson received
 an anonymous communication this morn-
 ing from a fellow who signed himself
 "Taxpayer" kicking because several
 buildings have been erected on alleys at
 West Duluth. Mr. Robinson says that
 the offense is a matter solely under the
 jurisdiction of the board of public works.
 He is sorry, however, that the West
 Duluthian had not courage enough to
 sign his name, for if he had done so, the
 matter could have been explained to
 him personally.

Larson's People Heard From.
 Chief Armstrong is in receipt of a let-
 ter from C. B. Dalvig inquiring as to the
 circumstances of the death of M. Lar-
 son, who was killed last week by falling
 through an open hatch on the Fiske.
 He states that the deceased was the only
 support of his mother, who is a woman
 in very poor circumstances. He also
 directed that all the deceased's effects
 be shipped to Atwater, Minn.

 Duluth Music Club.
 Selection—"Fiddle and".....A. Goodere
 (Violin obligato).
 Selection.....Horne's Orchestra.
 Solo—"Swedish Folk Songs".....
 Mrs. Agnes Hall.
 Selection.....Horne's Orchestra.

PRESIDENT VAN HORNE HERE.

**Rumor That the Winnipeg Will Parallel the
 Missabe Road.**

President W. C. Van Horne, of the
 Canadian Pacific railway, was in Duluth
 yesterday accompanied by General
 Manager Fitch, of the South Shore road,
 Thomas Tait, assistant general manager
 of the Canadian Pacific and D. A. Peter-
 son, chief engineer. They went right
 through Duluth yesterday over the Win-
 nipeg road and returned in the evening.

Neither Mr. Van Horne or Mr. Fitch
 would have anything to say. The for-
 mer said his trip was simply one of in-
 spection. Many believe that it had
 something to do with the extension of
 the road to Winnipeg this summer.

A man who claims to know assigns
 another reason for the visit. He says it
 is extremely probable that the Winnipeg
 road will be extended to the Mesabi
 range this year from near Stony Brook
 junction, almost paralleling the Missabe
 road. It is claimed that a large ore
 traffic can be secured from a number of
 mines not identified with the Consoli-
 dated interests.

When Baby was sick, we gave her Castoria.
 When she was a Child, she clung to Castoria.
 When she became Miss, she clung to Castoria.
 When she had Children, she gave them Castoria.

CATE & CLARKE,

333 WEST SUPERIOR STREET

THEY SEIZED A TRAIN

Coxeites at Butte Broke Into the Northern Pacific Round House and Captured a Train.

An Engine Was Fired Up, and All Boarded the Train Which Was Started Eastward.

At Midnight They Had Reached Bozeman, Where They Stopped to Wait Until Daylight Arrived.

ST. PAUL, April 24.—The Coxeyites at Butte broke into the Northern Pacific round house last night, seized an engine and train, manning them from their own number, and started east at forty miles an hour. There are between 400 and 500 men in this branch of the industrial army, and they have been camped at Butte, Mont., for several days while their leaders were trying to arrange for transportation. This had been refused and the men came to the conclusion that if they wanted a train they must take it, and proceeded to do so.

The army includes men of all occupations, including some railroaders, and last night the Northern Pacific round house at Butte was broken into, an engine fired up and run out, a train made up, the army marched aboard and then a train crew of "soldiers" took charge of the train and started east at the best speed possible. At midnight they had reached Bozeman, where they stopped to wait till daylight, intending to resume their journey at once. The Northern Pacific officials in this city, from whom these facts have been learned, say there is nothing to stop them until near Livingston, where a small washout will cause a little delay.

WILL HAVE A HARD PULL.

Coxey's Commonwealers Are Having a Weary March Today.

BOONSBORO, Md., April 24.—Three hundred men, the largest number since the army left Massillon, constituted the main division of the Commonweal on its march out of Boonsboro. The party camped within sight of the battle ground of South Mountain and several of the men have dug up bullets on the field where camp was pitched.

The march carried the party over another battle ground and through Turner's gap. One of the conspicuous points on the line was Washington's mountain, which is perched just on the summit of the Free Masons on the summit of the mountain. It was saluted with three cheers by the army.

Another point of interest was notched—the handsome summer home of Mrs. Madeline V. Dahlgren, the talented Washington authoress whose mountain cabin is perched on the county line that runs over the mountain. The march to Frederick is sixteen miles and the men will have a hard pull to make it in one day.

HE WAS FATALLY BURNED.

Clothing of a Small Boy Set on Fire by His Brother.

KANSAS CITY, April 24.—Ernest Newton, the 3-year-old son of Mr. and Mrs. Thomas Newton, of 816 Gilmore avenue, has died from the results of injuries received at the hands of his older brother. The children were playing in the yard and the older brother set fire to the clothing of the younger brother. This was done several times and the flames were extinguished without injury to the child, but the last time the flames got beyond the brother's control and caused injuries which proved fatal.

THROW AWAY A FORTUNE. VANCOUVER, B. C., April 24.—About a month ago the crew of the fishing steamer Captain found a lump of white looking substance while cruising about a hundred miles from the coast. The stuff was kept for some time as a curiosity but finally they threw it over after cutting off a small piece. On their return to town the piece saved was examined by several experts who declared it was ambergris. As the lump weighed close on to 100 pounds its estimated value is \$250,000. A party has now gone up with a diver to search for the missing treasure.

EARTHQUAKE IN GREECE. LONDON, April 24.—A special dispatch from Athens to the Times says that a trembling of the earth is still perceptible but no more serious shocks have been felt. The dispatch adds that the Parthenon has been damaged, a splinter three feet long and one foot and a half wide having fallen from one of the columns on the northern side of the building.

CAPTURED BY THE FRENCH. PARIS, April 24.—A telegram received here from the Congo states that Lieut. Lothaire, at the head of a detachment of state troops, has captured Kadambare, between Lake Tanganyika and Manuema.

NATURAL GAS SCHEME. PERU, Ind., April 24.—A gigantic natural gas scheme has been organized at Lafayette, under the laws of New Jersey, to supply Indiana and Ohio cities. The capital is \$1,000,000.

CONFESSED HIS GUILT. PARIS, April 24.—Count Elie de Tallyrand Perigord, who was arrested last week, with a companion named Westime, charged with forgery, the complaint being M. Max Leclaudy, has confessed that he is guilty of breach of trust.

NO CHALLENGE RECEIVED. LONDON, April 24.—The president of the Oxford university club says that no proposal for a race has been received from the United States and the challenge must come from the other side of the Atlantic.

WRECKED BY DYNAMITE. LANCASTER, Pa., April 24.—About midnight the Pennsylvania railroad station at Watts was badly shattered by a dynamite explosion. There is no clue to the identity of the miscreant or the motive.

BANKERS IN TROUBLE. KANSAS CITY, April 24.—A report comes from Enid, O. T., to the effect that the Merchants bank has failed, and that a mob ran the cashier to North End where he took a train. The president's life is said to be in danger.

WANTS HIS PHOTOGRAPH. Sheriff Sharpy's Able Paper is Making Him Famous.

Sheriff Paul Sharpy has made a reputation by the paper read by him before the convention of the state board of charities and corrections last January. He received a letter from Secretary Hall, of the state board, of which the following is an extract:

"You are getting your name up. I had a letter this morning from Michigan requesting fifty copies of your address. The writer says: 'Where did you find so phenomenal a sheriff? I should like to have his photograph. Can you send me fifty copies of his address? I want them to distribute among some of our sheriffs.'"

THAT IMPOSSIBLE CANAL.

Congressman Keller Still Urging An Appropriation for a Survey.

WASHINGTON, April 24.—When the house committee on railroads and canals holds its next meeting the subject of an appropriation of \$10,000 for the survey for a route for a canal connecting Lake Superior and the Mississippi river will be brought before it by Representative Keller, of Minnesota.

The proposition will be fortified by a report of a partial survey made under the direction of the Minnesota geological survey. The portion of the proposed route considered in this report is that which lies between the East Savannah and West Savannah rivers, and is known as the divide.

It is about three miles long, and is the old route of the Hudson Bay company for the transportation of supplies and furs from the Mississippi to Lake Superior by canoe used until about fifty years ago. The topography of the divide is flat or undulating, consisting largely of sand and gravel without rock. Water more than six feet higher in this section of the proposed canal can be had by diverting to it the streams, small lakes and swamps that now drain into the West Savannah river. Another suggestion is to unite the Savannahs by a cutting of about a mile.

STRINGER IS ATTORNEY.

Congressman Hall's "Dark Horse" Was Named Today as United States District Attorney for Minnesota.

WASHINGTON, April 24.—[Special to The Herald.]—The president today sent to the senate the nomination of E. C. Stringer to be United States attorney for the district of Minnesota. This appointment is considerable of a surprise to the Democrats here. Maj. Baldwin had felt certain that his last candidate, D. T. Calhoun, would be appointed. The appointment is generally looked upon as a turn-down for "Boss" Doran.

Representative Hall has had considerable to do with securing the place for Stringer, because, although his law office is in St. Paul, his residence is really in Hastings.

A CYCLONE IN TEXAS.

Houses Blown Down and a Young Woman Fatally Hurt.

NEW ORLEANS, April 24.—A special to the Times-Democrat from Burkesville, Texas, says: A waterspout and cyclone played havoc about twelve miles west of here. Every house at Gilchrist's suddenly drew a revolver and flying timbers struck Winchester in Ralph Gilchrist's house causing it to disintegrate. The bullet struck Miss Gilchrist, inflicting a fatal wound.

Houses were blown down on the following plantations: A. C. Habeck, John Goyce, J. E. O'Donoghue and R. D. Quinn. Several bridges were washed away.

PANIC IN A CHURCH.

PARIS, April 24.—In the church of Notre Dame, a man supposed to be insane who was among the crowd of worshippers suddenly drew a revolver and fired four shots before he was disarmed. The firing caused a panic in the church, men, women and children screaming and running towards the doors anticipating another anarchist explosion. Luckily, not one of the shots took effect and the man who caused the panic was removed in custody.

Grading Contract Let.

SHERIDAN, Wyo., April 24.—The Burlington & Missouri River Railway company has let the contract for the grading of the extension of the line from Sheridan to Great Falls, Mont., 125 miles, and expects to have the road in operation by October.

A Conflict Probable.

CHICAGO, April 24.—Two hundred more fighting bricklayers started today from Blue Island to Schererville. Twenty-four deputy sheriffs armed with Winchester at the latter place await them. A conflict is feared.

Cholera in Portugal.

LISBON, April 24.—During the twenty-four hours ending yesterday evening there were 104 cases and three deaths from cholera reported here. The Portuguese government has stopped all telegraphic messages.

Confessed His Guilt.

PARIS, April 24.—Count Elie de Tallyrand Perigord, who was arrested last week, with a companion named Westime, charged with forgery, the complaint being M. Max Leclaudy, has confessed that he is guilty of breach of trust.

No Challenge Received.

LONDON, April 24.—The president of the Oxford university club says that no proposal for a race has been received from the United States and the challenge must come from the other side of the Atlantic.

Natural Gas Scheme.

PERU, Ind., April 24.—A gigantic natural gas scheme has been organized at Lafayette, under the laws of New Jersey, to supply Indiana and Ohio cities. The capital is \$1,000,000.

ATTEMPT TO MURDER

An Old Soldier at Marquette Tried to Shoot His Wife and Wounded Another Man.

Then He Barricaded Himself in His House and With a Gun Defied the Sheriff.

It is Believed That He Will Surrender When the Whisky Gets Out of Him.

MARQUETTE, Mich., April 24.—Albert Kaufman, aged 64 years and a veteran of the civil war, is surrounded in his house near Au Train by a sheriff's posse anxious to arrest him for the attempted murder of his wife and of Joseph Richards, aged 75 years. Kaufman murdered his first wife in a drunken frenzy in 1884 and was sentenced to twelve years in state prison. Through the influence of the G. A. R., he was pardoned on condition that he should never drink again. He has lately broken his pledge and yesterday while drunk tried to shoot his present wife. Joseph Richards came to her aid, whereupon Kaufman fired five shots at him, breaking his arm and wounding him in the side. The sheriff took several men and went to the scene. They found Kaufman barricaded in his house, and as he has a rifle and considerable ammunition, and is a good shot, they camped out around the house. It is believed that Kaufman will surrender when the whisky gets out of him. Richards may recover although his age is against him.

IT HAS NO PRECEDENT.

The Movement of Coxeyites Discussed by the London Journals.

LONDON, April 24.—The Chronicle this morning contains an article on the American industrial armies which are marching to Washington. It says that the American people are coming face to face with the Neolithic attendant upon the easy going lassitude which has handed over the world's greatest republic to the tender mercies of the unscrupulous people, tyrants and millionaires. It says: "The movement may fizzle out, but unless we are mistaken a conflict is preparing which will be disastrous as that over slavery."

The Daily News this morning says: "The most serious danger lies in the important characteristics of the American treatment of socialists. It is admitted that if it comes to a conflict with the militia, the Coxeyites will probably be moved down by the hundreds. There is no danger whatever to the government, but there is danger of bloodshed. The movement, according to the Daily News has no precedent."

THE TREASURY ARMED.

Prepared for a Raid by the Coxey Army.

WASHINGTON, April 24.—Several hundred stand of small arms and repeating rifles were delivered at the treasury department today from the war department. The small arms were turned over to Capt. Putnam, of the treasury watch and the repeating rifles were placed at command of the treasury department. There is no doubt about the treasurer's end of the building.

Drove Out Italians. AKRON, April 24.—A mob of about 300 American workmen have driven a large gang of Italians working on street improvements from their work and are now parading the streets. The Italians have been getting \$1 per day which the Americans claim is not living wages. Further trouble is looked for.

Governor Waite's Latest.

DENVER, April 24.—Governor Waite has summoned Penitentiary Commissioners Charles Boettcher and E. A. Reynolds to appear before him April 30 for trial on various charges. The governor desires to be rid of these commissioners as they blocked his attempt to remove Warden McLister of the penitentiary.

Will Be Sorry They Struck.

DENVER, April 24.—The Colorado Fuel and Iron company today notified the Coal Creek miners, who struck yesterday, that the mine will be shut down for thirty days and that when it is reopened wages will be cut 10 per cent.

Wrecked by Dynamite.

LANCASTER, Pa., April 24.—About midnight the Pennsylvania railroad station at Watts was badly shattered by a dynamite explosion. There is no clue to the identity of the miscreant or the motive.

Bankers in Trouble.

KANSAS CITY, April 24.—A report comes from Enid, O. T., to the effect that the Merchants bank has failed, and that a mob ran the cashier to North End where he took a train. The president's life is said to be in danger.

WANTS HIS PHOTOGRAPH.

Sheriff Sharpy's Able Paper is Making Him Famous.

Sheriff Paul Sharpy has made a reputation by the paper read by him before the convention of the state board of charities and corrections last January. He received a letter from Secretary Hall, of the state board, of which the following is an extract:

"You are getting your name up. I had a letter this morning from Michigan requesting fifty copies of your address. The writer says: 'Where did you find so phenomenal a sheriff? I should like to have his photograph. Can you send me fifty copies of his address? I want them to distribute among some of our sheriffs.'"

WILLIAM MCGARRAHAN DEAD.

The Celebrated Claimant to the New India Mine Died Today.

WASHINGTON, April 24.—William McGarrahan, the celebrated claimant to the New India mine, died at Providence hospital at 11:45 a. m. today. He had been a familiar figure at the capitol for years and was well known to a majority of senators and members, a majority of whom were believers in the justice of his claim.

A bill to permit a trial of his case in the court of claims was passed by congress but was vetoed by President Harrison. Several other bills had been passed by one house or the other, and a score of committees had reported favorably on this claim.

GREAT NORTHERN STRIKE.

Two-Thirds of the Men Said to Be Opposed to the Scheme of Arbitration.

ST. PAUL, April 24.—There have been no developments yet today in the Great Northern strike situation. All is quiet thus far. The strikers' general committee is in executive session discussing the situation and will later probably ask for a conference with the railroad officials. It is learned that about two-thirds of the men are unalterably opposed to the arbitration scheme, although President Debs and Vice President Howard have used every argument possible to bring the men around to that way of thinking. It is considered probable that the conference will first be held with President Hill before anything definite is decided as to arbitration.

THE RAFTING PROVISION.

Maj. Baldwin Will Move an Amendment to the Bill.

WASHINGTON, April 24.—[Special to The Herald.]—Representatives Baldwin and Haugen, as soon as they discovered the rafting provision in the river and harbor bill, at once made an effort to correct it. They have pretty nearly obtained the consent of the committee to strike out this provision entirely, or to modify it that no injury will result to the harbors of Duluth or Superior.

A New Colt Has Appeared Among the Announced Starters.

LOUISVILLE, April 24.—This is a critical week with Kentucky and Latonia Derby candidates. On Tuesday next the final declaration is due in both these events, and upon the result of the work or trial given this week will depend the number of starters that will go to the post on Derby day.

There is a new Kentucky Derby factor added to the list of probable starters. This is the colt by Imp King Galop out of Sister, called King Charlie. His owner John Hannigan, who announces he will start him.

Coke and Good.

WASHINGTON, April 24.—Consul-General Mason, at Frankfurt, in a report to the state department, suggests that our fruit preservers try the new fruit sugar, made from beet sugar and chemically identical with natural fruit sugar. It is a limpid white syrup of great density. It is sold at 1/2 cents per pound.

Shooting in Court.

NEW YORK, April 24.—Three shots from a revolver were fired today in the court of common pleas and in the presence of Judge Bischoff, not one of them taking effect. The shooter was Michael Donnelly, an iron merchant of 32 Leroy street and the man at whom shots were fired is P. J. McArdle. Donnelly was the plaintiff in a case against McArdle.

Criminally Negligent.

MONTEREY, Cal., April 24.—The coroner's inquest into the cause of the wreck of the steamship Los Angeles at Point Sur on Saturday night resulted in a verdict charging Roger H. Kogel, the ship's third officer, with criminal negligence and carelessness. He was taken into custody.

A Settlement Expected.

WASHINGTON, April 24.—A final settlement of the government's long standing complications with the Pacific railroads is confidently expected, as a result of the activity concerning the roads in congress, in the court, and in the executive departments.

Frank Hutton Paralyzed.

WASHINGTON, April 24.—Frank Hutton, one of the proprietors and editors of the Washington Post, was stricken with total paralysis this afternoon, while at his desk, and has been removed to the emergency hospital. The attack is very serious.

Boys Fatally Burned.

ASHLAND, Ky., April 24.—Two small sons of Hiram Campbell, a section foreman on the Ohio & Big Sandy railroad, living fifteen miles up the line, secured a large quantity of blasting powder from a tool house and set it off with a match, both being fatally burned.

Outwitted Will Retire.

COLUMBUS, Ohio, April 24.—Congressman Outwitted today in an interview for publication said he was not a candidate for re-nomination.

Copyright Trade Mark.

WASHINGTON, April 24.—[Special to The Herald.]—The Minkota Milling company, of Duluth, was today granted a copyright for a trade mark for wheat flour.

Harries Confirmed.

WASHINGTON, April 24.—The senate has confirmed the appointment as collector of internal revenue of William H. Harries for the district of Minnesota.

Shot Her Husband.

BESSEMER, Mich., April 24.—While examining a loaded self-cocking revolver last night, Mrs. John Grist accidentally shot her husband dead.

COKE WORKERS QUITTING.

All the Men in the Connellsville Region Striking.

CONNELLSVILLE, Pa., April 24.—The prediction of the labor leaders that the entire region will be out in a day or two is being fulfilled. The men at a dozen works laid down their tools today, while at many other plants part of the men went out, and others will follow tomorrow.

They claim that the whole region will be out in a day or two. No violence has occurred yet, but a feeling of uneasiness prevails and preparations are being made to protect the plants in the event of a repetition of the disorder of two weeks ago.

An Improbable Story.

WASHINGTON, April 24.—The state department has had no recent advice from Bluefields, so it is not possible for the officials to affirm or deny the truth of the report that the Nicaraguan government has sold the property of the Nicaraguan Canal company, captured a vessel bearing the American flag, landed troops at Bluefields and done other sensational things.

A County Clerk's Shortage.

KANSAS CITY, April 24.—The county court has taken action on the matter of the shortage charged to exist in the settlements of County Clerk M. S. Burr, and ordered suit to be brought against his bondsmen and against him individually, to recover the amount, \$16,045.51, which consists of fees not turned over to the county treasurer in his settlements made in the years 1891, 1892 and 1893.

The New England Coxeyites.

PAWTUCKET, R. I., April 24.—The New England division of Coxey's army reached this city at 11 o'clock today in good condition. The men were cheerful and did not appear weary. They halted for two hours at Collyer park, where Leader Fitzgerald made another speech.

Gen. Frye's Command.

BRAZIL, Ind., April 24.—Frye's Commonweal army arrived here today. It will remain three days, deliver speeches and secure recruits.

Jerry Simpson Better.

WASHINGTON, April 24.—Representative Jerry Simpson is reported much better this morning.

Fatal Mill Explosion.

HUNTINGTON, Ind., April 24.—A tile mill exploded at Markle today, killing several employees and injuring others.

INDIANA CONVENTION.

The State Republican Convention Tomorrow Will Be the Largest Ever Held in the State.

All the Forces Now Arranged on the Field of Battle, Including Delegates and Candidates.

Nine Offices for Which Candidates Are to Be Chosen Confronted with Forty-three Aspirants.

INDIANAPOLIS, April 24.—Numerically the state Republican convention to be held tomorrow in this city will be by far the largest ever held in the state. Seventeen hundred and fifteen delegates will vote for the candidates, the largest previous convention having comprised 1200 delegates in round numbers. The increased number of delegates was deemed advisable in order to give the constituencies an opportunity to express their choice more directly and to equalize more thoroughly the entire vote of the state.

All the forces are now arrayed on the field of battle, including delegates and candidates. Not only is this true, but they have been here for thirty-six hours and the Denison hotel on Pennsylvania avenue, the place that has been chosen as headquarters and where so many candidates have been created and where others have been irrevocably removed from the arena of Indiana politics, has been since Sunday night a human bazaar. The nine offices for which candidates will be chosen are confronted with forty-three candidates. This, too, exceeds in number all previous records.

The office of clerk of the supreme court heads the list with nine candidates. Then comes the auditorship, Indianapolis has three candidates for attorney general with apparently equal strength. They are William A. Ketcham, Thomas Hanna, ex-leutenant governor, and William L. Taylor.

The contest for secretary of state is attracting the widest attention as that office is regarded as containing greater possibilities than any other and by precedent is the resting place just before gubernatorial honors. A conspicuous candidate for the office is Aaron Jones, of South Bend, who headed the ticket two years ago. Jones' opponents say he is nominated it means at least five "old ticket" names and this they do not want. Notwithstanding the unprecedented large number of candidates, little harmony has thus far been observed and the candidates finally chosen will, the leaders say, poll the full party vote and factions and discontent will not result from failure of any nomination.

The present program calls for but two speeches and one of these will be by President Benjamin Harrison. Ex-Secretary of Navy Richard Thompson, of Terre Haute, will likely be chosen as president of the convention. His name, it is positively stated, will be presented for that honor and it is not considered probable that he will be opposed. Gen. Harrison is expected to make some remarks concerning national affairs and his close friends say that he will talk unreservedly and plainly.

The platform is causing much speculation. The committee will be engaged in its preparation all of tonight. It will undoubtedly arraign both the state and national administration and condemn in strong terms the Democratic re-apportionment of 1893. The A. P. A. ally, the committee by the committee by request of certain prominent Catholic Republicans, but whether it will be mentioned in the platform is not certain.

Tomlinson hall, where the convention will be held, has a seating capacity of 5000. The first floor will be used exclusively for delegates and the galleries and corridors for the public. The strife for admission tickets has never before been equalled, and several days ago the full limit of tickets had been distributed.

This congressional district (the Seventh) will choose a candidate to oppose Congressman Harrison today. The candidate will be Hon. Charles L. Henry, of Madison county, who was the candidate two years ago. Hon. Charles W. Fairbanks will preside and the nomination will likely be made unanimously.

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 50c and \$1 bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.

CALIFORNIA FIG SYRUP CO. SAN FRANCISCO, CAL. LOUISVILLE, KY. NEW YORK, N.Y.

THEY LEVIED BLACKMAIL.

Officers and Patrolmen in San Francisco Suddenly Discharged.

SAN FRANCISCO, April 24.—A sensation has been drawing in police circles here for several weeks, it having been known that the board of police commissioners had under quiet investigation a large number of policemen suspected of corrupt methods.

An intimation of what might be looked for was given a week ago, when Capt. William E. Hall, who acted as Chief Crowley's confidential clerk, and five patrolmen were suddenly dismissed from the department. The climax came last night when the police commissioners dismissed without trial three sergeants, two veteran detectives and nine patrolmen. It is stated that still others are to follow. It is charged that the disgraced policemen have long been operating under Capt. Hall and other officers high in the department, in levying systematic blackmail on gamblers and others who have been allowed to violate the law. The men dismissed last night are nearly all from the Chinatown district, where lottery and fan-tan gambling has flourished under corrupt police protection.

CRUELTY IN A CONVENT.

A Young Girl Who Was a Student Was Cruelly Beaten.

YANKTON, S. D., April 24.—Sister Florentine, a member of the Order of St. Benedictine and one of a colony of Sisters of Mercy who conduct a Catholic convent in this city, was before the city justice upon a charge of assault and battery.

She admitted having whipped a 6-year-old girl who was a student at the convent and the child's body showed marks of a most cruel beating. The affair has caused intense excitement and the city authorities will probably make a thorough investigation of the convent and the methods and practices in vogue there.

MURDER IN MONTANA.

Fred Bagley Was Shot by Henry McCloskey During a Quarrel.

ST. PAUL, April 24.—A Butte, Mont., special to the Pioneer Press says that Henry McCloskey, a mine owner residing two miles east of this city, shot and instantly killed Fred Bagley and seriously wounded John Gagnon about 6 o'clock last evening.

The men quarrelled over a debt owed by McCloskey to Gagnon. The murderer was arrested. When drinking, Bagley has always been quarrelsome, but McCloskey has been always considered a peaceable man and good citizen.

May Be a General Strike.

CHICAGO, April 24.—There is a strong probability that all the operating employees of the Chicago City Railway company, which owns the whole entire system of cables and horse cables, besides the elevated road on the South side, will go out on a strike. The trouble arises over the discharge of twenty-two men in the employ of the South Side elevated road, who signed an application for a charter in the American Railway union.

The Olympic Club Won.

NEW ORLEANS, April 24.—The supreme court decided the matter of the State vs. the Olympic club last evening. The court affirmed the decision of the lower court, which was by a majority of the jury in favor of the club. The case has been pending for months and the decision will permit a resumption of glove contests in New Orleans.

The Aquidaban Raised.

NEW YORK, April 24.—A Herald dispatch from Rio Janeiro says: Gonçalves Matta Bruma, was found dead on the floor of his sleeping room this morning, with a bullet in the bowels. His friends think it is a case of suicide. He was 40 years of age.

Large Woolen Mills Burned.

ST. PETERSBURG, April 24.—The large woolen mills situated at Ivano, about sixty miles from Vladimir, have been burned. The damage is estimated at 1,750,000 roubles. Ten persons were killed or injured during the conflagration and 1200 people were thrown out of work.

Murder Near Devil's Lake.

DEVIL'S LAKE, N. D., April 24.—Archie McIntyre was found near the stable of W. D. Spencer, near De Groat this county yesterday, with a bullet hole through his heart. It is understood that Spencer and McIntyre had a quarrel when the former used his gun. Officers are in pursuit of Spencer. Spencer was a farmer and McIntyre's farm adjoined.

Death of a Capitalist.

ST. PAUL, April 24.—Simcon J. Ahern, a well-known capitalist of this city, for many years prominent on Wall street and generally known throughout this country and Europe, died Sunday night of diabetes. He edited at times the New York Albion, Newark, N. J., Advertiser and the Northwestern Chronicle.

A Man Shot.

ST. PAUL, April 24.—A Winnipeg special to the Pioneer Press says: L. G. Hedges, of this city, has received a telegram from Grafton, N. D., announcing that his brother-in-law, Claude Dieter had been shot at Crystal, N. D. No particulars of the tragedy have been received.

Fatal Election Row.

ASHLAND, Ky., April 24.—Information has reached here that in a row growing out of the Republican primaries of Carter county, Albert Vickers, on Sunday shot and instantly killed George Armstrong at Stinson. Armstrong shot first but missed.

Germany's Opportunity.

BERLIN, April 24.—The Kreuz Zeitung argues that Germany allowed her supremacy rights in Samoa to lapse at the Berlin conference in 1889, and adds that the time appears to have come for her to again advance these claims.

Old Officers Helred.

LONDON, April 24.—A dispatch from Berlin to the Daily News says that thirty generals and hundreds of other officers are reported to have resigned. The resignations are said to have been due to Emperor William's determination to replace the older officers of the army with younger men.

HAVE PLENTY OF FOOD

Kelly's Industrial Army is Enjoying Plentiful Fare on Its March Through the State of Iowa.

Farmers Greet the Men on the March with Encouraging Words and Wagons of Provisions.

No Evidence of Yesterday's Mutiny Is Visible and All Have Full Confidence in Kelly.

WALNUT, Iowa, April 24.—Kelly's industrial army reached here at noon today and after a hasty luncheon marched on to Atlantic where they are due at 6 o'clock tonight. The start from Avoca was made about 8 o'clock. The populace turned out en masse to bid the Commonwealthers goodbye. The wagons that had brought them from Neola returned last night and today sixty-three fresh teams furnished by the farmers in the adjacent county were driven into camp at Avoca and loaded with Commonwealthers.

The vehicles could hold only about half the men and every five miles along the road shifts were made to allow all the men to take advantage of the transportation. The army came down the road and marched into Walnut where it was received with the same cordial welcome which has characterized the route. The affair has caused intense excitement and the city authorities will probably make a thorough investigation of the convent and the methods and practices in vogue there.

HARD ON CRIMINALS.

Only One Man Tried This Term For Crime Was Acquitted.

The jury in the burglary case against Daniel Carney and James Miller found a verdict of guilty of burglary in the third degree. They were sent up ninety days last term for petit larceny, and have still part of that sentence to serve. The jury was excused, leaving the twelve engaged in the Mallory case the only jurors working.

The Mallory jury were taken out to West Duluth yesterday afternoon to look at the property in litigation. This morning the arguments were made and after being charged the jury retired at 11 o'clock.

Before Judge Lewis, Gottlieb Salzman sued for a divorce from Augusta Salzman on the ground of adultery committed by her. The case had no case, so judgment was given the defendant for alimony and attorneys' fees.

Judge Ensign was hearing the lien claim of Archibald McPherson against Henry Schumann et al. The case is rather long, there being half a dozen lien claimants.

The day's setting of court cases disappeared rapidly, only two coming to trial. All the rest were continued or disposed of as follows: R. E. McPherson against the village of West Duluth was stricken from the calendar; Honore Michaud against the Northern Hydraulic Press Brick company was dismissed by stipulation; two cases by the North Star Iron Land company against Frank Hibbing et al. and John McKinley et al. were dismissed for want of prosecution.

The case of K. L. and Harriet Wilkins against Isaiah Faries has been dismissed. Judge Moer will probably sentence the prisoners convicted before him tomorrow afternoon. Judge Lewis will sentence new trials will be made in behalf of Marco Matkovic, W. S. Norton and John Wick.

AMUSEMENTS.

The Bohemian Club.

The sale of seats for the Bohemian club entertainment opened this morning and was brisk. All of the lower boxes and one upper box was sold before 10 o'clock. The house will undoubtedly be crowded.

The entertainment opens with the production of the farce, "Fasha of Pimlico," an uproarious piece of nonsense which will make a great hit. The parts are well placed and the talent displayed will be a surprise.

"Our Boys" is a society comedy of the most approved type and has stood the test of a long run in London. In the hands of Arthur Lahey, Dr. Boyer, Ernest Hunter, A. W. Little, Miss Sawyer, Mrs. George and others it will not suffer. On the contrary the rehearsals indicate that it will be presented with the same smoothness and finish that is expected of professionals.

Those who never read the advertisements in their newspapers miss more than they presume. Jonathan Kenison, of Iolan, Worth Co., Iowa, who had been troubled with rheumatism in his back, arms and shoulders read an item in his paper about how a prominent German citizen of Ft. Madison had been cured of the same trouble. He bought a bottle and used his own words: "It cured me right up." He also says: "A neighbor and his wife were both sick in bed with rheumatism. Their boy was over to my house and said they were so sick in bed he had to do the cooking. I told him of Chamberlain's Pain Balm and how it had cured me. He got a bottle and it cured them in a week. 50 cent bottles for sale by druggists."

WEST DULUTH ITEMS.

Contractor McDonnell Is Not Prosecuting the Work of Improving Grand Avenue Through Inland Division.

He Is Unwilling to Risk Any More Money Until He Knows the Assessment Is Valid.

An Ex-Official Wants the City Railway Company's Franchise Revoked and Some Further Provisions Made.

Spring is here but Contractor McDonnell has not yet commenced work on his contract for the improvement of Grand avenue. When asked when he expected to pick up the threads which he dropped in the winter he said he was in a quandary and would have to consult his attorney before taking any further steps. He says that he has ventured several thousand dollars of his own money already and he thinks that it is a little more than his share of West Duluth street improvements. He wants to know whether he is to be reimbursed before he expends any more good money this time.

The difficulty arises from the fact that after condemnation proceedings were concluded a technical error was made by the village which has been used as grounds for refusal to pay assessments by the owners of the abutting property. This places the matter again in litigation, and if the objection of the property holders is sustained the only way out of the difficulty is in reassessment. The people here would be pleased to see the contractor finish the work according to specifications and enter suit for payment.

Whether Mr. McDonnell will be willing to take such action even to save the money already sunk in the uncompleted street is a question. It is understood that the improvement was begun by Mr. McDonnell with the understanding that the assessments were to be paid by the village. If this is the case he has no recourse from the village for the amount already expended. As the case now stands the village is left in a bad condition and Mr. McDonnell has an investment which is at the present time considerably below par value.

Wants It Revoked.

In speaking of the franchise of the City Railway company, a prominent village official remarked that the ordinance which passed the West Duluth council should be revoked by the company before the council passes the new ordinance and that the latter should extend over the limits of West Duluth. The West Duluth ordinance is faulty in many respects. It does not provide for a tax on gross earnings nor does it contain a purchase clause. The revoking of this ordinance, he says, should be one of the conditions of the passage of the new ordinance by the council.

West Duluth Briefs.

John Carroll left today for Chicago to spend the summer.

L. L. Aune goes to St. Paul tonight on business.

The Misses Murray entertained a large party of friends at the Bennett last evening.

The organ recital at the Presbyterian church will not be given tomorrow evening as at first proposed.

The wedding of A. G. Walker, of the O. K. shoe store, and Miss Nettie Hall, of Stockton, took place Sunday at the Methodist church.

Miss M. Kastner is visiting in Chicago.

Mrs. J. J. Frey is visiting friends at Jamestown, N. D.

Mrs. P. F. Daily is dangerously ill.

Fred Jerome, of Iowa, is a guest of Charles Little.

Newton De Forrest has returned from the West.

The new police uniforms are expected to arrive in a few days.

C. C. Merritt is still improving and expected for his recovery are entertained.

Charles W. Viers and H. Juevin have purchased the saloon business of Coggins & Johnson and are making extensive repairs about the place.

The location of the general of the police patrol boxes are being changed for greater convenience in reporting.

The Duncan & Brewer mill will start up again tomorrow after a shut down of a few days for alteration and repair.

At the Great Western Electrical works the patterns for a new street railway motor has been completed and will soon be tested on the lines here.

Are All Sober Today.

All hands are sober at the pest house today and Montgomery, the smallpox patient, is reported much better. At 2 o'clock this afternoon the board of health, accompanied by County Commissioners Porter and Miller went out to the pest house to select a site for the emergency hospital to be erected at once. The people of the West End are widely hostile over having the smallpox patients quarantined down there and it is considered highly desirable and necessary to have the new pest house erected as quickly as possible, as there is no telling when more will not be taken down.

Purify the blood, tone the nerves, and give strength to the weakened organs and body by taking Hood's Sarsaparilla now.

For sale, 1,250,000 feet of pine logs hauled on north shore, 22 miles from city. Boyd & Wilbur, Masonic Temple.

WHEAT TRADING HIGHER.

There Was Good Trading in Wheat in Large Lots.

There was rather poor wheat market here today, although there was a good trading in the July future and in large lots. There was very little doing in cash wheat. The market opened unchanged from yesterday for May, but declined in the afternoon. After a fractional decline it rallied steadily up to noon, then the market became stronger and prices advanced, the close being firm at 1 1/2 higher than yesterday for cash and May, and 1/2 higher for July and September. Following were the closing prices:

No. 1 hard, 50 1/2 c; No. 2, 49 1/2 c; No. 3, 48 1/2 c; No. 4, 47 1/2 c; No. 5, 46 1/2 c; No. 6, 45 1/2 c; No. 7, 44 1/2 c; No. 8, 43 1/2 c; No. 9, 42 1/2 c; No. 10, 41 1/2 c; No. 11, 40 1/2 c; No. 12, 39 1/2 c; No. 13, 38 1/2 c; No. 14, 37 1/2 c; No. 15, 36 1/2 c; No. 16, 35 1/2 c; No. 17, 34 1/2 c; No. 18, 33 1/2 c; No. 19, 32 1/2 c; No. 20, 31 1/2 c; No. 21, 30 1/2 c; No. 22, 29 1/2 c; No. 23, 28 1/2 c; No. 24, 27 1/2 c; No. 25, 26 1/2 c; No. 26, 25 1/2 c; No. 27, 24 1/2 c; No. 28, 23 1/2 c; No. 29, 22 1/2 c; No. 30, 21 1/2 c; No. 31, 20 1/2 c; No. 32, 19 1/2 c; No. 33, 18 1/2 c; No. 34, 17 1/2 c; No. 35, 16 1/2 c; No. 36, 15 1/2 c; No. 37, 14 1/2 c; No. 38, 13 1/2 c; No. 39, 12 1/2 c; No. 40, 11 1/2 c; No. 41, 10 1/2 c; No. 42, 9 1/2 c; No. 43, 8 1/2 c; No. 44, 7 1/2 c; No. 45, 6 1/2 c; No. 46, 5 1/2 c; No. 47, 4 1/2 c; No. 48, 3 1/2 c; CASH GROCERS,

WAS BADLY SNARLED.

Chamber of Commerce Reorganization Scheme Ran Up Against a Parliamentary Snag and There Was Fun.

When the Meeting Finally Adjourned It Had Not Been Extricated from the Peculiar Difficulty.

Difference of Opinion Regarding Barring of Votes in Matters Where Members Are Personally Interested.

A parliamentary abyss yawned before the proposed reorganization of the chamber of commerce this morning and several times it would have plunged in but for the rescuing hand of such parliamentarians as T. W. Hugo, F. E. Searle and others. Finally just as the tangle seemed to be unravelled a worse one was encountered. Somebody yelled a motion to adjourn. It was carried and everybody went out laughing at the comical side of the situation.

Mr. Douglas had the report of the committee on revision of the constitution and by-laws, but failed to show up until the meeting was nearly over and then did not have it with him. President Gridley outlined some of the amendments proposed in the report. One provided for the reduction of the dues from \$25 per year to \$10. Another for changing the time of meeting from Tuesday at 10 a. m. to Saturday at 4 p. m. All members are to be directors and entitled to a vote.

The only change which was discussed was one providing that no director shall vote on a matter in which he has a direct personal interest and that the vote of any member may be challenged. When challenged a member shall be brought before the bar of the chamber and a committee of three shall pass on his right to vote. President Gridley said the change was made because the old chamber had been brought into disrepute through the impression that certain directors used it to further their private interests and to do away with this the committee thought this provision advisable.

T. W. Hugo thought this was super-sensitiveness. He did not think a man need be called on to prove his reputation. Another thing is to know where to draw the line as to what personal interest is.

J. Silberstein said a question of taxes might come up and every man would have a direct personal interest. He did not think it was this that brought so much disrepute on the old chamber. It was trying to reach everything from canals to China and Japan instead of attending to affairs in the city and county.

N. J. Miller thought it would cause ill feeling. Many matters come up which advance personal interests and yet greatly advance Duluth.

The matter was about to be put to a vote when someone suggested that the new members ought to be voted in. F. E. Searle suggested that the by-laws ought to be changed first, reducing the fee from \$25 to \$10.

Then there was a long discussion as to how to do that. The old directors must vote it someone said. There were enough present and they did.

Then it was moved that those who have signed the lists be made directors. The question was about to be put when M. O. Hall spoiled it all by getting up and saying:

"But the articles of incorporation only allow twenty-one directors."

"I move that the old directors meet at 4 o'clock and fix this thing up and that we adjourn," yelled somebody.

It went through with a rush, everybody laughed and all was over.

14 PHENIX BLOCK.

The Municipal Court.

In police court this morning before Judge Powell, Fred Weise and A. A. Kufange dug up \$7 each and paid \$100 in return for what pleasure they derived from indulging in disorderly conduct. William Wilkey, on the charge of assaulting the son of Policeman Kimball in the third degree, pleaded not guilty and his trial was set for April 30. In default of \$50, he was committed. Joseph Lutes was taxed \$750 for using indecent and immoral language. He paid the bill.

Before Judge Winje, William Colburn, charged with grand larceny in the first degree was held to the grand jury and James Carey, charged with petit larceny, was sent up for forty days.

Miss Van Baalen's Debut.
 Mr. and Mrs. D. Van Baalen, of 110 East Third street, gave a party last evening in honor of their daughter, Miss Carrie Van Baalen's debut into society. It was her eighteenth birthday. The house was beautifully decorated with flowers and over 100 of the younger people of the city were in attendance. Dancing took up a large part of the evening, the music for which was furnished by Hoare's orchestra.

INDIANA'S FAVORITE.

An Enthusiastic Greeting Extended to ex-President Harrison at the State Convention at Indianapolis Today.

Hats and Handkerchiefs Were Waved and the Audience Arose to Its Feet Amid Cheers.

Platform Contains a Strong Endorsement of the Protective Tariff Policy and Roasts the Democrats.

INDIANAPOLIS, April 25.—The Republican state convention day opened clear and crisp, and although most of the delegates were up all night working for their favorite candidates, they were sustained by enthusiasm and showed no signs of fatigue. It is the largest convention ever held in the state, and 1715 delegates filled the lower floor of Tomlinson hall. The alternates were partitioned off by a high board fence in the rear. The gallery on the right was reserved for ladies and there were hundreds of them present. The left galleries were occupied by the general public, and when the convention was called to order there were 6000 people present.

State Chairman Gowdy was at the headquarters in the Denison house early and was besieged by ticket-seekers. The chairman was unable to furnish any, however, as the last ticket was given out last night. The hall was elaborately decorated. A picture of ex-President Harrison was suspended immediately above the chairman's desk. Pictures of Blaine, the late Governor Morton, Governor McKinley, Garfield, Lincoln and Grant also adorned the walls. Great bands of tri-colored bunting crossed and recrossed the hall, and the general effect was far from pleasing.

At 9 o'clock the doors were opened and the arduous labors of the corps of sergeants-at-arms began. The delegates were seated by districts to the rear of the hall, and there were many extra seats arranged. The stage was decorated with red, white and blue streamers and on the front of the presiding officer's chair was a huge gilded eagle. At 9:30, a band located in the left gallery just over the stage struck up a series of popular and national airs, and there were outbursts of applause were frequent until the convention was formally called to order by State Chairman Gowdy at 10 o'clock.

When the venerable presiding officer, ex-Secretary of the Navy Richard W. Thompson, of the House, came on to the stage from the rear in company with Charles W. Fairbanks, the convention cheered him lustily. He was escorted to a seat next to Chairman Gowdy.

Chairman Gowdy asked the convention to rise and Rev. Dr. Coultas of this city offered a prayer. Before the echo of the prayer had sounded, a lady lunged forward and cried "Hurrah for Harrison." The report of the committee on credentials and permanent organization was then adopted. The report was adopted, provided that "the rules of the Fifty-first congress as adopted and applied by the present congress should govern."

Ex-Secretary Thompson, in his speech, said that his work was nearly done—that he was no longer a boy. He urged the state Republicans to be zealous in the success in November; advocated a protective tariff and deplored the present condition of affairs and charged it to the misgovernment of the party now in power.

Pandemonium followed the appearance of ex-President Harrison, who followed the presiding officer. Hats and handkerchiefs were waved and the audience arose to its feet amid cheers. In his speech Gen. Harrison paid a tribute to Presiding Officer Thompson.

The report of the committee on credentials was then read and adopted. The committee on resolutions reported the platform which was adopted and is as follows:

We, the Republicans of Indiana in delegate convention assembled to reaffirm our faith in the progressive principles of the Republican party. We believe its policies, past and present, best calculated to promote the happiness and prosperity of the people.

The administration of President Harrison and the congressional legislation of that administration have been wise, patriotic, and we point to the marked contrast between the home and foreign policies of that administration and the present travesty on government inflicted on the whole people.

We believe in the Republican doctrine of protection and reciprocity which furnishes a home market for the products of our factories and our farms, and protects the American laborer against the competition of the pauper labor of Europe. We denounce the unwise and unpatriotic action of the Democratic party in attempting to eliminate the reciprocity principle from our tariff system, thereby closing a large foreign

market to products of American farmers and depressing agricultural success.

We denounce the present attempt of a Democratic congress to overthrow and destroy the American industrial system, a course, that with the general fear of a violent readjustment of the country's business to a free trade basis, has increased the national debt and has plunged the country into the most disastrous business depression of its history; has closed large numbers of banks and factories throughout the country; has thrown an unprecedented number of American citizens out of employment; has conspired thousands of able-bodied and industrious men to humiliate themselves by asking for charity and has filled our broad land with free soup-houses and food markets.

We believe in a currency composed of gold, silver and paper, readily convertible at a fixed standard of value and entirely under national control; and we favor the imposition of increased tariff duties upon the imports from all countries which oppose the coinage of silver upon a basis to be determined by an international congress for such purposes.

We denounce the avowed purpose of the Democratic party to restore the era of "wild-cat" money.

We believe in a liberal construction of our pension laws, and we condemn the unjust policy of the present administration of depriving ex-soldiers of their pensions without a hearing; a policy intended to cast odium upon loyalty and patriotism. We believe it to be the duty of the state, as well as the nation, to make suitable provision for the care and maintenance of all indigent soldiers, their wives and widows. We, therefore, favor the establishment of a suitable provision for the care and maintenance of all indigent soldiers, their wives and widows, as may be overtaken by adversity.

We demand a rigid enforcement of all existing immigration laws by the national government and demand such further legislation as will protect our people against the influx of the criminal and vicious classes.

We denounce the unpatriotic action of the Cleveland administration in hauling down the American flag at Hawaii and condemn the arrogant assumption of power displayed in the effort to restore a despotic queen over a free people who had thrown off the yoke of despotism.

We condemn the outrageous bargain and sale of federal patronage by the Cleveland administration, in its unscrupulous efforts to usurp the prerogatives of the legislative branch of the government to force a favorite measure through congress and to protect the interests of presidential appointments by the senate.

We condemn the reckless and extravagant administration of the financial affairs of this state whereby the people are subjected to unjust and unnecessary taxation, by an increased assessment of property and increased rate of taxation, and by a multiplication of offices to be supported by the taxpayers of the state.

We believe that the benevolent, educational institutions of this state should be placed under non-partisan control.

We believe in such legislation, state and national, as will protect the lives and limbs of employees of railways, mines and factories. We condemn the policy steadily pursued by the Democratic legislature of Indiana so long of undermining the state as to deny to the people a fair representation of their views in the state legislature and national congress, thus imperiling the foundations of our institutions.

Balloting for candidates was then protracted with and the first ballot was taken for senators. There were five candidates as follows: Aaron Jones, port; J. E. Watson, of Rushville; M. H. Sulzer, of Madison; James Packard, of New Albany. Ol. Marion, county's 2000 votes, 35 went to Watson, the largest number of any one candidate received.

Owens was nominated for secretary of state on the fourth ballot.

CONFERRING WITH HILL.

The Great Northern Strikers in Conference With President Hill, but No Decision Reached Yet.

ST. PAUL, April 25.—President J. J. Hill, of the Great Northern railway, met the strikers' conference committee at 11 o'clock and the settlement of the strike or a final decision of the men in favor of arbitration will probably soon follow.

The committee continued in conference with President Hill until after 12 o'clock, when, no decision having been reached, they adjourned until 2 o'clock this afternoon. The men insist on the schedule of wages in force prior to last August.

New Electric System.
New York, April 25.—The construction of 100 miles of new trolley lines in Brooklyn, for the Nassau Electric Railway company, which is known as the Flynn road, will be begun in a few days.

The new lines will run from the various ferries to Fort Hamilton, Bath Beach, Bensonhurst, Manhattan Beach, Sheepshead Bay, Canarsie and Flat Lands.

Deputies Tried to Arrest the Coxeyites Near Billings and Two Men Are Reported Killed.

The Garrison at Fort Keogh Under Arms and Will Try to Stop the "Army."

WASHINGTON, April 25.—The strong hand of the national government at last has been extended to check in their mad career the lawless mob of Coxeyites who have seized upon a train on the Northern Pacific railway at Butte, Mont., and started eastward. The government no longer will wait upon the tardy movements of state officials, and today Col. Swayne, who is in command of the department of Dakota, in the absence of Europe of Gen. Merritt, was instructed to use the United States troops to intercept the mob and restore the road's property.

This action follows closely upon Attorney General Olney's telegram of instructions to United States Marshal Bede at St. Paul. There is no legal difficulty in the way of governmental action at this stage, as the railroad's property is now in the hands of the United States courts. There are sufficient forces of United States troops at St. Paul and at Bismarck on the line eastward of the train seizure, and it is expected they will be stopped at one of these points.

Further progress in the progress throughout the West has aroused the apprehension of the national authorities. As long as the Coxeyites "armies" and other organizations conducted themselves in a peaceable and law-abiding fashion, there was no disposition to interfere with them. But as the true character of the agitators is revealed by such acts as the seizure of trains, and other lawless doings, it is made evident to the officers of the government that they can no longer stop at a policy of non-interference.

It cannot longer be denied that the peculiar movement now in progress throughout the West has aroused the apprehension of the national authorities. As long as the Coxeyites "armies" and other organizations conducted themselves in a peaceable and law-abiding fashion, there was no disposition to interfere with them. But as the true character of the agitators is revealed by such acts as the seizure of trains, and other lawless doings, it is made evident to the officers of the government that they can no longer stop at a policy of non-interference.

"VELVET" FOR SUPERVISORS.

Serious Charges Against County Officials at Sioux City.

SIoux CITY, Iowa, April 25.—The citizens' committee that has for several months past been engaged in an investigation of the methods of the county officials has filed a petition asking an injunction to restrain the board from issuing \$250,000 of county bonds, for which the board has already asked for bidders.

The committee has had an expert engaged in examining the records of the county and the find that as a result of the grossest mismanagement the county has been run in debt \$250,000 in three years.

He shows that many thousands of dollars in the accounts have been drawn in the names of people who do not exist or, in cases where they do exist, make affidavits that they never received a cent of the money produced from them.

The money secured on them was divided among the supervisors, according to the expert. In other cases the board was in the habit of paying twice for the same work, the "velvet" being divided among the members.

The report was submitted to a committee of fifty of the leading taxpayers of the county, who decided to prosecute the supervisors and take measures to send them over the road if possible. The petition for an injunction is only the first step in the matter.

A COMPROMISE REACHED.

Amendments to Be Made to the Tariff Bill Which Will Be Passed in June.

WASHINGTON, April 25.—Senator Brice is authority for the statement that a compromise tariff bill has been agreed upon, which is reasonably certain to be adopted by congress early in June. It will take the form of senate committee amendments to the pending bill.

Senator Brice would not indicate any of the changes the amendments will effect, further than it was its aim to secure the reduction of about 30 per cent from the McKinley law.

Senator Jones, of the finance committee, said no compromise has yet been reached, but he was hopeful that it would be done soon and upon a basis that would ensure the passage of the bill.

S. M. OWEN FOR GOVERNOR.

The Populists Will Nominate Him and the Democrats Are Expected to Give Their Endorsement.

ST. PAUL, April 25.—[Special to The Herald.]—The Populist state central committee in session here today decided to hold the next state convention at Minneapolis not later than July 10, the exact date to be decided later.

S. M. Owen is the unanimous choice of the committee for governor. The Democrats are expected to endorse him, but the Populists say they will not trade other offices for the endorsement.

INTIMIDATING WORKMEN.

Mobs of Strikers Again Marching in the Coal Region.

CONNELLVILLE, Pa., April 25.—The strike is spreading and almost every plant in this section has closed down. Mobs of strikers are again marching through the region to intimidate workmen, but so far no violence has been committed.

Many men were prevented from going to work today by their wives, who feared the vengeance of the strikers. Serious trouble is expected and deputies are on guard at many places.

GRASSY POINT BRIDGE BILL.

Called Up in the Senate by Senator Vilas and Passed Today.

WASHINGTON, April 25.—[Special to The Herald.]—Senator Vilas today called up and secured the passage of the bill for the bridge over the St. Louis river at Duluth known as the Grassy Point bridge.

Both these bridge bills are now awaiting the president's signature. Maj. Baldwin's bill for a bridge at Connor and Rice's Points having passed the senate last week.

The Freedmen's Missions.

PITTSBURGH, April 25.—The annual report of Rev. J. J. Bencom, D.D., treasurer of the board of Freedmen's missions of the Presbyterian church, has been completed and will be presented to the general assembly which meets at Saratoga in May. The report shows a gratifying improvement in the financial condition of the assembly and a legacy is shortly expected that will cover the debts which now amount to \$125,000. The board has 300 missions under its care at present.

A Victory for Strikers.

UNIONTOWN, Pa., April 25.—The strikers scored their first victory last night by the Atlas Coke company signing the scale as demanded by the Scottsdale convention. The plant supplies Ohio furnaces. Their men will go to work at the advance today. This victory will lead to renewed vigor in bringing out the other men, who refused to strike today.

A Deputy Sheriff Killed.

GUNNISON, Colo., April 25.—Deputy Sheriff John Meyers was killed by Nick Myers, a ranchman whom he was endeavoring to arrest near Razor creek, twenty miles east of here. Nick Myers and Samuel Parrott, neighbors, had trouble over some divide, and Parrott swore out a warrant for the arrest of Myers, which the deputy was about to serve when killed.

Colorado Miners to Out.

DENVER, April 25.—Although Colorado mine owners profess to believe the strike will not spread in the state, Coal Inspector Reed has received positive information that the miners will go out within a few days.

FREIMUTH'S

CLOAK AND SUIT DEPT.

Great selling in this department now—it is a sort of a beehive from morning until eve. The reason of this activity is our large assortment of truly stylish, well made garments; all sold at uniformly low prices.

TOMORROW

LARGEST CIRCULATION IN DULUTH.
OFFICIAL PAPER OF ST. LOUIS COUNTY

Entered at the postoffice at Duluth, Minn., as
second-class mail matter.

The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN.,
April 25.—The barometer is lowest in Northwest
Minnesota and highest over Lake Huron.
The weather is generally fair in all districts
except Northwest Minnesota, North Dakota and
Manitoba, where rains have fallen and cloudy
weather still continues.
The temperatures reported this morning
from 35 degrees above zero at Fort Arthur
to 55 degrees above at Fort Smith, Ark.

Duluth temperature at 7 a. m. today,
35 degrees; maximum yesterday, 40 degrees;
minimum yesterday, 29 degrees.

DULUTH, April 25.—Local forecast until 8
p. m. tomorrow: Showers, followed by fair
breeze; warmer tonight; easterly winds be-
coming northwest.

JAMES KENYAL,
Local Forecast Officer.

WASHINGTON, April 25.—Forecast for thirty-
six hours to 8 p. m. tomorrow: For Minn-
nesota: Local showers tonight; fairer to-
morrow; warmer Thursday; warmer near Duluth,
and slightly cooler in western portion; cooler to-
morrow; southwesterly winds shifting to westerly.
For Wisconsin: Fair weather except showers
tonight in northwest portion; warmer in east
portion tonight; winds becoming southeasterly.

Desirable Immigrants.

America has been too long a dumping
ground for the criminal and pauper
classes of European countries, and much
of the misery that prevails in our large
cities today is in the quarters in which
these very people reside. The people of
this country are glad to welcome the
honest, strong and self-supporting im-
migrants and their families who come here
to carve out homes for themselves in a
new land and become enterprising and
industrious settlers. To all such we are
pleased to extend a hearty welcome.
But the criminal and pauper classes are
not wanted. How to keep these unde-
sirable classes out, while placing no
barrier in the way of those who will be-
come valuable additions to our popula-
tion, is a problem that presses for a solu-
tion.

There is a measure now awaiting ac-
tion in congress that is designed to solve
this problem. This bill, which is known
as H. R. 5246, was introduced by Rep-
resentative William A. Stone, of Penn-
sylvania, and has been favorably com-
mitted to the house by the judiciary com-
mittee. In addition to present requirements
of law, the immigrant is compelled by
this bill to secure from the consul or
other representative of the United States,
nearest the immigrant's last place of
residence, a certificate, showing that the
representative has made an investiga-
tion concerning the immigrant, and that
the immigrant is not one of those exclud-
ed from this country under its present
laws or any law that may be adopted.

The report of the judiciary committee
gives some of the reasons why every
citizen should favor this measure. The
purpose of the bill is to prevent the
criminals and paupers of Europe from
being sent here as immigrants. Statis-
tics show that much too large a propor-
tion of the immigrants now coming here
are incapable of self support. By the
last census, the per cent of persons born
in foreign countries is 14.77 per cent and
yet this census shows that 26 per cent of
the white prisoners confined in jails and
simple prisons are persons of foreign
birth. The total number of white con-
victs in our penitentiaries whose birth-
place is known is 28,440, composed of
13,715 native born and 14,725 foreign-
born, showing that more than one-half
of all our white convicts are of foreign
birth.

Our benevolent institutions contain
69,952 inmates by the last census of
which the foreign born compose 24 per
cent. The total number of the white in-
mates of our poorhouses is 55,696, of
which number 27,648, or a little over 51
per cent were born in foreign countries.
These statistics show that with a foreign
population of 14.77 per cent, more than
half of our white penitentiaries, convicts
and more than half of the white inmates
of our poorhouses, are foreigners.

It was established before the judiciary
committee that foreign countries not only
encourage emigration to America of
criminals and paupers but use public
money to pay their expenses here. This
fact seems to be a sufficient reason why
so large a per cent of immigrants so
soon find themselves in our prisons and
poorhouses. The means adopted have
been found wholly inadequate to keep
out of the country those really included
in the excluded list. The superintend-
ent of immigration states that during the
six months ending Dec. 31, 1893, 183,028
immigrants arrived, and 1258 of them
were deported as falling within the list
excluded by the law; less than 1 per
cent.

The examination on the arrival of the
immigrants must necessarily be wholly
insufficient to determine whether the
immigrant belongs to the excluded class
or not, and in many instances where the
immigrant has made the long journey to
the place of examination, and perhaps
has expended his all in the undertaking,
sympathy overcomes the doubt as to his
eligibility, and he is admitted. The
change proposed by this bill will strike
at no nationality, but it is believed that
it will be the means of shutting out that
class of incapables of all nations who
can be only a burden and an injury to
the people living here.

A "Test of Democracy."

With the speech of Senator Mills, of
Texas, yesterday in exposition of the
tariff bill reported by the finance com-
mittee, long speech making on this sub-
ject will end, so far as the Democratic
senators who favor the bill are con-
cerned. It is said their purpose now is
to push steadily for speedy action and to
be as aggressive at every point of the
proceeding as their strength will admit.
Senator Mills said the bill did not en-
tirely meet his approval, but all legisla-
tion was necessarily a matter of com-
promise. He might offer some amend-
ments, but if they were rejected he
should vote for the bill. It was a party
measure and he believed every Demo-
crat should sink his own preferences
thus far. He would, he said, have levied
a duty on coffee, tea and sugar.

It will be seen that Senator Mills
would make a vote on the measure a test
of Democracy. With this idea the ad-
ministration is said to be in full sym-
pathy, and their threat to read Senator
Hill out of the party if he continues to
oppose the tariff bill is probably in-
spired from the White House. A Wash-
ington dispatch says the threat is also
intended to have application to any other
Democratic senator who shall carry his
opposition to the point of voting against
the tariff bill or joining in any attempt to
delay action. It is the purpose of the
dominant element in the Democratic
party to use the whole power of the party
organization to crush any Democrat who
votes against the bill. They will make
some concessions to secure the support
of the dissatisfied Democrats, but with
the concessions will go the threat that if
they still persist in fighting the bill they
will be punished.

It is not likely to scare Senator
Hill into voting for the bill as it now
stands. The only concession that would
change his attitude, judging from his
recent speech, would be the dropping of
the income tax feature from the bill. It
is very improbable that those in charge
of the measure will agree to this change,
and Mr. Hill will therefore vote against
the bill. It is very likely that in this
course he will be followed by Senator
Murphy and the senators from New Jer-
sey. As there was no reference what-
ever in the Chicago platform to the tax-
ation of incomes, and as it is a Populist
idea, pure and simple, it is difficult to
see how the dominant element in the
Democratic majority in the senate can
make support of such a principle a test
of Democracy.

The New District Attorney.

Edward C. Stringer, of St. Paul, who
was yesterday nominated by President
Cleveland to be district attorney for
Minnesota, is a young man who is ac-
counted a good lawyer. The report that
his appointment is a turn-down for
"Boss" Doran does not appear to be
sustained by the facts. When the presi-
dent absolutely declined to appoint
Judge McCafferty, Mr. Stringer was
suggested by Mr. Doran.

As Mr. Stringer is a member of the
executive committee of the Democratic
state association, which recently issued a
"cuckoo" manifesto roasting a dozen
Democratic senators and calling them
traitors to the Democratic party, it will
be interesting to watch what action the
senate will take on his nomination.
Although young in years, Mr. Stringer
has figured in politics for many years.
Up to four years ago he lived at Hast-
ings, and he was chairman of the con-
gressional committee in the Third dis-
trict when Mr. Hall was elected for his
first term. He was a delegate to the St.
Louis national convention in 1888, and
stood by Mr. Doran in the fight to defeat
him for national committeeman.

Marshal Bede is gaining much praise
for the manner in which he has acquired
himself during the strike troubles along
the Great Northern line. Referring to
the riot at Willmar, a correspondent says
that even the strikers "admire Marshal
Bede, who proved himself one of the
plucky officers ever seen in that part
of the country. It was a violent induc-
tion into office that Marshal Bede enjoyed,
but he is none the worse for the experi-
ence. He handled himself and his men
like a veteran and was perhaps the cool-
est man in the outfit." Bede is not large
physically, but he has lots of "sand."

The Oregon Democrats, in their state
convention held last week, adopted a
platform in favor of electing senators by
direct vote of the people and of calling
a constitutional convention to submit to
voters of the state a constitution em-
bodying among other things what is
known as the initiative and referendum.
The Oregon Democrats are evidently in
nearly full sympathy with the Popu-
lists. The "initiative and referendum"
is one of Ignatius Donnelly's pet ideas.

Referring to the report that "Col."
Charles W. Johnson, of Minneapolis, is
an active candidate for clerk of the house
of representatives next term, believing
the Republicans will be in control, the
Crookston Journal expresses the opinion
that he has already had lots of recogni-
tion and there are also lots of Republi-
cans just as good who never had any-
thing from the party. With this opinion
most Republicans in Minnesota will agree.

The intercollegiate football rules, as
revised by the committee which has been
at work on them in New York, reduce
the playing time of each half from fifty
to thirty-five minutes. The commit-

Get Any

Of those \$1.12 waists?
Don't overlook them. They
are fine.

HOWARD & HAYNIE.

LITERARY GOSSIP.

It is evident that Chicago's blood was
stirred to its depths by W. T. Stead's
book, "If Christ Came to Chicago."
Austyn Granville, a Chicago novelist
and the author of the successful book,
"The Fallen Race," has just published a
volume under the title of "If the Devil
Came to Chicago," which hits back at
the London sensationalist with sledge
hammer blows of facts and keen lance-
thrusts to wit. One of the most vital
and interesting portions of the book is the
series of actual interviews with the fore-
most Chicago millionaires and philan-
thropists who fell under the lash of Mr.
Stead's condemnation. They show
themselves to be not only able defend-
ers of themselves, but of their city as
well. Being written from the stand-
point of a Chicagoan, the book is un-
limited opportunity for fine satirical
writing and the author has not rejected
his opportunities in this particular. Each
chapter is headed by a picture of the
style of Chaucer, which is exceed-
ingly apt and pointed. The book con-
tains fine illustrations by F. Holme, who
possesses fine powers as a cartoonist.
Published by the Bow-Knot company,
Chicago; paper 50 cents.

The editor of the Kansas City Star
was asked by a gentleman from Hum-
boldt, Kan., how much a novel of 40,000
words would bring in the market. The
editor replied that a novel of 40,000
words ought to bring anywhere from
\$200,000 to five years imprisonment.

Friday will be Arbor day in Minnesota.
The beauty of many sections of the re-
sidence portions of Duluth could be im-
proved by planting trees, and a general
move in the tree planting line on Friday
would produce many attractive spots in
the near future.

War is being made upon the bad cig-
ars and ill-smelling tobacco used in the
house of representatives, and those who
have smoked the congressmen's cam-
paign cigars will endorse the movement.

Breton Fisherman's Song.
We were three sailors—sailors of Croix,
We were three sailors—sailors of Croix,
Homeward bound in the Saint Francis.
How the winds blow!

He fell overboard in the raging sea,
Overboard and lost in the raging sea!
The wind blew so awfully.
How the winds blow!

'Tis the wind of the sea torments us so,
His cap was all that they found of him,
His cap and pipe—that they found of him,
Although they looked till their eyes were dim.

How the winds blow!
'Tis the wind of the sea torments us so,
His mother went to the shrine to pray,
His mother went to the shrine to pray,
She prayed to the good Saint Anne of Anay.

How the winds blow!
'Tis the wind of the sea torments us so,
'Good Saint Anne, give me back my son!
'Good Saint Anne, give me back my son!
The good Saint Anne, when her prayer was done.

How the winds blow!
'Tis the wind of the sea torments us so,
The good Saint Anne to her throne replied,
In sorrow and pity to her replied,
'At ev'ning shall I meet him in Paradise.'

How the winds blow!
'Tis the wind of the sea torments us so,
Back to the village she went her way,
In joy and gladness she went her way,
They found her dead at the close of day.

How the winds blow!
'Tis the wind of the sea torments us so.

Contentment.
Flegende Baetter: "Rabbi, who is the
happier, the man who owns \$1,000,000 or
he who has seven daughters?" "The one
who has many daughters." "Why so?"
"He who has \$1,000,000 wishes for more;
the man who has seven daughters does not."

Mistaken.
Boston Transcript: Johnny—"Pa, did
you know ma before we were married?"
Pa—with a sigh—"I thought I did,
Johnny."

CHARGE NOT PROVIN.

Con McGuire Acquitted of Stealing an Overcoat—Other Cases.

In police court this morning Con McGuire was tried for stealing an overcoat from M. Concur on April 16. The defendant denied the charge and said that the coat was given to him by a fellow who claimed it was one of two he owned and who now is in jail over at Superior. A jury sat upon the case and returned a verdict of not guilty. After the discharge of McGuire, he assured the jurors that the facts were just as he swore on the stand and that he had been perfectly innocent of any wrong act when he accepted the proffer of the garment.

Eddie Coleman and Edwin Matheson, a couple of vile-tongued West End boys, were up for using imoral and indecent language. Complaint was made by one of the teachers in the public school who has been subject to insults from the boys. They were found guilty and sentenced to ten days each in jail. Sentence was suspended during good behavior.

Pat Boyle and Mike Pashall were up for drunkenness. The former was committed and the latter paid \$12. A couple of vagrants also received a dose of justice.

BLEW OUT THE GAS.

A Domestic Who Came Very Near Taking the Short Route.

Yesterday morning the household of N. J. Miller, who resides at Second avenue and Second street east, was startled by finding the domestic unconscious in bed at about 7 o'clock. She retired at 9 o'clock the evening before and instead of turning off the gas, attempted to improve upon the regular method by blowing it out. A couple of physicians were summoned and after several hours of labor the domestic was brought back to consciousness.

This Evening's Concert.

Tonight a concert will be given at Pilgrim Congregational church under the direction of Miss Moak and Miss Mackey for the benefit of the Young Men's Christian association. Those who will have numbers on the program are: Mrs. Aspinwall, Miss Moak, Miss Mackey, E. C. Jones and Sydney Brown. Some fine music will be rendered.

Duluthians Will Assist.

Mrs. C. P. Craig, Miss Geraldine Moak and Miss Helen Mackey will assist in the production of "The Holy City" at the Grand opera house in West Superior on Friday evening. W. B. Heath, the Minneapolis tenor, will also assist. A number of people from Duluth will go over.

How's This?

We offer one hundred dollars reward for any case of catarrh that cannot be cured by Hall's Catarrh Cure & Co., Toledo, Ohio.

Who's the Underdog? Have known F. J. Cheney for the last fifteen years, and believe me perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

Stainway pianos at N. D. Coons' 1416 Tower avenue, West Superior.

TOM WALSH ENLISTS.

He Will Be the "Second Unknown" of Uncle Hellman's Coxey's Army.

When Tom Walsh woke up this morning and found that "Uncle" Hellman was going to organize a company to join Coxey's army, he hastened to proffer his services and was received with open arms and great manifestations of joy.

"Now, look here, uncle," said Thomas, "you mean business, don't you? This thing isn't to be a big fake to draw a crowd to your saloon, is it?"

"You bet it's no fake," said Uncle, "and we're going to organize and get started very soon for Washington."

"Hurrah!" said Tom. "I'm with you. Put 'er there. Put me down as the 'Second Unknown.' Now, how about transportation?"

"Well, I'm going to see the railroads."

"Railroads be d—d," said Tom. "We'll get a whaleback and stuff the army in the hold. Then we'll go down the lakes through the Welland canal, down the St. Lawrence and on to Washington. When we get there we'll run the snout of the pig right up to the back door of the capitol and if those fellows down there don't begin to sweat, then—well I wasn't born in Ireland if they don't."

"Uncle" was tickled with the scheme and the idea that so brilliant a brain had already enlisted in the cause that he went around the bar and set up the drinks.

HE WILL JOIN COXEY.

"Uncle" Hellman Claims to be in Earnest About Forming a Company for the Army.

He Will Take Them to Cleveland By Boat and From There By Rail to Washington.

Says He Going to Sell His Saloon Today and Start the Army Next Month.

William Hellman, commonly known as "Uncle" Hellman, who runs the Central saloon at the corner of Superior street and Lake avenue, is suffering with a severe attack of the "Coxey Industrial army" craze. He says that he is most thoroughly in earnest and, between May 10 and 15 will promptly lead 1000 men out of Duluth, whose mottoes will be "On to Washington" and "We're Coming, Papa Cleveland, too Strong." A vessel will be chartered to Cleveland. There the army will disembark and proceed to Washington by train. Once there "Uncle" Hellman will turn his troops over to Coxey and that will end his responsibility in the matter.

Uncle Hellman, who is a short, stout German, rosy cheeked, grey mustached and headed, most pleasing and affable in manner and speech, declares that he is wholly in earnest. He expects that it will take \$10,000 to land his troops at the rendezvous and says there are men behind him who will help him. This sale has nothing to do with the shrews of war. Said uncle to a Herald reporter today:

"Something has got to be done. My family and I live of us, have worked all winter and our profits are nothing. The town is full of idle men. They must eat somewhere. They might as well do it at Washington as here. We are going and we are going to reach our destination, too. I'd like to see anyone stop us."

When the reporter was in "Uncle" Hellman's place, Alterman Ben Howard came in and offered the colonel the use of his steam yacht, the Nautilus, on condition that his, Howard's, drivers, are not allowed to enlist. "Uncle" said that he would take some of them and as to the yacht, it would not answer at all for the army. He might use it personally, but preferred to stay with his soldiers.

Mr. Hellman also stated to the reporter that he will close a deal this afternoon to sell his business, but that he will be back in Duluth. This sale has nothing to do with nor is influenced at all by the industrial army scheme.

IRONTON BURGLARIES.

Several Places Entered Within the Past Few Days.

The residents of Ironton have been experiencing for the last few days a series of burglaries that seem to them rather contrary to the statement by the authorities that they need no police there. Last Friday night the house of A. C. Edwards was entered and a lot of potatoes and canned goods stolen. Monday night two burglaries were committed. The house of E. D. Payne was broken into and relieved of a lot of potatoes, eggs, butter, canned goods and flour. At the same time the house of A. A. Douglas was robbed of a set of carpenter's tools and a box of nails.

Whoever the robbers are, they are enterprising. It would appear that the articles stolen that they have some idea of starting a general merchandise store.

None of the residents of Ironton feel secure, as the burglars have been well organized and clever at their trade. The citizens have asked for police protection before and were told that they needed none.

The matter was put into the hands of the police department today.

JURORS DISCHARGED.

Cases of Fact Entirely Cleared Off the Calendar—The Court Cases.

The jury in the case of George J. Mallory against the village of West Duluth, returned a verdict yesterday afternoon for \$687.50 for damages resulting from the removal of the latest support of some of Mallory's lots in West Duluth. This was the last jury case, and the talesmen were excused.

Judge Moer this morning heard the case of M. S. Stokely against W. L. Ingalls. During the pearly days of the stock exchange Stokely, according to his story, contracted with Ingalls to sell him 100 shares of Shaw at \$2.50. The contract was not lived up to, and the matter was left to the exchange board of arbitration, which decided in favor of Stokely. By the rules of the exchange the stock was sold on the floor for \$100. Stokely sues for \$150, the difference between the contract price and the selling price.

Ingalls denies that the contract was decisive. The matter was submitted on briefs.

Judge Lewis heard the case of W. E. Dorwin & Co. against the Lowmore Iron company, a mechanic's lien for stripping done on their mine at Mountain Iron. The case was submitted on briefs.

At noon Judge Lewis was hearing the lien case of John B. Kesler against J. L. Potts et al.

Judge Moer granted a divorce to Floy B. Bruff from John V. Bruff on the ground of drunkenness and inhuman treatment. Bruff is proprietor of the City hotel.

The cases of the First National bank, of Cooperstown, against John McKinley et al, and P. J. Bornlin against Olaf Engstrom et al have been dismissed.

The case of J. W. MacGregor against the Northern Hydraulic Press & Brick company has been settled and dismissed.

Judge Ensign is still hearing the lien case of Archie McPherson against the Schuman et al, which will not be finished before tomorrow.

N. D. Coon has the largest stock of pianos at the head of the lake. 1416 Tower avenue, West Superior.

Furnished House For Rent. Desirable house in good location for rent, furnished. Apply to STRYKER, MANLEY & BUCK.

Two Questions ? ?

Often asked by people at this season of the year are these:

"How can I get to feel stronger and better?"

"How can I build up my system and get more flesh?"

Now, there is

One Answer

to these questions which can be depended upon, because it is based upon solid facts. The answer is this: Use Paskola, the perfect substitute for cod liver oil preparations and all other old-fashioned remedies. Paskola makes thin people fat, it makes them strong; it gives new life to those who are weak and debilitated.

Ask your druggist for Paskola, and give it a trial.

A pamphlet giving full particulars respecting Paskola will be sent on application to the Prepared Food company, 168 Duane street, New York City.

WANTS A RECEIVER.

United States Loan and Investment Company Represented to Be Involved.

G. Fred Knappen has filed suit against the United States Loan and Investment company on four judgments amounting to \$114,63, which have been transferred to him. In his complaint he says that the company is indebted to various parties and asks that its stock and property be sequestered and a receiver appointed.

Riordan & Co. have sued John W. Lewis for \$15,400 on a promissory note. Dismissals have been filed in the cases of F. S. Colvin et al against Matt Kapsch et al and H. S. Fitch et al against the Smith & Coulter Spice company.

Mary L. Gray, insolvent, has filed a statement of liabilities amounting to \$5287.63 and assets amounting to \$5727.45.

THE LIQUOR TRAFFIC.

Rev. E. M. Noyes Discusses the Relation of the Church to It.

Rev. E. M. Noyes lectured at the Bethel last night on "The Relation of the Church to the Liquor Traffic."

In communicating his talk, he drew a distinction between the duties of the church as an organization and the duties of the individual in relation to the consumption and sale of liquor. The individual should use his vote and influence against the evil, while the church is barred from attempting to exert any political influence. Its influence should be wholly moral and its duty is to educate and inspire its members to their duty.

Mr. Noyes then showed that the saloon is the church's greatest enemy in its work. While the church tries to enable and uplift, the saloon has an exactly contrary influence. The church has three distinct lines of duty. The first is to help the victim of drink, the second to educate the children and to mold public opinion morally but not politically.

A Millers' Association.

The Duluth millers went over to Superior this afternoon where a meeting of all the millers at the head of Lake Superior is being held. It is said the object of the gathering is to form a millers' association for this district similar to that at Minneapolis. The Duluth mill people issued the call for the meeting.

HOGAN CAUGHT

The United States Troops Caught the Train With the Montana Army of the Commonweal.

Col. Page, of Fort Keogh, Arrived at Forsyth While Many Coxeyites Were Taking a Sleep.

The Surprise Was So Complete That the Coxeyites Gave Up Without Making a Struggle.

They Will Be Handed Over to the Montana Marshal and Prosecuted on Serious Charges.

FORSYTH, Mont., April 26.—The strong arm of the law has reached out and seized the Montana army of the Commonweal. The army, 650 strong, came in here from the west at 10:35 p. m., yesterday. Its leaders gave it out that the train would remain in Forsyth until morning. At 11:30, however, the engineer went to the roundhouse and deliberately proceeded to take out a fresh engine and prepare for the trip eastward.

In the meantime Col. Page, of Fort Keogh, had secured a special train and was thundering down the road to meet the train-stealing contingent. He came into Forsyth shortly after midnight and found a large part of the Coxey army asleep in the box cars. The surprise was so complete that the Coxeyites gave up without a struggle. The troops led most of the men aboard the train and surrounded it. The capture was effected by a company of 250 infantry men from Fort Keogh.

Nothing definite is known as to what will be done with the Commonwealers, but it is supposed eight or ten of the leaders will be taken back to Butte tomorrow and the others set at liberty. The army was so surprised at the prompt maneuvering of the regulars that the leaders capitulated and were taken into custody without trouble. There has been no bloodshed and none is expected.

COL. PAGE'S PRISONERS.

They Will Be Turned Over to the United States Marshal.

St. Paul, April 26.—Col. Swain, commanding the military department of Dakota, under whose direction the arrest and detention of the Coxeyites was consummated at Forsyth last night, said today that as yet he had received no detailed report of the capture from Col. Page, commanding at Fort Keogh, but that the report was expected at any time. Col. Swain continued:

"Last night I was in constant communication with the wires with Col. Page and talked with him directly. I was considerably surprised at the readiness with which communication was kept up. He was obliged to proceed slowly and cautiously as two trains on the same track going in opposite directions make progress slow. Late last night he proceeded from Forsyth to Butte, then to Rosebud and, learning that the band was delayed at Forsyth, he continued through to that point and found Hogan and his men were sleeping in the box cars. The captured men are now Col. Page's prisoners and I have already given orders that they shall be turned over to the United States marshal of Montana, so soon as that official is ready to receive them."

Had Hogan's band got past Fort Keogh before Col. Page received his orders to arrest them, he would not have interfered. Col. Swain had prepared for a retrograde movement on the part of the Coxeyites by ordering that four troops of the Tenth Cavalry from Fort Custer, under Col. Perry, go to Custer station on the railroad line, and had the men retreated there, he would not have captured them. It so happened that the band could not leave Forsyth, owing to their engine's condition, and Col. Page kept on and received their surrender.

TO PROSECUTE THE MEN.

The Northern Pacific Will Prefer Serious Charges Against Hogan's Band.

New York, April 26.—Upon receipt of information of the capture of Hogan's band of Coxey pilgrims near Miles City, Mont., by the military, James McNaught, counsel for the Northern Pacific company in this city, wired to J. H. Mitchell, Jr., at St. Paul, and Messrs. Cullen and Poole, of Helena, Mont., to proceed against the prisoners before United States Judge Knowles for contempt of court, and also to prefer charges of grand larceny against them for stealing the company's train.

Mr. McNaught also instructed the Western lawyers to prefer charges of conspiracy, under the laws of Montana,

against the band and a charge of felonious assault, based on the fact of their being on the Northern Pacific train.

THE PORTLAND CONTINGENT.

They are Threatening to Capture a Northern Pacific Train.

PORTLAND, Ore., April 26.—Trouble is feared with the Portland contingent industrial army. The brigade marched from here yesterday, so strong, and is now in camp at Troutdale, a village on the Northern Pacific eighteen miles east of here. It is evidently their intention to capture a train in fact they attempted to capture a train here, but were foiled by the company.

The train usually carried a number of freight cars and long before it started the army began climbing into the box cars, but they were switched off the passenger cars, leaving the industrialists in the yard. The last overland Union Pacific which went out carried a dozen United States marshals, who will endeavor to keep the industrialists from interfering with the train at Troutdale.

MARCHED FROM SEATTLE.

Another Crowd of Coxeyites Started to Trump Last Night.

SEATTLE, Wash., April 26.—The Northwestern industrial army, 160 strong, marched out of the town last night, first making a demonstration on the principal streets, which were packed with people to see them depart. They marched through Seattle, four miles and camped for the night in a church and several deserted store buildings.

Commander Shepard says the men will be marched to Puyallup, thirty miles distant, on the Northern Pacific, where he says a train will be taken. He refuses to tell how he expects to get the train and admits that the Northern Pacific refused to give him one.

Later—the industrialists under Gen. Shepard are now marching across the Puyallup reservation and expect to camp tonight at Puyallup with the Tacoma contingent.

FEDERAL OFFICIALS ACTIVE.

Many Deputy Marshals Sworn In to Protect Railroad Property.

TACOMA, Wash., April 26.—Considerable apprehension has existed here in regard to the industrial army movement. It was feared that the army from Tacoma and Seattle, which will center at Meeker Junction in a few days, would seize a train and cause trouble. Prompt action on the part of the federal authorities has done much to dispel this fear. About fifty deputy marshals were sworn in yesterday in compliance with orders from the circuit court. Fourteen were sent to Meeker Junction and the rest placed about the depots and the car shops.

The federal authorities announce that they can secure force enough to prevent any further attempt of the state with a stolen train.

Critical in Idaho.

WASHINGTON, April 26.—The department of justice has received a telegram from the Idaho mine district in Idaho is critical. A company of Coxeyites are organizing on the Northern Pacific railroad and it is feared that they will attempt to capture a train to take them east.

THE LETTER CARRIERS' IDEA.

A Fund for Employes Disabled or Retired After Long Service.

WASHINGTON, April 26.—Representative Goldsrier, of Chicago, at the instance of the Chicago Letter Carriers' association, has introduced to congress a plan for a self-sustaining postal fund modeled somewhat after Bismarck's plan for pensions to civil employes of the government. The bill provides for the deduction of 1 per cent of the salaries of employes, which shall be accumulated as a benefit fund for employes suffering from disabilities and those retired after long and honorable service.

As this measure emanates from the carriers, it is assumed that the deduction in their salary will be acceptable to them, but on the other hand, as the government is not called upon to provide the fund, it can meet no objections on the ground of governmental economy.

As the carriers are government employes, the fund could best be made by government agencies, and this Mr. Goldsrier thinks, would be accomplished without expense to the federal treasury.

Returned to Work.

MINNEAPOLIS, April 26.—A St. Cloud special to the Journal says the men in the Great Northern shop there nearly all returned to work this morning. They claimed they quit yesterday under threats of violence from the strikers.

West Point Cadets.

WASHINGTON, April 26.—Cadet appointments to West Point have been issued to H. E. Bradley, Louisville, Minn.; E. S. Wardell, alternate, Tracy, Minn.; C. C. Durham, St. Paul, Minn.; and W. K. Taylor, alternate, St. Paul.

An Anarchist Caught.

PARIS, April 26.—An employe of the French war office, named Fenan, has been arrested on the charge of complicity with the anarchists. In his desk and his lodgings the police seized a number of incriminating letters.

READY TO WORK.

Brotherhood Conductors, Engineers and Firemen Ready to Resume Work for the Great Northern Road.

Freight Train Being Made Up to Send Through to the Coast With Deputy Marshals.

Militia Throughout the State Ordered to Hold Themselves in Readiness in Case Trouble Occurs.

Outlook That There Will Be No More Conference Between President Hill and the Union.

St. Paul, April 26.—The outlook in Great Northern affairs today is that the men will not go into conference with President Hill again, or if they do it will be simply long enough to tell him that they will under no circumstances accept his proposition for arbitration and to go to work pending a settlement. The conference is set for noon today, but the temper of the committee from the American Railway union is decidedly against holding it again. In the event of their not again conferring they will send a note to Mr. Hill notifying him that they do not propose to listen to any more talk, but that they now propose to tie up the road over its entire length.

Mr. Hill today said that he had waited long enough for the men, that the people along the line of the road were suffering and demanded service and he proposed to give it to them. When asked if he had men to fill the strikers' places he said: "I have men enough to man the road—that is if the men are telling me the truth."

He has said all along that his employes had told him that they could run the road if they were assured of protection, and he now announces that he will start the road and will call on the authorities for protection. The men are in conference among themselves today and will decide whether to continue their conference with Mr. Hill or not.

The militia throughout the state have been ordered to hold themselves in readiness for service, and it had been supposed that they were so ordered because of the trouble with the Coxeyites on the Northern Pacific, but it is now thought that they are being ordered in case of trouble on the Great Northern.

The men will not interfere with mail trains, but when freight service is resumed trouble is looked for.

At noon brotherhood conductors, engineers and firemen are gathering at the Great Northern office and it is understood they are ready to begin work at once.

Later—the committee of the union has arranged a new scheme for arbitration which they say they will submit to President Hill at the conference this afternoon. They refuse, however, to tell in what particulars it differs from that already submitted by Mr. Hill and rejected by them.

The company is now making up a freight train which it proposes to send through to the coast under the protection of deputy marshals. President Hill says he has the assurances of all the brotherhoods that their men are ready to go to work when ordered.

Bridges Burned.

MINOT, N. D., April 16.—Two bridges west of Fort Buford, on the Great Northern, were burned today. It is rumored that two others have gone.

ZELLA NICOLAUS ONCE MORE.

Said to Be in California Under an Assumed Name.

SAN FRANCISCO, April 26.—The Chronicle this morning states that a young, handsome lady who has for several days been a guest at the Palace hotel here and at the Delmonico, Monterey, is none other than Mrs. Zella Nicolaus, otherwise Mrs. Ruhmann, who gained such unpleasant notoriety through her suit in New York to recover \$40,000 from George Gould. A peculiar incident is that the woman in question is now a guest under the same roof with Miss Helen Gould and her party who are sight-seeing in San Francisco.

If the woman be Zella Nicolaus as claimed, she is traveling under an assumed name. She is accompanied by a middle-aged woman and is receiving the marked attention of a man said to be a wealthy New Yorker. The supposed husband, A. H. Ruhmann, is not in evidence. A New Yorker, who met Mrs. Nicolaus at the Sturtevant, recollected her identity.

To Investigate Oakes.

MILWAUKEE, April 26.—Judge Jenkins today appointed Alfred L. Cary, of this city, master to investigate the Rocky Fork, Manitoba and Chicago & Northern Pacific transactions in order to determine whether Receiver Oakes was guilty of mismanagement, as is charged by certain stockholders.

A Veto by Governor Flower.

ALBANY, April 26.—Governor Flower has vetoed the annual appropriation bill because the Republican legislature refused to strike out the section to allow the attorney general to designate all counsel employed by state commissions. The section the governor will probably delay adjournment.

A Munificent Bequest.

CAMBRIDGE, Mass., April 26.—Radcliffe college, the women's annex of Harvard, has been bequeathed the Grove Hall estate of Mrs. Sarah H. Parker, of Roxbury, who died last week. The estate had been held by Mrs. Parker's family for 150 years and is valued at \$150,000.

INSPECTOR STOKES INQUIRY GO.

Maj. Baldwin Declares He Cannot Remain at Superior.

WASHINGTON, April 26.—[Special to The Herald.]—Representative Baldwin says he will not submit to having Immigrant Inspector Stokes remain at Superior, as this is a Duluth position. The treasury department has assured him his wishes will be respected.

The sub-committee of the house committee on railways and canals have prepared a favorable report on Col. Kiefer's bill for a survey of a route for the Superior-Mississippi canal, which they will submit to the full committee next Thursday. The full committee will probably make a favorable report to the house.

PILLSBURY "A" TO SHUT DOWN.

Cannot Get Wheat Owing to the Great Northern Strike.

MINNEAPOLIS, April 26.—The "A" mill of the Pillsbury-Washburn company will be obliged to shut down if the local Great Northern men strike, as all its wheat is switched by the Great Northern. It is on the east side of the river. None of the other mills, which are on the west side, will be seriously affected by the strike, as plenty of wheat is in store and coming in on other roads to keep the mills going.

A Blooded Commisener.

CHICAGO, April 26.—Judge Dunn, on the ground of "public policy," entered judgment against Dr. Francesco J. Ruscavolo, commissioner to the World's fair from Costa Rica, in a suit instituted by him against Cass Chapman, a contractor. Chapman was awarded the contract for the Costa Rica building for \$11,000 and subsequently paid \$800 to Ruscavolo. The latter sued for a balance of \$700 under a promissory note.

Johnson Accepts a Challenge.

NEW YORK, April 26.—Before sailing for France, Champion Arthur Zimmerman issued a challenge to race any amateur rider in America for any amount from \$100 to \$10,000 a side. The representative of Johnson announced that the Minneapolis record breaker has decided to accept "Zimny's" challenge for a stake of \$1000 aside, the race to be from one to ten miles.

Meyer Still Confident.

WASHINGTON, April 26.—Representative Meyer, of Louisiana, is confident that his compromise proposition on the silver question will pass the house. Mr. Meyer will no longer address his efforts to the committee, but will get the compromise direct before the house, as a substitute to any free coinage bill Mr. Bland may report.

Chicago Schools Closed.

CHICAGO, April 26.—The Kershaw school at Winter and Sixty-fourth streets was ordered closed today on account of snailpox. The Longfellow school on Throop street near Nineteenth is also reported closed for the same reason.

Had a Free Fight.

FREDERICK, Md., April 26.—The Commonwealth army after spending two very peaceable days in Frederick, celebrated the day of their departure by a free fight and shooting scrape. The army was depleted by four members, but no one was hurt.

Mills Burned.

WINNEPEG, April 26.—A dispatch from Edmonton says Moore & MacDonald's extensive mills, some miles up the river, have been entirely destroyed by fire. The loss will be heavy, no insurance.

Heir to Five Millions.

BOSTON, April 26.—Nelson Chace, the Auburn, Me., shoemaker, who is reported to have fallen heir to \$5,000,000, is in this city and reaffirms the story of his good fortune.

RIGHT OF WAY SUIT.

Minnesota Canal Company Begins One in the District Court.

The Minnesota Canal company through its attorneys, H. F. Greene and J. A. Keyes, has commenced proceedings in the district court to condemn a right of way for a canal route, from the north side of the St. Louis river, in section 16-40-17, running southwest through St. Louis and Carlton counties to Duluth. The proceedings were filed this morning and are against fourteen defendants, among which are the St. Paul & Duluth road, the state of Minnesota, C. N. Nelson Lumber company, Merrill & Ring, Cloquet Lumber company and the Boston Safe and Deposit company. There are thirty-three parcels of land included in the route, amounting to about 1300 acres.

Default judgments have been filed in the following cases: Bank of Minnesota against L. T. Lefebvre et al, \$325.61; New Duluth Land company against Charles Schiller, \$533.34; Bank of Baldwin against W. J. Merritt et al, \$278.95; E. H. Burger against Virginia Lumber company, \$578.88; Mesaba Lumber company against John Owens et al, \$186.25.

Judge Lewis has filed findings for \$538.52 for the plaintiff in the case of the Northwestern Bedding company against E. W. Coon.

A transcript of judgment for \$330.44 in favor of Duncan, Brewer & Co. against C. T. Cash has been filed.

Towne Supporters Meet.

The C. A. Towne men—those who wish to see him get the congressional nomination—met last evening in Crosby Bros' office. Dr. V. Smith was chairman. Speeches supporting Mr. Towne were made by W. P. Silvey, I. H. Norton, R. C. Mitchell and others. After considerable discussion the chair was authorized to appoint an executive committee to conduct Mr. Towne's campaign for the nomination.

Barytes Company Organized.

The Duluth Barytes company has filed articles of incorporation. The object of the corporation is to manufacture paints and dyes from barytes, iron ores, etc. The incorporators are A. B. Upson, W. P. Lardner and E. W. Barner, of Duluth, and Charles Brent, of London, Ont. The capital stock is \$500,000.

No Back Num=bers...

Youth and beauty exercise their potent sway over all sensitive minds. Upon the altar of the NEW burns ever the incense of admiration. Mindful of this the inventive genius of the age is ever striving to surpass former efforts and by the beauty of the new creations to win the guerdon of popular applause. Our stock is absolutely fresh—the product of THE NOW. Its beauty is unmarred by anything that suggests the days of METHUSELAH.

WEST DULUTH ITEMS

Colonization Club Met Last Evening and Elected Officers—Delegates Will Go South Next Month.

Militia Companies Are Ready to Move to St. Paul or Elsewhere at a Moment's Notice.

The Famous "Eskander Letter" to Be Investigated This Evening—Mr. Bain's Motor Works Successfully.

At a meeting of the executive committee of the Consolidated Colonization clubs held at West Superior last evening the following permanent officers were elected: President, Henry Oberg, of West Superior; vice president, F. Bjorge, of West Duluth; corresponding secretary, A. Magnus, West Superior; financial secretary, L. L. Aune, of West Duluth; treasurer, Gust Berggren, of West Duluth; and assistant treasurer, O. Luene, of West Superior.

Delegates to go to Florida will be elected as soon as sufficient money can be raised to pay their expenses. A resolution was passed that the members be required to pay in their dues by May 15, at which time the delegates will leave for Florida. The committee will have another meeting next Monday evening at the city hall.

HELD IN READINESS.

Militia Companies Are Ready to Fly at a Moment's Notice.

The militia companies were ordered to hold themselves in readiness tonight for a call from the colonel of the regiment, supposedly in connection with the Great Northern strike. Arrangements were made whereby the car works whistle should call them to arms. It was the regular drill night for Company H, and the boys were notified of the call and their names and addresses taken, so that they might be routed out as quickly as possible. A corporal's guard was stationed at the armory all night ready to spread the alarm should it come in, and jerk the boys out of their cosy beds if necessary. A corporal's guard was stationed at the armory all night ready to spread the alarm should it come in, and jerk the boys out of their cosy beds if necessary.

The Eskander Letter.

The political document known as the "Eskander letter" will receive attention at the lodge meeting of the Grand Templar society tomorrow evening. L. E. Olson, of Minneapolis, will be present to conduct the investigation. On Saturday the grand chief will hold an open meeting at which he will deliver an address on the cause in general and will also give the results of his investigations of the Eskander affair.

It Works Successfully.

The new motor invented by Force Bain of the Great Western Manufacturing company has been tested on the railway and its work is estimated to be highly satisfactory. Its advantages over the old style consists in starting more quickly, being lighter and the use of only one motor to a car.

West Duluth Briefs.

A temperance drama named "Under the Spell" with ten characters is under rehearsal and will be produced in West Duluth shortly.

The A. O. U. W. will give a dance in their hall on May 6th.

Quite a number of prominent Republicans of West Duluth attended the Towne meeting at Duluth last evening. Miss Guley, of West Duluth, was agreeably surprised last Tuesday evening by a number of her friends, a number of Duluthians being present.

The 8-year-old son of A. C. Smith, of First avenue west, fell yesterday while at play and dislocated his arm.

The Salvation Army will give a festival tonight in its hall on Grand avenue. Coffee and cake will be served and there will be a program of speaking and music.

Was an Expensive Pile.

In police court this morning a citizen from West Duluth named John Cogan was found guilty of neglecting to move an offensive manure pile. Costs and all made his fine \$11. May Attison, accused of residing in a house of ill fame, admitted her guilt and dropped \$12 into the hands of Deputy Clerk Fitch. Two drunks were committed. One paid his fine, another got a suspended sentence and two wags were sent up.

Part IX of "Art Portfolio" now ready.

IN paint the best is the cheapest. Don't be misled by trying what is said to be "just as good," but when you paint insist upon having a genuine brand of

Strictly Pure White Lead

It costs no more per gallon than cheap paints, and lasts many times as long.

Look out for the brands of White Lead offered you; any of the following are sure:

"Southern," "Red Seal," "Collier," "Shipman."

FOR COLORS.—National Lead Co.'s Pure White Lead Tinting Colors.

These colors are sold in one-pound cans, each can being sufficient to tint 25 pounds of stock Pure White Lead of the desired shade; they are in no sense ready-mixed paints, but a combination of perfectly pure colors in the handiest form to tint Strictly Pure White Lead.

A good many thousand dollars have been saved property-owners by having our book on painting and coloring. Send us a postal card and get both free.

WHEAT MARKET DULL.

The Volume of Trading Today Was of Small Proportions.

There was a very poor wheat market here today, so far as the volume of trading is concerned. What little was done in futures was equally divided between May and July steady prices. The market was unchanged from last night for May and a lower for July but the first sales were made late at a slight advance. The feature of the market was the active demand for cash wheat to arrive, about 10,000 bus. being sold to the mills at \$2.50 premium over May, all trades subject to the Great Northern strike. The close was at yesterday's figure, except July which was a lower. Following were the closing prices:

LARGEST CIRCULATION IN DULUTH.
OFFICIAL PAPER OF ST. LOUIS COUNTY
Entered at the postoffice at Duluth, Minn., as
second-class mail matter.

The Weather.
U. S. WEATHER BUREAU, DULUTH, MINN.,
April 25.—The barometer is highest over the
Middle Atlantic states; it is lowest northwest
of Montana, where the pressure has diminished
five to six tenths of an inch. In the Lower
Mississippi valley, Montana and over Western
Lake Superior, the weather is generally fair
this morning in all districts.
It is slightly warmer in all reporting districts
except the Dakotas and Manitoba, where it is
slightly cooler.
Depth of water in Saint Ste. Marie canal this
morning, 11 ft 2 in.
Duluth temperature at 7 a. m. today,
38 degrees; maximum yesterday, 48 degrees;
minimum yesterday, 33 degrees.

Deliver, April 26.—Local forecast until 8
p. m. tomorrow: Light showers and slightly
warmer today; generally fair Friday; light
variable winds becoming easterly.
JAMES KENNEL,
Local Forecast Officer.

WASHINGTON, April 25.—Forecast for thirty-
six hours to 8 p. m. tomorrow: For Minne-
sota: Generally fair, warmer Friday; wind
shifting to southeasterly. For Wisconsin:
Generally fair; cooler near St. Paul tonight;
warmer Friday; generally windy becoming
variable.

The "Industrial" Movement.
The whole question raised by the ap-
pearance of "industrial armies," Coxey's
and the rest—whether there be any
proper way for the state to give work to
the unemployed—is discussed, pro and
con, in the May number of the Forum.
Dr. Stanton Coit, of the University Settle-
ment in New York city, who is per-
haps the most eloquent and earnest ad-
vocate of state aid, makes a plea for help
by cities—and if by cities also by
states. He argues that it is not
socialism for a city to appropriate man-
power in a time of general distress to make
good public improvements; and that by
this method, employment, at the usual
rate of wages, would be given to large
numbers of idle men. This would help
only those who are willing to work, and
it would not be charity or socialism.
On the other hand, David McGregor
Means, the political economist, maintains
that such a plan is nothing less than so-
cialistic, because the work must be paid
for, and it can be paid for only by tax-
ation. If, therefore, any unusual quantity
of such work be given out in a time of
depression, to that extent the city or
state overtaxes itself just when it can
least afford to do so. This is the very
essence of socialism, Mr. Means con-
tends; and history is full of instances of
bankruptcy and ruin that have been
brought about in this identical way.

Mr. Means offers spirited opposition to
socialism, and in resending the socialists'
idea that to defend the institution of
property and the right to labor is a hard-
hearted and cold-blooded proceeding,
admits no monopoly of virtue
on their part. On this point he
says: "We are quite as deeply
interested in the future welfare of so-
ciety as they are. In behalf not so much
of the rich as of the poor, in the interests
not so much of ourselves as of our chil-
dren and of our children's children, we
propose to guard the precious heritage
of liberty won for us by the agency of
countless generations of our ancestors.
For the love of God and for the love of
man we shall defend it with all our heart,
and with all our soul, and with all our
mind, and with all our strength. No im-
putations of selfish and sordid indifference
to the misery of the poor will induce
us to consent to the repetition of social
experiments that have caused ruin
in the past, and that will, as experience
satisfies us, produce the same result in
the future. We may be for a time over-
borne; but the principles for which we
contend will eventually prevail, or man-
kind will lie prostrate under despotisms
which they have ceased to have the vir-
tue to resist."

The Chicago Times makes the sug-
gestion that Coxey's and Kelly's "arm-
ies" might be sent to Nicaragua to pun-
ish the insolent natives.
The regular troops surprised "Gen."
Hogan and his army while asleep, and
they capitulated without a struggle. It
was a happy ending instead of what
many feared would result in bloodshed.
Lawless men have a wholesome dread of
regular troops, who shoot when ordered
and place their duty ahead of their sym-
pathies.

The municipal campaign in St. Paul is
waxing warm. The betting man who
can name the winner in the mayoralty
fight can make a big winning himself.

It happens that this sharp and direct
controversy covers precisely the point
raised, not only in every locality by the
number of men out of employment, but
prominently brought forward by the or-
ganized demand of the "industrial
armies." The sympathy and aid extend-
ed by various classes of people along the
routes traveled by the Coxey and
Kelly "armies" shows that there are
many persons who are imbued with
these socialistic ideas, and on this
account the movement is one of great
importance. It has long ago ceased to
be a joke. It has become a serious
question—a living problem which de-
mands a solution. The demonstration
has assumed alarming proportions and
associated as it is with innumerable
strikes and lockouts, it is significant of
deeply rooted discontent among the
masses. There is no disguising the fact
that it is an attack against the founda-
tion of established institutions, against
society itself, and it must be met with
wisdom and prudence.

Many of those who are in these "arm-
ies" are lawless and indolent men who
do not want work, but there are hundreds
of others who have been hard-working
men and are now anxious
to obtain employment but
cannot get it. They are practically face
to face with starvation and they have
taken part in this movement because no
other course appeared open to them.
Men who are hungry will naturally be-
come desperate, and herein lies a great

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

danger. The desperation of some has
been made manifest in the seizing of
trains and other lawless acts. What
shall be done to meet this state of affairs?
This is the problem which congress must
solve. The existence of the "armies"
and the greater army of unemployed be-
hind them proves that there is something
radically wrong in the industrial world.
The condition that confronts the nation
must be met.

The Rainmakers Again.
In spite of all the cold water poured
on the science of rainmaking the spring
has no sooner arrived than there are in-
dications that the experiments of last
year are considered a scientific success
and will be resumed this year with re-
newed vigor. The Rock Island railroad
last summer set one of its employes to
rainmaking. This was C. B. Jewell, the
company's train dispatcher at Goodland.
His efforts were astonishingly success-
ful, both in Kansas and in Colorado.

Mr. Jewell's method is the one in-
vented by Louis Gatham, of Chicago, whose
theory is that rain is never produced
naturally except by the vapors of the
atmosphere becoming agitated and
mixed with the colder upper strata of
air. He therefore fires up into the air
metallic bombs filled with liquified car-
bonic acid gas. When these bombs ex-
plode the liquor expands instantaneously
into gas, producing intense cold and im-
mediate precipitation.

A Chicago dispatch says Mr. Jewell
will give the people of the West an
ample opportunity this summer to enjoy
the benefits of this discovery. Should it
prove successful it will be a great ben-
efit for the farmers.

The Minneapolis board of trade is in-
vestigating the question of under-assess-
ment of taxable property in the state,
and finds that in many counties the land
was assessed lower per acre in 1830 than
in 1870, and also in a few counties the
total assessment had decreased during
the last few years. The Little Falls
Transcript very correctly remarks that
the evil of under-assessments has been
increasing, and some general movement
should be made in the state to better
equalize assessments and bring them
nearer the true value.

The Republican senators show a dis-
position to pursue dilatory tactics in the
consideration of the tariff bill, and some
of the Democratic senators are assisting
this policy by being absent when they
should be at their post of duty. Mean-
while the country suffers from the un-
certainty as to the final disposition of the
tariff question. The politicians are the
curse of the commercial and industrial
community.

The regular troops surprised "Gen."
Hogan and his army while asleep, and
they capitulated without a struggle. It
was a happy ending instead of what
many feared would result in bloodshed.
Lawless men have a wholesome dread of
regular troops, who shoot when ordered
and place their duty ahead of their sym-
pathies.

The Chicago Times makes the sug-
gestion that Coxey's and Kelly's "arm-
ies" might be sent to Nicaragua to pun-
ish the insolent natives.

It happens that this sharp and direct
controversy covers precisely the point
raised, not only in every locality by the
number of men out of employment, but
prominently brought forward by the or-
ganized demand of the "industrial
armies." The sympathy and aid extend-
ed by various classes of people along the
routes traveled by the Coxey and
Kelly "armies" shows that there are
many persons who are imbued with

A Brilliant Idea.
The News Tribune wants the Coxeyites
to go farming in Northern Minnesota
instead of marching to Washington.
This is a brilliant idea on the part of
the morning paper, and no doubt it should
send a "marked copy" to General
Coxey, Frye, Kelly, et al. they would
turn their steps in this direction and
follow such sagacious advice.
Of course the providing of agricul-
tural implements, teams and food for 1000
men for a year while raising their first
crop, would be a small matter of detail
for the News Tribune's solver of public
problems. In fact, if the public
failed to contribute the necessary
amount, he would no doubt advance it
on liberal terms and wait until the prices
of wheat and other agricultural products
reached figures that would make their
production profitable.

The Anoka Union, commenting on
The Herald's announcement that Hon.
O. D. Kinney has consented to become a
candidate for the Republican nomina-
tion for congress, says: "Mr. Kinney
will make a strong candidate, and one
most acceptable to this district."

Dr. A. A. Ames has bidden Minnesota
good-bye and has decided to make Phila-
delphia his future home. "Doc" Ames
had a brilliant political future at one
time in this state, but ruined it by his
own indiscretions.

Think it Over.
I.
Before you undertake a scheme,
Just think it over.
It doesn't pay to sit and dream—
Just think it over.
It isn't wise to be too rash,
It never pays to be too rash.
Sometimes it is in actual cash
So think it over.

II.
If you are going to propose,
Just think it over.
It's hard to hold back, goodness knows—
You may have made enough for two.
But even if you come to you—
And if you don't, what will you do?
So think it over.

III.
In fact, whatever comes along,
That is the burden of this song.
Just think it over.
Don't be afraid you'll miss the train.
By sitting down to work your brain
The chances are that you will gain.
So think it over.—Somerville Journal.

Marshall Bode Praised.
Minneapolis Tribune: The coolness,
nerve and patience of Marshall Bode in
his trying initiation into the duties of his
office are admirable. In the exercise of
his professional talents Mr. Bode runs
largely to test, but in the performance of
his official duty he is in deed earnest.
There is no doubt that he is a man of
bully in his makeup, but he won't be
bullied either. Mr. Cleveland has reason
to be proud of his little man in birch
bark pants.

Just for a Change.
Jordan Independent: The time when
the legislature chose the United States
senator has passed and now the candi-
dates for the senate choose the legisla-
ture. Look ready, history of Illinois. It
is a good thing that the people will be
both will be chosen by the people, just
for a change.

No Sympathy for Riot.
Stillwater Gazette: The sympathy in
many quarters that has manifested itself
for the strikers on the Great Northern
dies out when they resort to violence and
destruction of property. Not until the
strikers adopt the principle that they
will quit work and not molest the prop-
erty of those they work for nor the men
who are willing to work at the wages
paid them, will they ever be able to se-
cure the full sympathy of the public.

THE BAR LOCK TYPEWRITER
Receives the John Scott Gold Medal.
PHILADELPHIA, April 26.—The city of
Philadelphia, through the Franklin insti-
tute, has awarded the John Scott gold
medal to Charles Spire, of New York, for
the superior merit of his invention, the
Bar-Lock typewriter. All of the type-
writers completed, but after a 3-months'
test the Bar-Lock secured the honors.
This medal has been awarded to Edison
for his phonograph, Morse for his tele-
graph, and also to Cyrus Field for his
great Atlantic cable.

Those who never read the advertise-
ments in their newspapers miss more
than they presume. Jonathan Kenison,
of Bolan, Worth Co., Iowa, who had
been troubled with rheumatism in his
back, arms and shoulders read an item
in his paper about how a prominent
German citizen of Ft. Madison had been
cured. He procured the same medi-
cine, and to use his own words: "It
cured me right up." He also says: "A
neighbor and his wife were both sick
in bed with rheumatism. Their boy was
over to my house and said they were so
sick in bed he had to do the cooking.
I told him of Chamberlain's Pain Balm
and how it had cured me, he got a bot-
tle and it cured them up in a week. 50
cent bottles for sale by druggists.

Our better halves say they could not
keep house without Chamberlain's
Cough Remedy. It is used in more than
half the homes in Leeds, Sioux Bros.,
Leeds, Iowa. This shows the esteem in
which that remedy is held where it has
been sold for years and is well known.
Mothers have learned that there is noth-
ing so good for colds, croup and whoop-
ing cough, that it cures these ailments
quickly and permanently, and that it is
pleasant and safe for children to take.
25 and 50 cent bottles for sale by drug-
gists.

PROMOTERS OF
HONORABLE ADVERTISING.

The Prize
For the ...
Best Ad.

Written by Sixth Grade pupils of city schools in Contest No. 3, subject "SHOES," was awarded to Fred Smith.

We have examined the 310 entries received on M. S. Burrows & Co. from pupils of all grades of city schools, and award to Fred Smith, the sixth grade of Jackson School, the prize in Contest No. 3.

Duluth, Minn., April 24, '94.
M. S. Burrows & Co.
Duluth, Minn.

Gentlemen: Enclosed please find my advertisement for Shoes. I am a pupil of the Jackson School, 11 Sixth Grade. Yours truly,
Fred Smith.
Teacher, Miss McIntosh.
Saw ad in Sunday News Tribune.

Barfoot boy, with cheeks of tan, Lacked "Burrows" Shoes of being a man; Outward smiling, toward blue, Because he had not "Burrows" Shoes. "Burrows" had "to give the price," If he wore "Burrows" Shoes until he dies.

The name of the winner is published later this week than usual, because of the great number of ads. received, many of which were excellent, but as the writers omitted to carry out the rules and did not limit the ad. to 10 words, it was more difficult to decide.

No. 4 Contest.

Two Dollars for the best advertisement, limited to 10 words, subject, "SUITS," written by a Fifth Grade pupil. To be handed in not later than April 30.

M. S. Burrows & Co.

CONTESTS THE BONDS.

Michael Morris Case Against the City, on the Validity of the Water Bonds.
Up Today.

Principal Attack of the Plaintiff Will Be Directed Against the Legality of the Bond Election.

Prisoners Received Their Sentences Yesterday Afternoon from Judge Moor—Some Get Long Terms.

Just before the noon adjournment Judge Lewis took up the case of Michael Morris against the City of Duluth. It will be remembered that suits were brought by Morris and W. S. Woodbridge for an injunction to restrain the city from issuing water bonds. The cases came up in special term same time ago on an order to show cause why a temporary injunction should not be issued. Judge Moor vacated this order and overruled the motions for temporary injunctions. The Woodbridge case was immediately appealed to the supreme court, where it is now pending. The Morris case is the one that came to trial this morning and is being tried on its merits.

There are several grounds on which the injunction is asked, but it is understood that the one that will be most insisted upon is the validity of the bond election. J. L. Washburn appears for Morris and Page Morris for the city. The case will be finished tomorrow.

Judge Moor sentenced the prisoners convicted before him yesterday afternoon. Frank Brax, for assault in the second degree, received the heaviest sentence. He will stay at Stillwater for three years and four months, during which time he will do hard labor.

Richard Bowden was sentenced to Stillwater for three years at hard labor for burglary in the third degree. Cass Hill, for assault in the second degree, was sentenced to Stillwater on the reformatory plan.

William Matson, assault in the second degree, Stillwater at hard labor, reformatory plan.

William Munro, for grand larceny in the second degree, will be sent to the state reformatory at St. Cloud. He was recommended to the mercy of the court by the jury.

John Doyle, for the same offense, was sentenced to two years and four months at hard labor.

At the noon adjournment Judge Moor was hearing the case of Charles L. Edwards against Charles Carlson, et al. Edwards is suing for \$250 on a labor for work performed on the Iron Range road.

The case of Archie McPherson against Henry Schuman et al was finished this morning. Judge Ensign making judgment for several lien claimants. The case of Charles Vager against Consul Brothers was taken up and will probably be finished this afternoon. The case was taken up last term, but was continued.

The case of John B. Kessler against J. L. Potts et al was submitted on briefs. The case of the Erie City Iron Works against the New Duluth Land company et al has been dismissed.

TWO FRIENDS FALL OUT.

One Young Woman Prosecutes Another on a Criminal Charge.

In municipal court this morning the crowd of spectators that regularly occupies all the space outside the railing, was much entertained in a case where Hilma Bergman prosecuted Laura Herman on the charge of obtaining property under false pretenses. The girls are both Finlanders but far above the common run of that people in looks, intelligence and knowledge of Uncle Samuel's language.

It seems that all the winter they were bosom friends, roommates and were of assistance to one another in many neighborly little ways. Hilma had a dress pattern in the possession of a Mrs. Hogar. Laura went to the holder and under certain representations obtained possession. Hilma says that Laura's actions were unauthorized and criminal. Laura maintains that her actions were the result of certain concessions and directions from the owner of the dress pattern.

To get at the real facts of the case, Judge Powell, a jury of twelve men, Assistant City Attorney Benham, assisted by N. Soderberg, Judge A. K. McGindley, representing the defense, and several witnesses, put in about two hours of time. The testimony at times was very amusing, especially that of Miss Laura. She had beautiful rosy cheeks, blue eyes, was clad tastefully and, with her somewhat ingenuous manner, made a very attractive picture. Mr. Benham asked her almost everything, except the color of her stockings, and she always had an answer ready, and which she also gave without a bit of embarrassment. Ladies' garments were discussed, confidential conversations between the complaining witnesses and the defendant were unearthed and published to all who could hear, and lots of things were told that people of ordinary experience and information do not know.

One of the witnesses for the defense was George Spalding, a young man who works in a jewelry store at 27 West Superior street, and who has had the pleasure of giving the fair Laura mandolin lessons. In speaking of a lot of clothing which Laura testified she had donated to Hilma, a pair of stockings was mentioned.

"Where did you get those stockings?" asked Mr. Benham.

"They were a Christmas present," answered the witness with her cute little accent.

"Who gave them to you?" was the next inquiry.

"Mr. Spalding," was the prompt, apparently innocent reply. Then the laughter.

Just before noon the arguments were made and in a short time the case went to the jury.

The jury brought in a verdict this afternoon acquitting the defendant.

PATENTS RECEIVED.

Names of Those For Whom Patents Arrived at the Land Office Today.

Patents as follows were received at the local United States land office this morning:

John P. Cadden, Carlton county; Thomas Sullivan, Bayfield county, Wis.; Otto Miller, Marquette county, Mich.; Francis Dorsey, Barron county, Wis.; Maurice G. Krasse, Ashland county, Wis.; Edwin L. Lewis, Itasca county, Minn.; Edwin C. Coleman, Albert A. Marden, Carl Erickson and Joseph Martell, of Hennepin county, Minn.; John F. Kerwin and Charles Jorgenson, Winnebago county, Wis.; Albert Soderlund, heirs of Thomas C. York deceased, Emil C. Krause, Frank Blair, Bert Perry, Isthmopolis, Wisc. Richard Donoh and Charles L. Morin, of Douglas county, Wis.; Meichel Pelouquin, Mary Hergevin, Antoine Plante, Adela Hergevin and Baptiste Paul, of Chippewa county, Wis.; John Grady, Idar Williams and Andrew Johnson, of Cook county, Minn.

The following patentees are residents of St. Louis county, Minnesota: John Morrison, Nellie Mathison, Walter R. McDougall, Marshall E. Pearce, John L. Heynour, Celia Heff, Duncan McDonald, Daniel Nilsson, Sophie Johnson, David Morrison, Norman H. Murray, Samuel B. Aways, Andrew Sandell, John Naslund, Fred J. Vine, Peter Elstrom, Gustav Anderson, Luke H. Corcoran, James L. Travers, August Melander, William Ilay, Malcolm B. Currie, Otto Johnson, Annie M. Vark, Carl J. Swenson, John M. Han, Ole Kolstead, Cass E. Aisland, John E. Currie, Ludwig H. Mue, Andrew Larson, John D. McPhail, Charles H. Wallace and John Doulan.

A NOVEL IDEA.

Amusing Entertainment at the Baptist Church Social Last Evening.

There was a novel entertainment provided at the social at the Baptist church last evening. The idea was suggested by H. H. Hanford, who saw it carried out in Kansas. From five families four members were selected, the husband, wife and two children. The entire twenty were then seated on the platform and a committee of three strangers selected and brought in to divide of the families. The committee were Messrs. Parsons, Buchanan and Modica, and they proceeded to sort out the families.

The result was highly amusing to the audience as the twenty were known to almost everyone here. The judges, Mr. Buchanan made the best record, placing ten correctly. Mr. Parsons placed six and Mr. Modica four.

There was great fun at some points. A mother of two children was placed as a daughter and a daughter as a mother. A great laugh went up when one of the women leaned over toward a tittering youngster and bade him be quiet. She was instantly set down as the mother of the boy but it proved to be a clever ruse on her part and the judges were wrong.

PERSONAL.

O. H. Clarke, of Winona, is here and will become a resident of Duluth on June 1, going into partnership with H. D. Pearson in the insurance business. He has taken a residence at 1005 East Third street.

C. A. Towne went to Chicago last evening and will speak before the Marquette club there on Friday.

E. C. Gatus, of Brainerd, was in the city yesterday.

S. A. Harris came up from Minneapolis this morning.

Mr. and Mrs. E. G. Howard, of St. Paul, are at the Spalding today.

A. WIELAND.

IT WAS A BLUFF.

Senator Aldrich Offered to Close the Senate's Tariff Debate at Three O'Clock This Afternoon.

The Offer Promptly Accepted by Senator Harris, After Making a Canvass of the Democrats.

Then It Turned Out That Aldrich Had a Loophole Through Which He Quickly Retreated.

His Bluff Had Been Called, Much to His Surprise, and the Debate Was Resumed.

WASHINGTON, April 27.—The Democrats in the senate today decided to accept a proposition made by Senator Aldrich during the proceedings to vote on the tariff bill as it came from the house at 3 o'clock today. Senator Harris, after a question was put to him by Senator Aldrich as to whether a vote could be taken at that hour, immediately began a canvass of the senate and after seeing most of the Democratic senators and conferring with them as to the acceptance of the proposition, decided to announce the willingness of the Democratic side of the chamber, to take a vote at the hour. He succeeded in getting the acquiescence of all the Democrats to allow the vote to be taken.

When asked if the Republicans would stand by the proposition he had made to vote on the tariff bill today, Senator Aldrich said the proposition was made for the time only and not for the future. "I had no intention of granting an option," said he, "and my proposition was to the senate and not to a Democratic caucus."

It therefore will be seen that Senator Aldrich's surprising offer had a loophole in it and was a bluff, and that the offer to vote at once does not hold good as far as the Republicans are concerned, and that the tariff debate therefore will not be ended by a vote at 3 p. m.

No general business was transacted in the senate today, Mr. Harris moving, as soon as the session began, that the tariff bill be taken up. There was some resistance to this plan, particularly by Mr. Duffell, but the motion passed 29 to 16. Mr. Dolph waived his right to the floor and Mr. Lindsay addressed the senate. Senator Cullough also addressed the senate.

The sparring between Senators Harris and Aldrich terminated without any agreement having been reached as to when a vote shall be taken upon the tariff bill.

WANTED TO GO TO JAIL.

George Francis Train Arrested But Was Not Locked Up.

WASHINGTON, April 27.—George Francis Train is under arrest. The philosopher of psychic force wanted to languish in a dungeon deep after his arrest, but an unsympathetic police refused to comply and instead, the police took him to the police court for immediate trial instead of a confinement first and trial afterwards.

Mr. Train last night delivered a lecture, without securing a license, and the police swooped down upon him. Judge Milner of the police court refused to make a martyr of Mr. Train and dismissed the charge against him.

FOUR MURDERERS LYNCHED.

Were Taken from Officers in Mississippi and Hanged to a Tree.

NEW ORLEANS, April 27.—A special to the States from Tallulah says: Four more of the Boyce assassins were captured last night and when the posse who had charge of the prisoners reached the Shearley place, about twenty-seven miles from Tallulah, a crowd of mounted men met them, overpowered the officers and took the four assassins to the Crescent place, and on the ground where the villainous shots were fired by the assassins that killed Mr. Boyce, the four leaders, Shell Claxton, Comp Claxton, Scott Harvey, Jerry McCoy, were hanged to a tree about 100 feet from where they committed their fiendish deed.

Canada's Mineral Products.

OTTAWA, Ont., April 27.—A statement of the value of the mineral products of Canada for the past year shows an aggregate of \$10,250,000 or \$250,000 less than that of 1892. Nickel heads the list, the output having been 3,092,882 tons, valued at \$2,078,351. The value of gold was \$97,244; copper, \$875,804; silver, \$321,423. Three million and seven hundred tons of coal were mined, valued at \$8,422,250. The quantity of iron ore mined is placed at 124,702 tons, valued at \$298,018.

COXEY'S ARMY ASTIR EARLY.

Most of Them Breakfasted on Coffee and Hard Tack Today.

HYATTSVILLE, Md., April 27.—It matters not at what hour the Coxey people take up their daily march, they are astir early in the day. Before 6 o'clock the canvas that shut in the camp was taken down and a dozen men were busy rolling and stowing it away for a day's tramp. Broken rails were piled about kettles and coffee pots and fires kindled. Along the stream that half circles the camp men were upon their knees washing their faces with the cold mountain water. There was a suggestion of the fitting of a circus after a performance. Coffee and hard tack constituted the breakfast for most of the men. Some got eggs but there were not enough to go round. After breakfast the men strolled about and loitered on the village street or sat on the fences along the pike.

Standing at the end of a slender bridge that spans the stream, the Associated Press correspondent was spoken to by a young man who wore the army badge and who carried a canteen. "That canteen," he volunteered, "was given me by an old man up in Maryland. He said it was once carried over the battlefield of this state by a young soldier. I shall think a good deal of it."

"How do you men turn out this morning?" "Pretty stiff—mighty stiff. We had to sleep on the ground last night and it was chilly. I can tell you."

"What did you have for breakfast?" "Most of us had nothing but coffee and hard tack. I don't feel like tramping today."

"I feel too weak to walk. I did yesterday, and since we struck here I have had rigors about 8 o'clock. Carl Browne, with his keen shifty eyes, was attending to details, announcing, as he called on his chief, that owing to the short march of today they would not start until about 9:30 o'clock."

As Chief Coxey went down the hill from his hotel towards the camp, Carl Browne was getting his comrades into line for the start. Coxey circulated among the men. He stated that he was waiting for a local tender, he had hired to come down and load a part of the canvas. After some delay the team drove upon the grounds and its owner came to Coxey to receive pay for the service.

"I'm not going along, Mr. Coxey, and I would like to get my pay now," he said. "All right," said the response, and the leader pulled out from his trousers' pocket a handful of coin, none larger than a 50-cent piece. He began counting the money, but the man soon came down to nickels and then to pennies. "There, there," exclaimed the owner of the team, "can't you give me some paper money? I don't want all that metal." There was a tinge of impatience in this.

"Well," said Coxey with deliberation and still counting coin, "I believe this is legal tender, ain't it?" "Oh that's all right if you haven't anything else," said the team owner.

"Most of us are glad to get anything in the way of money," added Coxey with a glint of fun through his spectacles, and then when the team owner had received \$20 the price of hire, and had gone, Coxey remarked, as he returned what was left to his pocket, "We may all be better fixed money-wise before long."

At 10 o'clock the march, the band played lively airs and the beating step ready to march off. At 9 o'clock came the command and the army was in motion along the yellow pike road. The day's tramp was one of thirteen miles to Gathersburg, where the army rests until Saturday morning.

Ferris Wheel to be Removed.

CHICAGO, April 27.—The preliminary work incident to taking down the Ferris wheel on the Midway Plaisance is now being done. This consists of placing falsework, engines and hoisting apparatus. Some day next week the big wheel will turn for the last time in Chicago. The expense of taking down, moving and rebuilding the wheel will be \$150,000. In New York it is to be placed at Thirty-seventh street and Bowers. Old Vienna will be reproduced around it.

Cannot Get a Train.

FORT MCLEAN, Ill., April 27.—Grayson's Commonwealth army of 120 men arrived here today, some in wagons and others walking. Their attempts to capture the eastbound train on the Juleburg branch of the Gulf road or on the Burlington & Missouri have been frustrated, as all trains are under orders to pass their camps without stopping.

The Strike in Indiana.

TERRE HAUTE, Ind., April 27.—President Dunkerly, of the state miners' union, stated this morning that the strike in Indiana was practically complete and that 6000 miners were out. He received a telegram from President McBride of the national association this morning stating the outlook was most encouraging.

John McCullough in Part X.

Frank Mayo in Part X.

THE STRIKE ON.

The Railway Union Leaders Held Another Conference With President Hill but No Agreement Resulted.

Mr. Hill Made Another Offer to Refer the Dispute to Arbitration but Debs Declined.

The Union Then Called Out All the Great Northern Men in the Twin Cities.

Strike Made General Throughout the Entire Length of the System and a Bitter Fight Begun.

ST. PAUL, April 27.—Contrary to expectation the Great Northern officials were again in conference with the committee of the American Railway union today. President Debs and vice president Howard and one or two others early today called on President Hill and asked if they could resume their conference with him. He promptly acquiesced and they met him at 10 o'clock. Before going into the conference President Debs, of the union, told a reporter that the men had not altered their demands in the slightest, nor did they intend to do so. Just what the men expect to gain by the conference is not clear, but Mr. Hill had left the way open for a renewal of negotiations for a settlement at any time and they have taken advantage of his invitation to see whether war cannot be averted. Both sides expressed themselves, prior to this conference, as firmly opposed to granting anything demanded by the other, although the men demanded their old wage schedule, while Mr. Hill simply asked for submission to arbitration.

The conference did not last a great while and at its conclusion the men resumed their own meeting in Labor hall. Neither the men nor the officials would give any information as to the object of the conference or of its results, except that Vice President Clough told a reporter that "we know no more than that we did yesterday about the men's position in regard to arbitration."

From all that could be gathered it is thought the men were revising the schedule of their previous demand, and were after additional information from the railroad before submitting a revised proposition.

At 8 o'clock today the company started a fully equipped passenger train which they propose to send through to Great Falls. Vice President Clough said this train carried no deputies, but it is believed a force will be picked up somewhere along the line.

Later, the strike is on at last in the Twin Cities. The A. R. U. at 12:10 today called out all its men in the employ of the Great Northern road in the Twin Cities. Telegrams were sent to all unions on the line to stand to their guns.

All efforts to settle the Great Northern strike have failed and President Debs, of the American Railway union, shortly after noon today, issued orders for a strike on all the Minnesota divisions of the Great Northern. This completes the strike from St. Paul to the coast. President Hill, of the Great Northern, again proposed his plan of arbitration at the last conference between the men's committee and the road, but it was refused.

The shopmen of the Great Northern in this city have all obeyed the order to strike, and everything is at a standstill. The afternoon train started out on the Great Northern with a full crew, notwithstanding the union order to strike. When it reached Jackson street, however, less than half a mile from the depot, where there is a switch but no switchmen, the train stopped and the engineer, fireman and baggage men deserted it. The conductor stood by the train but refused to talk.

THE FIRST FREIGHT TRAIN.

It Reached St. Cloud This Morning and is Still There.

ST. CLOUD, April 27.—Freight train No. 15, the first over the Great Northern since the beginning of the strike, pulled in at 7:15 today. Engineer Frank Maher, Fireman L. J. Bower, Conductor John Pinion and eleven deputy marshals were in charge.

The train is made up of thirty-five cars loaded of merchandise and was started from St. Paul yesterday afternoon, coming up as far as Big Lake, where the crew concluded to lay over all night rather than make the run after dark. No obstruction was offered by the strikers, as they were confident that the freight would not leave the St. Cloud yard, claiming that the company will not find a crew to take it out on the Fergus Falls division. No move had been made to start the train up to 1 o'clock this afternoon.

Later—The engine has been returned to the round house and the attempt to send the freight to the West has been abandoned for the present.

THE INJUNCTION ISSUED.

No Opposition Offered to Enjoining the Employment of Intimidation.

ST. PAUL, April 27.—The order to show cause why the injunction prayed for in the case of the Great Northern Railway company against Olson and others to restrain them from interfering by force, threats or intimidation with interstate commerce on that road or with those employed to carry on interstate commerce in place of those who quit the service of the road should not be issued came on for hearing in the United States circuit court today, Judge Sanborn presiding. L. B. Foster appeared for himself and

stated to the court that he had no objection to the issuance of the injunction, but asked the court what the meaning of the word "intimidation" was. The court answered: "The employees have the right to organize for their mutual benefit and for the purpose of advancing their wages. They have the right to induce others by argument and persuasion to join their organization, to quit the service of their employers, or to refuse to enter this service, but they may not induce such action by intimidation."

The meaning of intimidation in this case defined as the overawing by threat of superior force, even though nothing be said indicating that force would be used, a display of force being sufficient. Mr. Foster then repeated that he had no objection to the issuance of the injunction, and that he should obey it. W. A. Cornish and W. E. Dodge appeared for the road and Mr. Foster for himself.

WILL ACT PEACEFULLY.

The Coke Strikers Have Decided to Preserve Order.

CONNELLSVILLE, Pa., April 27.—The coke strikers have adopted peaceful plans for the future. The foreigners who in former strikes terrified the community with pistol and torch now agree to follow the English-speaking workmen and abstain from violence. The plan of the leaders is to organize the men at all the works and not molest those who want to work. There is an exodus of foreigners from the regions, the leaders saying they have become tired of the constant struggle against starvation. A number left for the old countries and others will follow in a day or two. A society composed of fifty families secured transportation today to North Dakota, where they purpose engaging in farming. The strike is now general.

THE TRAINS PROTECTED.

Every Northern Pacific Train Leaving the Coast Loaded With Marshals.

TACOMA, Wash., April 27.—Every train on the Northern Pacific leaving Seattle or Tacoma is accompanied by deputy United States marshals armed with revolvers and Winchester. The Coxeyites have declared that they will ride over the Northern Pacific. Marshal Drake says he hopes to have no trouble with the men, but they must understand that they cannot steal a train on the Northern Pacific without serious trouble. Seattle's army is making no progress whatever, still being camped about six miles from that city. Tacoma's army 500 strong will start tomorrow.

It is supposed that both armies will meet at Meeker Junction and it is feared that there will be trouble at that place. A squad of deputy marshals is stationed at that point.

COLORADO'S GOLD OUTPUT.

Owing to Its Increase, Denver People Want a Mint Established.

DENVER, April 27.—Assayer Puckette, of this city, is in Washington, his object being to have the government assay office here raised to the standard of a mint. The step is being taken because of the growth of Colorado as a gold producer, the amount of gold mined here having increased greatly during the last two years, and the outlook being for a much greater output.

The assay office here now gives employment to fifteen men, and if Mr. Puckette shall be successful this number will be immediately increased to thirty and subsequently to a larger number.

WANT FOOD OR WORK.

Miners Parading the Streets of Iron Mountain with a Red Flag.

MILWAUKEE, Wis., April 27.—A special to the Wisconsin from Escanaba, Mich., says: A mob of 500 unemployed miners are parading the streets of Iron Mountain today carrying a red flag and demanding food or work. The mayor will send a committee to Lansing to plead with Governor Rich for help.

Civil Service Violations.

WASHINGTON, April 27.—Examiner George B. Hoyt, of the civil service commission, will leave in a few days for New York, to investigate alleged violations of the civil service law, and conduct extra meetings in the state. Troy and West Troy are among the places where alleged irregularities have been reported.

Senator Quay Very Ill.

PITTSBURGH, April 27.—Senator Quay is reported to be very ill; his home at Beaver. He had arranged for a political conference here this afternoon and to attend the American club banquet to-night, but he was unable to leave his home. His affliction is one that may take him off without much warning.

Brazilian Rebels Escape.

BUENOS AYRES, April 27.—All the Brazilian insurgents, including Admiral da Gama, who were detained on board the Portuguese warships, have succeeded in escaping.

Dr. Albert Day Dies.

BOSTON, April 27.—Dr. Albert Day, famous for his successful treatment of inebriates, and who for the past thirty-five years has been identified with the Washington home in this city, is dead, aged 73.

District Attorney Named.

WASHINGTON, April 27.—The president today sent to the senate the following nomination: Harry E. Briggs to be attorney of the United States for the western district of Wisconsin.

Big Clothing Failure.

NEW YORK, April 27.—Henry Newman & Co., importers of clothing supplies at 628-630 Broadway, have made an assignment to Nathan C. Myers of 45 Wall street. The firm is the largest in the trade and the failure is said to involve \$1,000,000.

Chinese Ordered Out.

IDAHO SPRINGS, Col., April 27.—A party of Chinamen who recently began working on the Edwards place here have been ordered by the citizens to leave town before night. All the other chinamen in town have been ordered to go with them.

The Spice of Life!

Mother Nature is just now setting an example we may wisely follow. The brown meadows put on their robes of Emerald and the trees begin to change their poverty of naked branches for a boundless wealth of foliage. From banks where erstwhile the frosty crystal glittered now peep up the smiling faces of the wild flowers. (Trailing Arbutus for sale at the Glass Block Store Tomorrow.) Behold all things become new and new things become all. Nature and humanity are both bettered from the donning of new pretty things to wear, and for the latter we will offer our patrons the following for

OUR GREAT

Saturday's Trade

Who Will Visit the Glass Block Store Tomorrow.

LARGEST CIRCULATION IN DULUTH.
OFFICIAL PAPER OF ST. LOUIS COUNTY

Entered at the postoffice at Duluth, Minn., as
second-class mail matter.

The Weather.
U. S. WEATHER BUREAU, DULUTH, MINN.,
April 27.—A storm center has remained nearly
stationary to the north of Duluth. The pressure
has diminished two to four-tenths of an
inch from Manitoba southward to Kansas. It
is highest in the South Atlantic states.
Showers have occurred in the Lower Mis-
souri valley, Northern Minnesota, the Dakotas,
Montana and the Canadian Northwest. In
these districts the weather continues gen-
erally cloudy; it is fair in the remaining dis-
tricts.
In the lake regions and central valleys the
other storm is slightly higher than on yester-
day; it has fallen slightly in the Rocky moun-
tain districts.
Depth of water in Sault Ste. Marie canal this
morning, 14 ft 4 in.
Duluth temperature at 7 a. m. today,
38 degrees; maximum yesterday, 43 degrees;
minimum yesterday, 33 degrees.

**Duluth, April 27.—Local forecast until 8
p. m. tomorrow: Occasional rains tonight and
Saturday; northeast winds becoming fresh and
brisk; nearly stationary temperature.**
JAMES RENEAL,
Local Forecast Office.

**WASHINGTON, April 27.—Forecast for thirty-
six hours to 8 p. m. tomorrow: For Wis-
consin: thunder showers; cooler by Saturday
evening; southeasterly winds. For Minnesota:
thunder showers; cooler by Saturday evening;
southerly winds.**

The Congressional Contest.

There are indications that the con-
gressional contest among the St. Louis
county Republicans is approaching a
stage that can only result in bitter
feeling and intense animosities, with
the probability that St. Louis county will
be unable to secure the nomination when
the district convention is held. There is
at present a widespread disposition
throughout the Sixth district to concede
the congressional nomination to a St.
Louis county man. There is nothing
certain about this, however.

No one in Duluth should shut his eyes
to the fact that there are many able
Republicans in the Sixth district—men
of great ability and well qualified to
represent the district in congress. St. Louis
county alone, or even with the aid of the
few surrounding counties, will not have
a majority of the votes in the district
convention. The delegates from the
other counties will have the controlling
voice in deciding who shall be the nom-
inee. There is a disposition throughout
the district, which has made itself known
in Republican papers in several coun-
ties, to resent the idea of the congres-
sional nomination being decided at the
primaries in St. Louis county. Such an
idea is distasteful to the Republicans in
other counties, and it is very natural
that they should remind Republicans in
Duluth that there are other men avail-
able as congressional candidates outside
of this county. It will thus be seen that
a bitter fight at the primaries and in the
county convention here may result in
St. Louis county Republicans being un-
able to name the next congressman.

It has been understood here for many
months that if Mr. Kinney would accept
the nomination, he would receive no op-
position in St. Louis county, but that he
would receive the undivided support of
the delegation from this county. Mr.
Towne was a party to this understand-
ing. He made a voluntary pledge to
support Mr. Kinney, should that gentle-
man decide to enter the field. The Re-
publican papers in nearly every county
in the district have favorably received
the mention of Mr. Kinney's name.
Many have endorsed his candidacy and
have pledged their support. Not one
has tendered its support to Mr. Towne.

And why? Not because Mr. Towne is
not an able man and a good, consistent
Republican, but because he is compara-
tively unknown in the district, while Mr.
Kinney, by reason of his service in the
legislature, where he came in contact
with many of the leading men of the dis-
trict, and by reason of the prominent
part he took in the last congressional
convention, is well and favorably known
everywhere.

The fact that Mr. Kinney has had leg-
islative experience also counts in his
favor. It is seldom that a man who has
had no legislative experience is sent to
congress. Again Mr. Towne suffers by
contrast, because he has had no legisla-
tive experience and very little business
experience, his life so far having
been devoted to work of a professional
and literary character. Mr. Towne is a
young man, however, and there is no
reason why he should not make his mark
in public life. But if he is wise, he will
turn his attention from the congressional
contest and retire in favor of Mr. Kin-
ney.

There is no doubt whatever that if the
question is fought out at the St. Louis
county primaries, Mr. Kinney will win.
Mr. Towne cannot carry St. Louis county
for the congressional nomination. This
is said with all sincerity and kindly feel-
ing for Mr. Towne. If he remains in the
field there will be a bitter fight and Mr.
Kinney will have the delegation, but
after a bitter fight here can any St. Louis
county man secure the nomination?

Mr. Towne is an
intelligent man and he will see the force
of these arguments. Let him then make
Mr. Kinney's endorsement by St. Louis
county unanimous by withdrawing from
the contest.

If Mr. Towne desires, he can without a
doubt head the next legislative delega-
tion to St. Paul. With his ability and

his eloquence he could make St. Louis
county a power in the next legislature,
and at the same time obtain an experi-
ence in legislative work that would fit
him for the higher political honors which
must be his in future years.

The Samoan Question.

There seems to be little doubt that an
English protectorate over the Samoan
islands will be established at an early
date, and unless the United States wants
to assume such a responsibility there
can be no objection. It is certain that
the present state of affairs in the islands
cannot long be continued. There is vir-
tually no government there and the na-
tives are constantly fighting among them-
selves.

The joint rule by England, Germany
and the United States is a failure. As
long as it continues, the various factions
into which the inhabitants are divided
will keep up their fighting. The present
chief justice of the islands is an Amer-
ican and he appears to be a man of very
poor judgment. As a result of the policy
pursued by him, there have been several
bloody fights.

The indications are that the three
countries have reached a secret under-
standing on the question, and that a Bri-
tish protectorate will result. There is
no question that the change will be a
good one, as compared with the present
form of government. The United States
will retain a coaling station there, and
that is all that this country needs at the
islands.

Civil Service Reform.

The National Civil Service Reform
league has initiated a popular move-
ment toward the abolition of the spoils
system. A great enrollment of the vot-
ers of the country who favor adminis-
trative reform has been undertaken, the
work having been recently commenced
and now being carried on from the office
of the league, 53 William street, New
York. The immediate purpose of this
enrollment is to form a single popular or-
ganization working into every state, and
having for its members every person en-
rolled. This organization will then be
used as effectively as possible
in the effort toward the aboli-
tion of the spoils system under the na-
tional, state and local governments. It
is to be known as the "Anti-Spoils
League," with Carl Schurz, as president,
William Pettit, secretary, and Col. Silas
W. Butt, treasurer.

The Civil Service Reform league,
which has inaugurated this movement,
has an active membership at present of
about 5000, divided among twenty-three
associations and smaller leagues. Its
principal centers are at New York,
Brooklyn, Boston, Buffalo, Philadelphia,
Baltimore, Indianapolis, Chicago and St.
Louis. Each of these 5000 members has
been enlisted in the missionary work of
the movement at the outset. It is being
carried on through a number of active
agencies and with all possible expedi-
ency.

The officers of the league are now
sending out cards for signature by
voters, which is all that is required to
secure membership in the new league.
There are already almost 10,000 names
enrolled, including many men foremost
in every walk of life. Every state and
territory is represented. About 7000
additional cards are in the hands of
those who are securing signatures. The
secretary of the league will gladly fur-
nish to any one writing to him, numbers
of the cards, or explanatory literature.

It is felt that in this work there may
be the beginning of a new abolition
movement, which as closely concerns
the safety of the government as that of
forty years ago, and which offers an
even broader opportunity for patriotic
effort. The abolition of the spoils sys-
tem would have a powerful effect in
purifying politics in this country.

A Lexington dispatch says that a tre-
mendous effort is being made to re-
verse the people of that district that the
verdict against Col. Breckinridge in the
Pollard case was due to the unfair charge
of Judge Bradley to the jury. Thou-
sands of circulars asserting that the
charge and verdict were unjust are being
distributed. This is evidence that the
colonel has found it impossible to be
elected if the verdict be regarded as
just. But what do the people of the
Ashland district think of the colonel's
own story of shame and degradation told
in the witness-box?

The sobriety of the men in the Com-
monwealth arms shows that they are not
common tramps. They are men out of
work and unable to obtain work, who are
persuaded that they are taking the
proper way to secure a change in their
condition. They may be wrong, and yet
they may be right. Who shall decide?

It is stated that at the last election in
Leavenworth, Kas., 2500 women were
registered and only 300 of them voted.
This does not indicate that they appre-
ciate the value of the franchise.

The members of congress and the
people of Washington seem to be unduly
scared by the approach of the Common-
wealth army. There is no danger, gentle-
men.

A Boston man has completed a \$2000
kennel for his dog. Is it any wonder
that "industrial" armies are on the move.

Duluth's Postmaster.

Chicago Dispatch: The president has
appointed a man named Hellinski post-
master of Duluth and five selection is
better selection could be made. Those
raising just four-ninths of the appointee's
name in that town.

AMERICAN STORE.

Howard & Haynie

**Come to the
Cloak and Millinery
Carnival
Tomorrow**

One Price and That Right

Bright, crisp novelties will be there, made the more
fascinating by the unlimited assortments you'll be
shown and the prices which you'll find far below your
anticipations.

**Fine
Hosiery**

Has stooped to the lowest
price ever heard of for trust-
worthy goods.

**New
Gloves,**

Including the late pique
Chamois at 75c and the
Glacé at \$1 and the 8-but-
ton Mousquetaire at \$1.
All most unusual values.

Veilings

In all the new series for
spring at very low prices.

**New
Ribbons**

In Moires, Satins, Gros
Grains, Failles. Good and
very cheap.

**New
Outing**

Flannels and Dress Ducks
of the most modern and
neat effects at low prices.

**Saturday
Shoppers**

Will find it much to their
benefit to make a "still
hunt" through the many
departments in the store to-
morrow. Some of the new-
est, proudest merchandise
produced will be found sell-
ing at prices far more di-
minutive than is customary.
See the new White Dresses
for infants and the Muslim
Underwear.

HOWARD & HAYNIE.

A Piano
for \$40.00.**

Duluth Music Co.

His Absent Queen.

Tonight,
Past in my arms I hold thee,
Anselma mine,
My queen!
I past in my arms!
And yet,
If but last night I'd held thee
Only in my hand,
How then, indeed, would you
Have been to me
A queen imperious!
For then,
Clinging as I did those other queens,
Those three right royal ladies
(And had on all the time)
With the king I'd held thee
Not but I'd played
And whooped it up
Until the cows came home,
And like a cyclone revolving out to huddle things,
I'd take the pot.
Tuck, tuck, tuck, tuck, that fat jack-pot,
And stowed it in my jeans—
If but last night I'd held thee
Just in my one weak hand,
Oh, queen!

New York Sun.

Kinney Made Friends.

Elk River Star-News: Kinney is a
good man, and should it finally be
concluded to permit Duluth to name the
candidate for congressman, probably no
better selection could be made. Those
who attended the congressional conven-
tion at Duluth two years ago will remem-

ber Mr. Kinney as the man who made
the speech of the convention in behalf
of Kendall's nomination. The subject
wasn't particularly palatable to this end
of the district at that time, but the speech
was a hummer and made Kinney a good
many friends.

ONE LIFE WAS LOST.

A Small Village in New York Was Destroyed
by Fire.

BUFFALO, April 27.—A special to the
News says that at least one life was lost
in the burning of the village of Gasport,
Gasport is situated on the Falls branch
of the New York Central railway about
eight miles east of Lockport, in Niagara
county. It has a population of about
500.

The buildings on Main street are
mostly of wood, and the village has no
protection against fire. The fire origi-
nated in a meat market connected with
the hotel and spread rapidly. Within
half an hour the hotel and several
dwellings were in ashes. The bartender
of the hotel perished in the flames.

ONE HUNDRED TO ONE

Little Money Ordinarily Made on the Long Shots and Their Owners Are Rarely Benefited.

Win of Such Horses Fills Bookmakers' Hearts With Joy and Their Boxes With Greenbacks.

A Glance at the Few Big Winnings That Have Been Made at Long Odds.

When the newspapers recently announced that John McCullough had won a race at odds of 100 to 1 at Roby, every small bettor in the country who occasionally plays the news-sheets because he did not have \$5 or \$10 on John. Such a winning, however, proved the ruin of many a man. It is a mere matter of blind, brainless luck. The lightning for odds in hundreds of times happens to strike in an unlikely place, but the lucky bettor immediately imagines that he is a bettor, a plunger, a new Pittsburg Phil, a second edition of Mike Dwyer or a building young Napoleon of the betting ring.

Five hundred dollars a day will furnish coal for a small family and leave a dollar or two for cigars, and the bettor is sure to

BARNEY SCHREIBER. CHRIS SMITH. DAVE JOHNSON. JACK N'DONALD.

can pick \$500 long shots every day in the year, Sundays excepted. He neglects his business, rushes to the track or to some poolroom, picks out a few long shots, backs them heavily in order to double or treble his daily income and promptly loses the money previously won, and a few hundred more that he has put away for the proverbial rainy day. If he is wise, he concludes that St. Helena is good enough in the future for a free-bitten Napoleon bettor and turns his back forever on betting rings and poolrooms. If he is unwise, he too frequently happens, he continues to play the races until he has lost every dollar he has in the world and every additional dollar that he can beg, borrow or steal.

Despite the fact that money placed on a 100 to 1 shot is lost in about 99 out of 100 cases, such horses occasionally win and lose the pockets of their unsophisticated followers with the "long green." Little money ever changes hands on the win of such a horse, however, for the reason that his chance of success is so infinitesimal that even his owners do not back him. At Gravesend on Sept. 25, 1886, Grand Grange, a maiden 2-year-old owned by Gideon & Dair, won at the long odds of 50 to 1. His owners not only failed to place a dollar on him, but one of them lost \$200 on Grange, a second horse home. The win of such a horse fills the bookmakers' hearts with joy and their strong boxes with greenbacks, for the regular race track followers—the talent—never bet on long shots unless they have exclusive information that they are "good things."

If a long shot is heavily backed, the price against him falls with lightning rapidity, and he rarely goes to the post carrying enough money to allow odds to do the bookmakers any material damage if he wins. The experienced gamblers know the horses and are content to back their judgment with even money or five odds, themselves in order to see the color of the ring's money. It is only the novice who attempts to pull down \$500 with \$5, and when he succeeds it is the single success of a lifetime for him in all probability.

At Linden on Oct. 25, 1893, Sam Maher landed a race at odds ranging from 100 to 120 to 1, but he had lost so much money on few people backed his winning event and profited by his success. Last July Baroness won at Mumfords Park at 60 to 1, but her owners had so little confidence in her that they only had a few dollars' worth of Baroness tickets. In September at Guttenberg home home, backed by a few bettors at 100 to 1, came home first in good order, but the horse's win did not make any one rich.

When the old gelding Rock won a race on a Chicago track, closing odds on 100 to 1, his owner did not win a cent, and the only \$5 ticket placed on him was owned by a baggage-man who had never seen a running race in his life and who sent his money to the track by a turf follower. The baggage-man backed Rock at long odds five times, owing to a whim, and the fifth time the old gelding landed \$500 for him. It is 100 to 1, however, that the baggage-man will continue to back long shots until his \$500 fails away, carrying other hard earned dollars with them.

It is said that when John McCullough won at Roby at 100 to 1 there were but two bets on him. One was held by a head-banger who placed his last dollar on the horse for sentimental reasons, and the other wager only rewarded its maker at 20 to 1. John McCullough's owner did not have a dollar on the horse. One of the greatest plunges ever made on a long shot occurred in England in 1867. Hermit, the favorite for the Derby, broke a blood vessel a week before the event, and 100 to 1 were offered against him. His owners, Macell and Chaplin, backed him very heavily at this price and divided over \$600,000 as the result of his victory. It is said.

In October, 1883, "Father Bill" Daly's Bolero, at odds ranging from 150 to 250 to 1, captured a recent Little Rock, and "Father Bill," who had lost \$50 on the favorite and had failed to have a dollar on Bolero, kicked himself with his wooden leg all the way back to Hartford that night. Outside bets often win at from 10 to 40 to 1, but the most sensational race of the long shot variety that I remember occurred in St. Louis a year or two ago. A horse whose name I have forgotten won at odds of 30 to 1, and but one ticket was cashed on his victory.

One of the most interesting plungers and bookmakers' developers of late is Barney Schreiber, who never saw a running race until about three years ago. Barney was a

clerk in a Kansas City clothing store and drew \$12 a week. His first bet was on a caged horse from Topeka, and the experience cost Barney a third of his weekly stipend. He was not discouraged, began studying the horses, and a few lucky bets placed him \$200 ahead of the game. He left the clothing business, began his turf career as a small bookmaker and plunger, made large sums on his book, cleared \$5,000 on a 10 to 1 shot and today owns 40 race horses and a bank account of \$100,000. One of his big wins was \$12,000 on a 12 to 1 shot at Monmouth Park. One secret of his success is that he rarely makes a plunge except on his own horses.

Chris Smith, the famous plunger who owns Xo Tumbler, got his start in New York one day by betting \$50 in a poolroom. The winners all came his way, and in two weeks he had won \$12,000. Then he went into the "theatrical" business with a play called "The Sea of Ice," and it was such a frost that he lost every dollar he had. At Gloucester in 1890 he ran a 50 cent piece up to \$1,800 in a single day, but after several weeks of varying fortunes he found himself possessed of only \$30. Fickle fortune then began to smile upon him, and in a short time he saw his \$30 develop into \$30,000. Since then it has been no uncommon experience for him to be rich one day and penniless the next, but he is now credited with being worth at least \$100,000. It is said that he constantly carries \$30,000 in his inside pocket, and that he rarely makes a plunge of less than \$5,000 or \$10,000. Some of his big race horses are Jim dear, and the defeat of Melanic and Royalist at Guttenberg some time ago are said to have caused a shrinkage of \$80,000 in his finances.

Jack McDonald, the well known bookmaker and plunger, about three years ago engineered one of the biggest coups ever made on a long shot in America. He secretly bought and trained a mare he called Daisy Woodruff and entered her at Morris and 100 to 1 was the opening price against her. McDonald and his friends backed her so heavily that the price against her went out right and left, and when at the post a 10 to 1 favorite, she won the race, however, and McDonald and his friends hit the ring for a cool \$125,000.

Another daring plunger who has won and lost fortunes in a single day is Dave Johnson. Last year early in the season he won about \$40,000, but his luck turned, and it is said that he ended the year with a deficit in the game. Two other famous plungers, Pittsburg Phil and Mike Dwyer, are said to have shared the same fate.

One of the best long shot stories extant is told at the expense of a bookmaker called "Patty" Phillips, who was on his block at Hawthorne one day last year, watching the horses at the post, when the horses were away, and just as Phillips saw that House Voice was left at the post a small, timid voice below him piped, "Five on House Voice." It seemed to be such a clear case of money to burn that Phillips' fat form fairly oscillated with suppressed chuckles as he looked at the \$5 bill thrust toward him by Small Voice and cried, "Five hundred to 5 House Voice!"

The instant he heard the ticket Small Voice vanished in the crowd, and when it was announced a second later that there was a false start the fat bookmaker nearly had heart disease. He looked around for Small Voice, but Small Voice and his big ticket were out of sight. The horses went to the post again, House Voice won the race in a canter, and the fat bookmaker emitted a heart-felt groan as he saw Small Voice, a man who knew a start from a false start every day in the week, take \$505 out of his strong box.

EARLE H. EATON.

TALK OF THE TURF.

Maid S is now 20 years old. The pacer Edmund, 2:17, by Nelson, 2:50, is expected to beat his sire's record this season.

Daron Hirsch has given \$5,000 to the Turf is hospitals. Half of that sum comprised his bet winnings for 1893.

San Francisco will have a horse show Oct. 18-20.

Trainer Crit Davis thinks treadmill work is excellent training for trotters and pacers. C. W. Williams is riding 50 miles daily now and is jogging Alton and eight of his get—four 3-year-olds and four 2-year-olds.

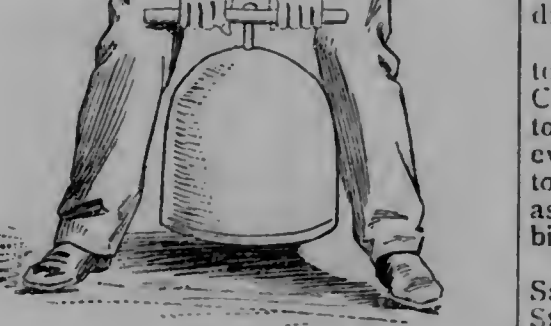

Domino is the favorite for the American Derby at odds of 8 to 1. Senator Grady and Dubbins are favored next at 10 to 1.

Wild Man From Boronia is the name of the English steeple chaser that was third in the recent Liverpool grand national steeple chase.

Strong Man Charles Nordstrom. A strong man is needed to carry around such a name as Charles Oscar Julius Nordstrom, but Nordstrom, the strong giant of Brooklyn, not only manages the task with ease, but even lifts 1,300 pounds without being compelled previously to discard his name. He recently attracted considerable attention by accepting the offer made by J. W. Kennedy in a Brooklyn theater to give \$500 to any man in the audience who could lift The Police Gazette's 1,300 pound dumb-bell.

Charles O. J. Nordstrom. Nordstrom picked up the 1,300 pounds with ease, but the \$500 proved to be no pocket money. Kennedy had a string tied to it and pulled the roll of bills out of sight the moment his unexpected rival equalled his feat. Nordstrom has sued for the money, and justice in the form of a severe fall has overtaken Kennedy.

Exactly how much Nordstrom can lift is not known, but at a public exhibition in Brooklyn, three weeks after he surprised Kennedy and his faithful roll of bills, Nordstrom easily picked up a dumb bell that weighed 1,500 pounds. The world's record for weight lifting with the hands alone is held by C. G. Jefferson, who made the unparalleled lift of 1,571½ pounds at Clinton, Mass., Dec. 10, 1890.

CHARLES O. J. NORDSTROM.

LITERARY GOSSIP.

The womanly side of Queen Victoria is pictured exceedingly well—and appropriately, too, in this month of her seventy-fifth birthday—in an article on "The Womanly Side of Victoria," which Arthur Warren contributes to the May issue of the Ladies Home Journal. Among the pictures in the article, those showing the queen at breakfast and in her pony carriage, are interesting and new. Frank R. Stockton gives two more of Pomona's characteristic letters, showing the heroine of "Rudder Grange" in various adventures in her quest for a social boom among the English aristocracy. Mr. Howells' literary biography under the title of "My Literary Passions" holds the interest surprisingly well. The editor questions whether all this clamor about this being "woman's century" is wise.

The biography of the number consists of sketches, with portraits, of Mrs. Edward Everett Hale, the wife of the famous preacher-author, and of Miss Nancy Bailey, the energetic woman doer of England. Mrs. Burton Kingsland takes up the education and religious development of "A Daughter at Sixty," an Alice Morse Earle, the author of "China Collecting in America," gives a delightful humorous account of her attempts to secure "The Delft Alchemist," and Women everywhere are remembered in Miss Hadley's "Needle Hinton for Polished Tablets." "The Silks of the Summer" and "The Art of Traveling," by Mrs. Mallon; "Materials for Summer Gowns," by Emma M. Hooper, and "Still Life in Oil Painting," by Mrs. Haywood, are among the contributions to Miss Scovill's "Children and the Sabbath," and housekeepers will welcome the page devoted to "The Strawberry and the Art of Traveling."

Altogether this May issue is singularly attractive and worth many times its modest price of 10 cents. Published by the Curtis Publishing Company of Philadelphia, for 10 cents per number and \$1 per year.

Charles F. Morris, whose books and magazine articles have given him rank among the historians and observers of modern life in the Southwest, has recently come out of the wilderness and settled in Los Angeles, and he intends to devote some months to writing up the literary material he has accumulated. He will produce magazine articles and books like "The Secret Work in Mexico," and he will write fiction. The first fruit in this latter line by the way is a story printed in the Argonaut of April 23, "The Penitente Flower-Pot," and is a good story well told.

In addition to a review of the Cleveland administration by ex-Governor Russell, (Editor of Massachusetts, and Senator Cullum, (Rep.) of Illinois, the May Forum contains a discussion of unusual omissions and point at a time when "armies of tramps are marching towards Washington"—of the question whether the state should give aid to the unemployed, by Dr. Stanton Coit, of New York, who favors state aid, and by Dr. McGregor Means, who argues that state aid means socialism.

A great Grant number, in token of Gen. Grant's birthday, April 27, describes in a word the life of the great soldier, statesman and statesman, a member of Grant's staff, his assistant secretary of war, and during the first term of his presidency, his private secretary, writes of his personal traits, particularly of his truth, courage, modesty, generosity, and loyalty. An interview with Col. Frederick D. Grant tells the impressions of the son who was Gen. Grant's daily companion in the field through a good part of the war, and who lived 20 years near him to the end of his days. Gen. O. O. Howard and Gen. Ely S. Parker supply some reminiscences, and an autograph letter written by Gen. Grant to the great statesman, in 1865, gives a most interesting glimpse into Grant's life and character. Finally, under the apt title of "Gen. Grant's Greatest Year," by C. C. Crawford, tells the story of the noble and heroic last year of Grant's life.

Scattered through these articles and among up also the department of "Human Document," which contains the most notable feature of the number is an article on "The Beats and Their Keepers," by Cleveland Moffett, with illustrations by J. Hambridge. In the preparation of this article the author and the artist practically lived for upwards of a month in the largest collection of trained animals in existence. An intimate study of the daily life of Flammarion the astronomer, by H. H. Shedd, with pictures of his observatory and his Paris home, an illustrated story of the New South by Mary T. Earle, and one of Old California by Bret Harte; and a fourth installment of Stevenson and Osbourne's serial, "The Ebb Tide," add a further interest and value to the number.

Cheap Rates to California.

The Northern Pacific Railroad company has put into effect a series of low round trip rates to California points. Tickets are good until July 15th, 1894, and are good for stop-over under certain conditions.

These rates will enable those desiring to do so, to spend the winter in Southern California, or to visit the Midwinter fair to be held at San Francisco. This latter event will undoubtedly be second only to the World's fair, and will repay a visit as it will exhibit the resources and capabilities of California.

St. Paul, Minneapolis and Duluth to San Francisco, returning via Portland to St. Paul, or returning to Missouri river, \$25.50. For further information apply to Charles S. Fee, G. P. and T. A., St. Paul, Minn.

Jeannie Winston in Part X.

Mrs. D. P. Bowers in Part X.

You are not barred because you have procrastinated. If you have not begun to take "The Marie Burroughs Art Portfolio of Stage Celebrities" you can still get this beautiful and artistic production. It costs just ten cents per part to readers of The Evening Herald with three coupons. Twenty elegant portraits in two colors, each part to appropriate biographical sketches.

PRINCETON AND PENNSYLVANIA.

Personnel of Two of the Crack College Baseball Teams This Year.

The Princeton college baseball nine this year is captained by C. S. Mackenzie, who is not only a very clever baseball and football player, but a careful, conscientious student. He made a brilliant record on his freshman nine and was on the varsity team during his second year in college. He is an excellent left fielder and has perfect

C. S. MACKENZIE, Princeton.

control over his men. The veteran Phil King is a second base, Trenchard plays well in center field, Brooks is a model shortstop, and in All-

man, Bradley, Forth and Hiltner. Princeton has an array of pitching talent which is very formidable. Williams does well as catcher, Otto is a clever first base-

man, and Bradley and Wind cover right field and third base in good style. Altogether the team is the best that has represented "Old Nassau" since 1891.

The University of Pennsylvania team is playing good ball this year. In a recent game with the Philadelphia League club the varsity boys won handily by a score of 12 to 8. The Pennsylvania players, Dickson and Schoenheit, did very creditable work and held the League men down to

deficits. The team is captained by Charles Hollister, a medical student. He played third base last year, but is now at shortstop. He is an extremely hard and safe

player, and is a steady fielder. Coogan is catcher, Thomas, Reese and Blair in the outfield and Contrell, Goeckle and Blakely on the bases all do very good work.

GREENROOM GOSSIP.

Charming Annie Russell, the elder sister of the erstwhile infant prodigy, Tommy Russell, will return to the stage next season as a member of Charles Frohman's stock company. Miss Russell has been an invalid for several years.

"Cluquette," a new comic opera by two Germans, will be produced shortly at the Bijou theater, New York city. Louise Beaudet will be the star.

It is rumored that Eugene Cowles, the famous basso of the Bostonians, is anxious to secure a light opera with a suitable star role for himself.

C. T. Dazey has written the libretto and Oscar Weil has composed the music of an opera which the Bostonians may produce at the beginning of their next season in New York.

There will be more summer opera companies this year than ever before in the history of the American stage.

Mme. Melba will attempt a concert tour of this country next year under the management of Abbey Stoddard & Co.

The newspaper attacks made upon Adeline Patti since she sailed for Europe are nothing short of sensational. It is not impossible that the real Adeline of these articles may be given to the world before long, in which case there will be some mighty spicy and surprising reading.

When M. B. Curtis decided to return to the stage a short time ago, it was one of the most talked of decisions which would "fit him from the ground up," but he decided to stick to "Sam of Posen," in which he had made a fortune.

The Patrol Judge Scheme at Roby. A new system of receiving information from patrol judges is to be instituted at the Roby track, near Chicago. At various positions along the course patrol boxes are to be erected much the same as the police patrol stations in the cities, says The Horseman. Each box will be provided with telephones, communication with which will be direct to the judges' stand. Each box will be large enough to contain the patrol judge, his notes, and a small table on which to place a telephone. The scheme will be a great improvement in the management of a race track.

Remarkable Cross Country Running. The most sensational championship in the history of Irish cross country sport took place over the Clonsilla course, near Dublin, recently and resulted in a tie between the two leading teams. Another unique feature of the five mile contest was that the first 10 men broke the last break the previous best record of 34 minutes 55 seconds, made by Champion Frank Nunn over Baldoy course in 1884. J. J. Mullen, Elysian harrier, was the hero of the race. He homed to the front when the pistol cracked, and drawing away at every stride reeled off the six accurately surveyed miles in 32 minutes 49.15 seconds. His team against the two leading teams. Another unique feature of the five mile contest was that the first 10 men broke the last break the previous best record of 34 minutes 55 seconds, made by Champion Frank Nunn over Baldoy course in 1884. J. J. Mullen, Elysian harrier, was the hero of the race. CATE & CLARKE,

333 WEST SUPERIOR STREET

SHERIFF DEFIED.

The Coxeyites Who Seized a Baltimore & Ohio Train Refused to Leave it, When Ordered.

Galvin, Their Leader, Advised Them to Obey the Order of the Sheriff of Madison County.

The Men Declined and the Sheriff Made a Demand for Aid from the Military.

Governor McKinley Ordered Out the Columbus Troops and They Started With Two Gatling Guns.

COLUMBUS, O., April 28.—Governor McKinley has ordered Battery H, of this city, Capt. Frank T. Stewart, to report at its armory, preparatory to going to Mount Sterling if necessary, to clear a Baltimore & Ohio railway freight train of Galvin's contingent of Coxey men.

As soon as the news was received in this city, a special engine in charge of Deputy United States Marshal Coleman was sent to Troutdale to bring the railway officials to this city.

These are all Columbus companies and, with the battery, will number about 150 men, some of the members being out of town and so scattered as not to be available today. Col. Coit himself was at Chillicothe but hastened home.

The governor's action is based on the fact that S. P. Peabody, general agent, and Superintendent Graham, of the Baltimore & Ohio railway, said they had not been able to get a freight train through Mount Sterling for two days, and that the sheriff of Madison county had with one company of the Fourteenth regiment right in Mount Sterling and at his disposal under the law had refused to allow the train to pass.

John Mahoney, a Columbus police officer, and as a representative of the state, a very determined man, is at the head of the party, and it is supposed the show of military is being made so as to enable Mahoney to induce the men to leave the train without the use of force. If this does not work the military will go to the scene.

Adj. Gen. Howe is there in citizens' clothes and his uniform has been sent to him. A company of the Fourteenth at Delaware has been notified to hold itself in readiness. The opinion prevails here that if the sheriff of Madison county has shown a little nerve, there would not have been any occasion to use troops from other places.

Galvin's men are quiet but are still holding the train. A special to the Dispatch says the excitement is intense but calm. Every nerve is strung to a high tension awaiting the arrival of the national guard. Attorney General Richards of the state is there with Adj. Gen. Howe. John Mahoney offered to make attempt to drive the men from the train with his thirty special officials but was advised by the attorney general not to use force or shoot. The attorney general said the military alone should do the shooting, if shooting was necessary.

The train of soldiers at 11:25 a. m. pulled out for Mount Sterling, two Gatling guns were on the rear car. Six cars contained soldiers. The other was for baggage.

It was a surprise, says a special to the Dispatch, to the Galvin army at 1:30 this morning when Detective John Mahoney and his men asked them to vacate the train. When the attorney general's commission, showing that he represented the governor, who had given him special power in accordance with law, the Coxeyites laughed at him. They refused to hear the commission read. They met all demands in the name of the state with boots and jeers.

Mahoney wired these facts to the governor, and said that unless instructed otherwise he would proceed to put the men off the train by force at day break. He was told to do nothing, and at 5 a. m. Adj. Gen. Howe and Attorney General Richards arrived at the train. After conference with them Scott Chenoweth, sheriff of Madison county, ordered the men off the train. The order was kindly made. Galvin said he had no control over the men and was powerless to do anything.

The sheriff and the state officers walked along each car and ordered the men on each to leave the train. This having been done Attorney General Richards addressed the men, saying that Chenoweth was sheriff of the county and the power of the state was behind him. If you refuse to obey his command to get off this train the state of Ohio will compel you to do so.

COMPLETE TIIEUP

No Trains, Either Freight or Passenger, Are Moving on the Great Northern Road Today.

President Hill Claims to Have Plenty of Men Ready to Work and Preparing a Train.

Engineers, Firemen, Conductors and Brakemen at Spokane Ready to Go to Work When Called.

Eastern Minnesota Employees at Superior Quit and No Trains on That Road Are Running.

ST. PAUL, April 28.—The Great Northern strike situation today was one of quiet watchfulness on the part of both sides so far as appearances indicated. It is probable that much was being quietly done by the company, but there was no sign of it. No trains, either freight or passenger, were being moved in either of these cities, and so far as heard none were moving along the line to the coast. It is a complete tie-up of the 4495 miles of track in half a dozen states.

The other roads in this city who use the Great Northern tracks for terminals, were allowed to switch with their own train crews, but no regular switchmen were at work and business was somewhat delayed on that account. The men avowed themselves as intending no violence and seemed doing all in their power to keep the roads from injuring the company's property.

The Brotherhood men have apparently not joined the strike actively further than to refuse to work without regular switchmen. President Hill has claimed to have plenty of men ready to work, but no trains went out early today. He said today that he would make no move until he was ready to start a train through to the coast and that he was preparing for that time.

President Hill today received a telegram from Superintendent J. D. Farrell, of Spokane, saying: "All your engineers, firemen, conductors and brakemen here are ready to go to work when you call on them." Mr. Hill says he has more than enough men to go to work.

The engines for branch line trains were standing in the depot yards today waiting to be attached as soon as the trains had been backed down. They had been brought out of the round house within an hour of the strike, and by old engineers and firemen in the Great Northern service. The cars, however, were not there and there absence was explained by the fact that nobody would handle the switch engines to move them from the yards.

In the yards there was no appearance of unusual activity. The men were regular switchmen were on hand ready to work, but as there were no yard engine crews they had nothing to do. It was impossible to ascertain how long this state of inactivity might continue. Mr. Hill is, however, busily engaged completing his plans to operate the road.

PROCEEDINGS IN MONTANA.

Suit to Compel the Road to Operate Its Lines.

HELENA, Mont., April 28.—Proceedings were begun in the supreme court yesterday on behalf of the attorney general to compel the Great Northern to operate its line in Montana. A petition was filed which recites that on April 13, in violation of its duty to the people of this state, and in disregard of its obligations assumed in the acceptance of its franchise, it wholly ceased to operate any of its lines within the state and still refuses to do so.

These proceedings will be followed by an application to have the charter of the road within the state forfeited on account of the failure to operate the line. The court has taken the application under consideration.

Eastern Minnesota Tied Up.
SUPERIOR, Wis., April 28.—All employees on the Eastern Minnesota have gone out in sympathy with the Great Northern strikers and the immense yards are as quiet as on Sunday. It is rumored that four handlers at the docks will strike, but this is not believed as the men are receiving good wages and have been idle so long. No trains have been started.

The New York & New England.
NEW YORK, April 28.—The plan of reorganization adopted by the board of directors of the New York & New England submitted for approval of security-holders provides for a new company which is to issue \$17,500,000 of 5 per cent, 30-year gold bonds; \$5,000,000 of 5 per cent, non-cumulative preferred stock, and \$20,000,000 of common stock.

Smelter to Be Rebuilt.
DENVER, April 28.—The directors of the Boston & Colorado Smelting company have decided to rebuild at once the smelter recently burned at Butte, Mont. The plant will have a capacity to treat 150 tons of ore daily.

Slashed by a Beggar.
PARIS, April 28.—A dash to the Siecle from Vienna says that a beggar attacked the head of the Rothschilds' branch banking house in that city, stabbing the banker in the face while he was walking through the streets.

Professor Kelly Ill.
CHICAGO, April 28.—Julian S. Kelly, for nearly thirty years professor of mathematics in the Northwestern university, is seriously ill at his home in Evanston.

A Life Sentence.
LITTLE FALLS, Minn., April 28.—John Weller, convicted of murdering Albert Kosanke on Dec. 1, was sentenced today to life imprisonment.

LIMIT REACHED.

The Government Officials Have Decided That Lawless Mobs in the West Must Be Crushed.

No Mob Will Be Permitted to Interfere With the Movement of the Mail Trains.

United States Troops Will Be Used to Repress Lawless Acts of the Coxey Contingents.

They Will Feel the Power of the Government in a Way They May Not Relish.

WASHINGTON, April 28.—Government officials today received a number of telegrams from United States court officials and others in the Northwest of a very disquieting, if not alarming nature. Lawless bands of Coxeyites are concentrating at different points along the Union Pacific road in Oregon and trouble seems to be imminent. One lawless mob captured a train near Portland, and as Governor Penney, on appeal of the officials of the road, has declined to interfere, application has been made for government troops to assist in maintaining the peace and in the execution of federal processes.

In North Dakota, a similar condition exists and a report from Devils Lake states that the strikers refuse to allow trains carrying the United States mails to move. Altogether the situation in the Northwest is becoming serious and to meet it the government will use every means within its power.

It is stated no mob of any kind or character will be permitted to interfere with the movement of the mail trains if the military forces of the government are able to prevent it; and further, that United States troops will assist in serving all the processes issued from United States courts in the disturbed districts against the unlawful and irresponsible acts of so-called "Coxey contingents."

The government is in earnest in this matter, and if these lawless acts continue those engaged in them will be made to feel the power of the government in a way they may not expect or relish. It seems to be the general opinion throughout the West that the element of Coxey's "Commonwealth of Christ" demonstration to commit depredations on public and private property, and that in consequence they are fast losing or have lost all of the sympathy of the respectable element of society everywhere.

These acts, it is believed, will rapidly disrupt the whole movement and bring to disgrace and shame upon any honest people who, through mistaken zeal in the cause of labor, may have joined the so-called crusade.

Gen. Schofield this afternoon sent orders to Col. Swaine, at St. Paul, in command of the department of the Dakotas, and Gen. Otis, at Vancouver, B. C., in command of the department of the Columbia, to use the troops under their command upon the application of the United States marshals in the states along the line of the Northern Pacific railroad in executing the processes of the United States courts.

Special orders have been sent forward to recapture the train seized at Troutdale by the tramps and now on its way East. The war department has settled the question of the disposition of the prisoners taken at Forsyth, Mont., by giving directions to the military authorities to transfer them to Helena, Mont., where they may be dealt with by the civil authorities, the prisoners to be kept under military espionage until the courts shall have disposed of their cases.

KELLY'S ARMY PROGRESSING.

Began Its Forced March to Des Moines in Good Order.

STUART, Iowa, April 28.—Kelly's industrial army began its forced march to Des Moines today under smiling skies and with the solid column singing its "war" songs and eager for the tramp. The Sacramento malcontent who had straggled in during the night, having tired of their temporary desertion, and 1251 men lined up for roll call and tramped down the green hillside when Kelly turned his charge towards Des Moines.

The citizens of Stuart were liberal in their contributions of food and forty-one teams were furnished for the transportation of the men. The army was in better humor than at any time since the mutiny of Company "C."

One Indian Flunked.
ALBUQUERQUE, N. M., April 28.—Three Navajo Indians confined in the county jail here on the charge of murdering D. M. Smith, at Defiance station, have attempted suicide. The Indians ascended to the top of a cage, jumping off head-first, one of them breaking his neck and the other fracturing his skull. The third concluded not to make the attempt when he saw the plight of his companions.

Murdered in Mexico.
HERMOSILLO, Mex., April 28.—Information has been received here of the murder of Charles F. Berry, a prominent member of the colony of Americans who dissented from the Topolobampo colonists and established themselves in the Yaqui valley, in the state of Sonora. Mr. Berry was on his way to Fuerte when he was assassinated and robbed. The perpetrators of the deed have not yet been captured.

Sentenced to Death.
PARIS, April 28.—Henri, the bomb thrower, was found guilty and sentenced to death.

Hanged in Effigy.
CRIPPLE CREEK, Col., April 28.—Senator Wolcott has been hanged in effigy at Victoria, a mining camp in the Cripple Creek district, with the inscription on his back: "Down with plutocracy." The reason for the act was the senator's recent speech on the Coxey movement.

To Prevent a Prize Fight.
ST. PAUL, April 28.—A Hudson, Wis., special says: A prize fight between Thurber and Grimes, amateur pugilists, has been greatly advertised for Emerald, in this county, tonight. Acting under directions from the governor, the sheriff, with a posse, went to the scene today, determined to prevent the contest. The sheriff of Pierce and Dunn counties have received similar instructions.

May Be a Compromise.
PHILADELPHIA, April 28.—At the end of the first week of the great coal miner's strike but one mine is in operation in the district east of the Alleghenies, that mine being in the Phillipsburg region. The mine employs but 100 men, and it is very doubtful if the men now working in that mine will resume work on Monday. Threats are made that if they do not quit they will be visited by delegations from other mines and compelled to do so. The coal supply is rapidly exhausting itself. The miners claim that the strike can last but a few days longer. The operators in Beach Creek and Clearfield districts say that they will make no attempt to start their mines unless work is resumed in other regions, or until it is learned that orders are being taken and filled in the other districts.

A Fight With Thieves.
The City Marshal of an Iowa Town Killed and Two Other People Badly Wounded.
OMAHA, April 28.—In a fight with thieves at Missouri Valley, Iowa, this morning, the city marshal was killed and two other people were desperately wounded. For some time past burglaries and petty thieving have kept the people in a constant state of terror. The perpetrators were traps, but all attempts to arrest them had proved fruitless.

This morning the city marshal was notified that a gang of thieves was concealed in a barn on the edge of the town. The officer swore in several deputies and proceeded to the scene with the intention of capturing them. The posse surrounded the structure and demanded that the occupants surrender. Instead of doing so, however, some of the thieves opened fire on the officers.

One of the bullets pierced the breast of City Marshal Adna Whitney, killing him instantly. Peter Johnson, one of the thieves, was shot four times, once in each thigh, once in the shoulder and once through the lungs. He will die. Deputy J. E. Lyon also received a fatal wound. Thirty or forty shots were fired and then the men broke for liberty.

William Henderson, a resident of Missouri Valley, who placed the men in the trap, was believed to be a party to the crimes committed and he and his wife were arrested. One of the men who had been named Davis, a resident of Grand Island, Neb., Johnson, the wounded burglar, is from Rock Island, Ill.

WAS NOT CONSULTED.

The House Ways and Means Committee Ignorant of the Tariff Compromise in the Senate.

Senators Shaping the Bill of the Senate's Needs Without Any Thought of the House.

Bill to Change the Time for the Meeting of Congress From December to March.

WASHINGTON, April 28.—The Democratic tariff leaders of the house have not been consulted upon the tariff compromise made among the Democratic senators. Leading members of the ways and means committee do not even know the terms of the compromise. Representatives Breckinridge, of Arkansas, Montgomery, Bynum, Bryan and Turner, of the committee, made statements to this effect, and most of the other Democratic members in the committee are out of town. Representative Montgomery conversed yesterday with the tariff senators, but could not learn any formal compromise had been reached.

A leading member of the ways and means committee said that the lack of information among the house leaders showed that the senators were shaping their bill to the needs of the senate without reference to the standing it might have in the house. From this it is concluded that the senators will pass their bill in their own way and then depend on a conference committee to protect the changes they have made from further alteration by the house.

Representative Crain, of Texas, has introduced in a modified form his bill changing the time for the meeting of congress from December to the first Tuesday after the fourth of March succeeding the congressional elections. Instead of having the new congress meet thirteen months after its election, as under the present law, it would meet five months after, in the succeeding spring. According to Mr. Crain, the bill would bring the new congress together fresh from the people with election pledges undiminished and election ardor uncooled. The bill makes provision for a session of congress on Feb. 3, succeeding each presidential election for the purpose of counting the electoral vote, but for the transaction of no other business. This provision Mr. Crain regards as very important, the idea being to provide against the enactment of laws by a congress perhaps just repudiated at the ballot-box.

Mr. Crain's bill specifically denies to the members mileage and stationery accounts for the extra session to count the electoral vote. Twenty cents a mile for the regular session, Mr. Crain regards as ample to cover any extra expense to which members may be put in attending this special session.

The first data on conjugal life in the United States ever gathered by the government is given in a census bulletin today. It shows that of a total population of 62,662,550 in 1890, almost three-fifths were single—a little more than one-third were married and not quite one-twentieth were widowed. The divorces constituted a small fraction of 1 per cent. The actual numbers of the classes are as follows:

Single, 37,129,564; married, 25,331,424; widowed, 2,070,952; divorced, 120,996; and unknown, 79,214. The males represented over 51 per cent of the total population. Of 32,067,880 males in the population, 16,915,576 were single and 11,233,228 married, 515,137 widowed, and 40,101 divorced. Of the females: 17,183,088 were single; 11,126,196 married; 2,551,615 widowed and 71,805 divorced. The proportion of widows says the report, was nearly three times as great as of widowers, indicating that a greater portion of widowers re-married than widows, while figures show that divorced men have re-married to greater extent than divorced women.

Of the married males there were 23 out of 11,200,000 under 15 years of age; 585,748 out of 3,104,893 between 20 and 24 years; 1,728,030 out of 2,425,664 between 25 and 34 years and 860,925 out of 1,233,719 35 years and over. Of married females there were 141 out of 10,952,192 under 15 years;

ONE ENJOYS
Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, head-aches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 50c and \$1 bottles with all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.

CALIFORNIA FIG SYRUP CO.
SAN FRANCISCO, CAL.
LOUISVILLE, KY. NEW YORK, N.Y.

313,983 out of 3,308,852 from 15 to 19 years; 1,444,712 out of 3,091,783 from 20 to 24 years; 1,805,064 out of 2,520,466 from 25 to 29 years; 1,717,204 out of 2,452,066 from 30 to 34 years; 2,368,266 out of 3,346,031 from 35 to 44 years; 1,796,979 out of 2,430,878 from 45 to 54 years; 905,627 out of 1,499,097 from 55 to 64 years and 418,309 out of 1,183,509 65 years and over.

IN A CRITICAL CONDITION.

Two Men Seriously Injured by Lightning Striking a Barn.

ST. PAUL, April 28.—A Fairfax, Minn., special to the Dispatch says John T. Maxwell's large barn, four miles south, was struck by lightning yesterday and completely burned, with two horses and five head of cattle.

Mr. Maxwell, while trying to save his horses, was kicked in the spine. His hired man, who was in the stable at the time, was struck by lightning. Both men are in a critical condition. Loss, \$1500.

Mexican Bandit Captured.

SANTA FE, N. M., April 28.—Sheriff Cunningham and Deputy Sheriff Page, of Otero, have just returned from a chase of 1000 miles after Daniel Linseros, bringing their man with them. Linseros is accused of being implicated in the hanging of a man named Maes, two years ago. He was followed to Tucson, Ariz., thence through Eastern Arizona to Lake Valley, Sierra county, thence to Hillsboro and the interior.

Counterfeiters Caught.

KANSAS CITY, April 28.—Robert Salmons, of Dallas, Tex., and James Howard, of Butte, Mont., who have been "shoving the queer" in this city for some weeks past were run down and arrested by Treasury Agent W. J. Burns yesterday. The counterfeiters' lodgings were raided and a lot of metal and plaster of paris molds were seized. They are believed to be the same gang that operated in St. Joseph about a month ago.

Speech by Mr. Towne.

CHICAGO, April 28.—The Marquette club did honor to the memory of U. S. Grant by a banquet at the Grand Pacific hotel last night. Over 300 members of the club and their friends sat down. Among the speakers was Charles A. Towne, of Duluth, who spoke on "Broken Promises." He dealt with the difference between the performances and the arguments of the Democratic party. Although the club is a Republican organization, this was the only speech of a party nature.

A Long Tramp.

NEW YORK, April 28.—The World's Panama dispatch says: Behman, a man who came from Argentina walking to Chicago arrived here yesterday. He came through the wilds of the Isthmus of Darien, and while footsore, his determination to persevere is invincible. His passports have been vied by the authorities of the places he has passed through. He tells a great story.

Blocked by the Sheriff.

OMAHA, Neb., April 28.—In an attempt to force collection of a judgment of \$900 for personal injury against the street railway company, two of the principal street lines were blocked in the center of the city for two hours by the sheriff, who levied on the trains as fast as they came up to a junction point.

A Saloon Destroyed.

LOGANSPORT, Ind., April 28.—Bert Willis' notorious saloon, which has been the cause of several sensational incidents at Burlington, was literally wiped out of existence last night by mob violence. A crowd of 100 men battered in the front doors, emptied the liquors into the gutter and burned the furniture.

Engineer Holly Dying.

LOCKPORT, N. Y., April 28.—Birdsell Holly, the famous inventor and engineer, has been slowly sinking for the past two weeks and is now dying. He is 72 years of age. He is the inventor of the Holly system, and is an engineer consulted by leaders of the engineering feats in this country and Europe.

Big Whist Match.

CHICAGO, April 28.—The biggest match game of whist ever played in the world will be played in the Masonic Temple tonight, between the Chicago Whist club and all the rest of Illinois. The challenge was issued by the Chicago club.

Hanged Himself to a Tree.

INDIANOLA, Iowa, April 28.—The dead body of Tom D. Moon, of Wymore, Neb., has been found in a gully four miles east of this town. Moon had recently parted from his wife. He hanged himself to a tree.

A Whole Block Burned.

NEWCASTLE, Ind., April 28.—Yesterday afternoon a fire started at Belleisle, from an unknown cause, fourteen miles from here, and burned an entire block of eleven houses, three stores, three offices. Loss \$50,000, partially insured.

Big Offer for Clifford.

NASHVILLE, Tenn., April 28.—Messrs. Leigh and Rice yesterday afternoon received a telegraphic offer of \$50,000 for Clifford from J. H. Keene & Co., of New York. The offer was declined, in view of Clifford's good chances for the Brooklyn handicap.

Census Employees Dismissed.

WASHINGTON, April 28.—The dismissal of forty-seven employees of the census office took effect today, the changes being ordered a week ago. The manufacturing division with a roll of several hundred desks will probably be abolished during the month.

Moore Knocked Out.

MINNEAPOLIS, April 28.—Dan Creedon, of Australia, and Dick Moore fought here last night for the middleweight championship. Moore was knocked out in the tenth round after making a game fight.

Margaret Mather in Part N.

Alexander Salvini in Part N.

NEAR TO THE CAPITOL.

The Long Tramp of the Commonweal Army Under Coxe's Lead is Approaching the End.

On Sunday it Will Be Moved to Brightwood Park on the Edge of Washington.

The Men Are Suffering For Sufficient Food and Making a Kick Against Coxe's Methods.

GAITHERSBURG, Md., April 28.—The army of Commonwealers slept last night with little shelter and awoke damp with dew. Their breakfast was of hard tack and coffee. The march from Frederick thus far has been through hamlets only, and the contributions have been meager. Thus, since Thursday, the men who follow Coxe have eaten naught save hard crackers and had nothing to drink but coffee. The army is feeling the stress of low diet. Their spirits decline with their physical deflection and the result has been growing about the food and all sorts of rumors of strike and desertion.

These conditions prevail, too, at just the time when Mr. Coxe might least desire they should. The long tramp is about ended and with its completion many in the army will feel absolved in some sense from allegiance to the movement. Thus Coxe will have difficulty in keeping his following together as an object lesson before congress. Maintenance for these men all summer is the grave question which now confronts Coxe.

The men are also considering the question and soon they will demand of Coxe some assurance of richer nourishment than they have enjoyed recently. On this point the Associated Press correspondent today questioned the leader of the movement. "It just amounts to this," said Mr. Coxe. "We depend upon the public at large to support this movement."

"By that you mean support for your Commonwealers?"

"Certainly I do. If the enterprise is not maintained by the people in whose interest it is, then it must fail, but we believe and rely without doubt upon the public support."

"Can you personally afford to maintain these men through the summer or for any extended period?"

"Indeed, I cannot," replied Coxe, who then, after a short pause, added: "The fact is that I have sought not to appear as paying the expenses of this journey, and I have said as little as possible about what I have paid. I will state, however, that I paid all the outfitting of this expedition up to the point where it was presented. The contributions along the line until after Pittsburgh was passed, were quite ample, but since then I have been obliged to pay the expenses most of the time. At Frederick we got plenty to eat and there was no expense."

"Your men propose, it is said, to demand some share of the gate money charged the public for admission into the camp—what will you say to that?"

"Say, what will I say?" exclaimed Coxe. "I will say that the money received has been used to maintain them. I handle it, of course, but it goes for the support of the men."

"This matter has been carefully considered and within two or three days a proclamation will be issued, addressed to the American people, presenting the situation and calling for help from the American people to maintain and prosecute the campaign. We intend not to stop insistence upon action by congress in behalf of the unemployed when once we have reached Washington."

The leader of this enterprise expects surely to go to Washington with his men and to go to the capital steps. He regards any talk of interference as absurd. After a shave, Chief Coxe and Marshal Browne started in Coxe's phaeton behind his black team for Rockville. Their plan was to secure, if possible, the exclusive use of the fair grounds for the Coxe camp.

The Coxe army is to be moved on Sunday morning to Brightwood Park, on the edge of Washington, and in this movement there is a purpose born of financial consideration. Coxe's reasoning is that a big crowd will come out from Washington on Sunday to see the army. His plan is to set the canvas about the tent and charge 25 cents admission to spectators, the receipts to go toward the support of the camp.

In the absence of the chief and Carl Browne, Coxe's son Jesse is in command of the army. The youth marshaled about 250 men and took up the short day's journey of five miles to Rockville. The morning was cool, bright and clear, the rain of last evening having laid the dust without creating mud.

Directum Leased.

SAN FRANCISCO, April 28.—Directum, the king of trotting stallions, has been leased by its owner, John Green, of Dublin, Alameda county, Cal., to C. C. McEwen, a wealthy wine grower of Mission, San Jose, for a term of one year. Orrin Hickok, the veteran driver, has been engaged to handle the black stallion for the East campaign and will soon start with him for Terre Haute.

Resignation of a Judge.

SAN FRANCISCO, April 28.—Judge Van R. Patterson, of the state supreme court, has tendered his resignation to Governor Markham and has formed a law partnership in San Francisco with Patterson's action leaves three vacancies on the state supreme bench to be filled at the next general election.

Killed by Lightning.

CHICAGO, April 28.—During a thunder storm last night Frederick Bras and Joseph Pringle were killed by lightning and two other lumber shovers were badly injured.

A "Pug" Arrested.

CHICAGO, April 28.—Lew McGregor, otherwise known as the "St. Joe Kid," was arrested last night on a charge of carrying a dangerous weapon. The police claim that McGregor has been living in Chicago for some time without visible means of support and that they wanted to discourage idleness.

BRIGHT'S DISEASE OF KIDNEYS.

One of the Disguised Forms of Chronic Catarrh.

J. Brake, Petrolia, Ont., writes: "Four years ago I had a severe attack of Bright's disease, which brought me so low my doctor said that nothing more could be done for me. When one of your lectures on the above disease was read to me I took Pe-ru-na and Mananin, and found it acted just as represented. In three months I was a well man and have continued well ever since."

Symptoms—Dull pain in the back; scanty, high-colored urine, containing albumen and various sediments; nausea and sometimes vomiting; puffiness of the face and feet; dropsy of the legs; shortness of breath and general weakness; pallor and dryness of the skin; chills, feelings, alternating with fever and sleeplessness.

Treatment—A tablespoonful of Pe-ru-na should be taken before each meal, between meals, and at bedtime, and enough Mananin at night to produce one natural action of the bowels each day. When the disease is of long standing heated Pe-ru-na should be applied to the back in addition to the above treatment, and diet consist principally of milk and dry toast. Avoid liquors and tobacco.

Send for free copy of Family Physician No. 2. Address the Pe-ru-na Drug Manufacturing company, Columbus, O.

DALLIES OF THE ST. LOUIS.

The River Very High at Fond du Lac and the Daxies Imposing.

FOND DU LAC, April 28.—(Special to The Herald.)—The river has been very high for the past two weeks, reaching nearly the high water mark of six years ago. Several families on Second street were obliged to move out of their houses, the water being quite deep on the floor.

The brown stone quarry of Crowley & Davis started two weeks ago with a crew of thirty men. Krouse & Hulett have also begun work and are filling a large order of rubble for the Northern Pacific Railroad company.

The Indians killed large numbers of musquash during the high water. They could not reach their holes and were found floating about on logs, pieces of boards, etc. The fur is worth 10 or 12 cents each.

Mrs. Clendenen, of Harris, Wis., is visiting her mother, Mrs. D. L. Bishop.

The Misses Hendrickson, Olson and Derfee, of Midway, spent Wednesday and Thursday with Mrs. B. F. Bishop.

A large party from New Duluth were viewing the Daxies last Sunday.

A party from Fond du Lac, among them Mr. and Mrs. W. H. Hollenbeck, Miss Durfee, S. W. Ruger, and others, walked up to the falls at No. 5 bridge Sunday, where the Daxies are seen in all their wild grandeur and beauty.

Mrs. Melrose, Miss Anna Smith, of New Duluth, Miss Christina Holm, of this place, and a number of gentlemen went around the loop, so to speak, having gone to Thomson via the new line and walked from there on the old line along the Daxies to Fond du Lac, Thursday. They reported a delightful trip amid scenes of inspiring grandeur.

A Universal Cry.

Oh, wad some power
To see our creditors
Before they see us.

A Japanese Student

Health in Danger From Overstudy—Great Health From Hood's Sarsaparilla.

Hood's Sarsaparilla has benefited people of all nationalities. Testimonial letters are coming to us daily by the hundreds. One of the recent contributions comes from Mr. Shiro Kuroda of Japan, a student at the Massachusetts Agricultural College at Amherst. His letter follows: "Massachusetts Agricultural College, Amherst, Mass."

"Gentlemen, I came to America in 1891 and entered college in the following fall. After the thorough attainment of my education, my object is to return to my native country. But I must not discuss my personal affairs. I wish to

Recommend to the Public

the wonderful healing power of Hood's Sarsaparilla, which is peculiar to itself.

"I have been suffering greatly from dyspepsia. I always felt tired and had no appetite whatever, often felt dizzy and even fainted away. My trouble was, no doubt, due to my weak constitution and strict adherence to study. But I continued in the same condition. It would have resulted in a state of my health, or to my college course at least. Last spring I took three bottles of Hood's Sarsaparilla. It is

A Wonderful Medicine.

It gave me a good appetite and strength, such as I had never experienced before. Two weeks after I began to take the first bottle I actually gained ten pounds of flesh, and now I am greatly indebted to Hood's Sarsaparilla for that.

Hood's Sarsaparilla Cures

clearness of my head which enables me to study for hours without dizziness or faintness. It is my desire to recommend Hood's Sarsaparilla most highly, as a successful study helper. SHIRO KURODA, M. A. C., Amherst, Mass.

Hood's Pills cure Constipation by restoring the peristaltic action of the alimentary canal.

FULLY GRATIFIED.

Mr. J. J. O'Brien, a Member of Duluth's Fire Department Gives Expression of His Gratitude.

He Tells of How the Copeland Physicians Cured Him of Skin Disease From Which He Suffered for Many Years.

It was a small expenditure and it went for a good cause and in the proper direction. Five dollars for the complete cure of a skin disease that was of seven years' duration. Isn't that reasonable enough? Recently a gentleman stepped into the Copeland Medical Institute in the Lyceum building and said: "Doctor, I see quite a number of testimonials in the papers from people that you have cured. I want to do a good turn to somebody and I want to add my testimony to the list. I know there are lots of people that suffer as I did and I want them to be cured as I was." When questioned further he said: "I suffered from a skin disease of the upper lip for over seven years, during which time I had it treated almost constantly by various physicians, but nothing seemed to meet the case. My lip was greatly swollen and covered with an eruption that would itch and burn by turns, making it a source of great annoyance. I was never wholly insensible of it, either night or day. The roots of the hair would come disengaged and the hair would die and fall out. I was in a great distress of mind because I was afraid it would run into a cancer. But those fears have since left for my lip is all healed over and my mustache has come out bright and fresh as ever. After using the treatment two weeks the eruptions and soreness had disappeared and in one month I was completely cured of a trouble that had existed seven years. I think such services deserve commendation." The gentleman's name James J. O'Brien, he is a fireman connected with No. 7 engine house, Duluth, Minn.

Skeptics can go and see him drop him a line when he will be glad to corroborate the foregoing facts.

THE COPELAND PHYSICIANS TREAT ALL CATARRHAL AND SKIN DISEASES AT THE RATE OF \$5.00 PER MONTH, FURNISHING ALL MEDICINES NECESSARY WITHOUT EXTRA COST. SENSATIONAL ARREST.

Jacob and Abraham Levine Arrested Last Evening on Complaint of the Oakland Insurance Company.

Charge Against Them is Conspiring to Defraud the Company in a Proof of Fire Loss.

Released on Bail This Morning and Examination Set For Wednesday—Attorney Draper Talks.

Last evening Jacob and Abraham Levine, of the Bell Clothing store, were arrested on a charge of conspiracy to defraud the Oakland Home Insurance company, of California, out of \$790. The warrants were made out by C. O. Baldwin and were signed by F. G. Cowie, of Chicago, who has been here for three weeks preparing for this denouement. Abraham Levine was arrested at the store of his mother-in-law by Detective Hayden and Bob Benson arrested Jacob at his home.

The man who worked up the deal came here from Chicago and registered at the Spalding under the name of F. D. Gordon. With him were his wife and child. He did not make himself known to the police department here until after he was here a week or so, and from then on he worked with their co-operation. All of the clerks of Levine Bros. have been questioned and a number of people around the city. What his evidence will be remains to be developed at the trial or hearing. When he got through Mr. Gordon announced himself as F. G. Cowie, of Chicago, chief inspector of the national insurance inspection department.

The charge grows out of the fire at the Bell clothing store on the night of Dec. 12 last. Levine Bros. carried \$49,000 insurance. The appraisers fixed the firm's loss at \$17,000. They refused to accept that amount and claimed \$37,000. Mr. Cowie says that according to their proof of loss about \$16,000 worth of goods were totally destroyed, so that nothing but ashes was left. He intimates that he has traced some of these goods and that they are in Chicago.

Jacob and Abraham Levine were arraigned in police court this morning before Judge Winje on the charge of conspiracy to commit grand larceny in the first degree. The examination was set for next Wednesday and the bonds fixed at \$1000. B. Silberstein and Sam Levine who were present quickly placed their names to the bonds, and the defendants were released.

W. N. Draper, of the firm of Draper, Hollister & Davis, appeared for the defendants. He says that he considers this step has been taken by the insurance companies because Levine Bros. would not submit to the award made by the appraisers. "Some time ago," he said, "and submitted sufficient proofs that the award of \$17,000 damage made by the appraisers had been brought about by corruption on the part of the insurance company and upon being thus convinced that the award was unjust, we accepted their award, but offered to accept the amounts proffered and to credit on account."

"Two companies came here, looked carefully into the matter, satisfied themselves as to our standing as attorneys and admitted that the award of \$17,000 was unjust. In those two cases we compromised splitting the difference and making a final settlement. The insurance companies by this criminal action hope to forestall our civil suit, as points as to evidence are the same in both cases. "This deal is most unjust but it has been known by our clients that it was coming. Their clerks have been summoned to the hotel. When the clerks have spoken to Levine about it, they have been told by their employers to do just as they wished. This deal is, in my opinion, brought to affect public sentiment. The newspaper account published this morning was most unjust."

The arrest seems to have had the effect of creating sympathy among the other merchants of the city for Levine Bros. Several of them spoke loudly this morning declaring it a building scheme of the insurance companies. One merchant said: "This is a case where we must stand together. If they brought a direct charge of arson against the Levine it would be different, but this is an admission that they can't find any. Anyone of us liable to be treated in the same manner and I don't believe in submitting tamely. They make a great noise about such things as this causing high rates and why? Simply because they want to get public sympathy on their side. If they win in this they will be \$20,000 ahead."

PERSONAL.

D. R. Burbank left for New York city yesterday, where he has a remunerative position.

Mr. and Mrs. Thomas Plummer have gone to Chicago to take a course of instruction in "Christian Science," from Mrs. Emma Hopkins, the noted apostle of that faith.

Miss Stella Stearns is expected home today from Florida, where she has been spending the winter.

Murray Peyton has returned from Florida much improved in health.

Miss Axtell, of St. Paul, is visiting her friend, Miss Sibley, of Hardy school.

H. C. Hope, of St. Paul, is in the city today.

George C. Squires came up from St. Paul last evening.

A. W. Trenholm, of Spooner, Wis., division superintendent of the Omaha, was in the city last evening.

Mr. and Mrs. W. C. White have gone to Deerwood for the summer.

Mr. and Mrs. F. N. Guthrie are at Mrs. Derby's on East Second street.

Maj. and Mrs. Sears have taken up their residence on East Superior street, near Fifteenth avenue.

Mr. and Mrs. A. B. Chapin have taken the house on Second street lately occupied by Mr. and Mrs. P. S. Demis.

Mr. and Mrs. C. G. Miller occupy a house on East Superior street.

THE ODD FELLOWS.

Seventy-fifth Anniversary to Be Celebrated Tomorrow Evening.

The seventy-fifth anniversary of the establishment of Odd Fellowship in America will be celebrated by the members of Duluth tomorrow evening at Temple Opera. Rev. Brother Forbes will deliver the principal address and in the exercises the Rev. F. C. Southworth and Brother T. W. Hugo will take part. The musical part of the program is under the direction of Miss Helen Mackey who will be assisted by Mrs. Aspinwall, Miss Moak, Sydney Brown and others. The meeting will be called to order at 8 o'clock and is free to all. Tickets may be secured without cost on Sunday evening at the box office. Sections of the house have been reserved for the Odd Fellows and their guests from Superior and elsewhere who have chartered special cars for the occasion. The program is as follows:

Opening ode—"Brethren of Our Friendly Order," led by the Quartet.
Prayer, Rev. F. C. Southworth.
Vocal solo—"The Goodbye," Fanny Mrs. Aspinwall, Miss Geraldine Moak.
Intermission.
T. W. Hugo, Grand Representative S. G. L. Viola and piano, Norma.
Miss Helen Mackey and Sydney Brown.
Vocal solo—"O Saviour Hear Me," Gladys Moak.
Address—"Odd Fellowship," Rev. Bro. F. C. Southworth.
Trio—"Come Holy Spirit," Le Haecho.
Miss Moak, Mr. Lohr, H. B. Berlechner.
Vocal solo—"Blessed Ye in the Lord," Messiah.
Closing ode—"Brethren We Thank You All," Chorus, led by the Quartet.

He Has Got 'Em.

Phillip Blodgen, the Englishman whose face is familiar to those who are solicited on directory and other small advertising schemes, is at police headquarters, suffering from an attack of the delirium tremens. He earnestly begged the police officers this morning not to allow imaginary assailants to kill him.

Is Again Abusive.

Mrs. Kenlock, who is so unfortunate as to possess an abusive husband, and against whom she has several times been compelled to make complaint, has again invoked the aid of the law. The man who promised to protect her is behind the bars pending arraignment.

How's This?

FILED THE SCHEDULES.

Receiver Silvey's Inventory of the Emerson Estate Assets Presented to the Court Yesterday Afternoon.

He Claims it is Not Advisable to Force a Sale of the Lease at Present.

Some Creditors of the Estate File a Counter Petition Asking the Dismissal of the First.

The petition of some of the creditors of E. P. Emerson asking for an order of the court directing Receiver Silvey to file his accounts and inventories came up before Judge Moer this morning but was continued. Receiver Silvey yesterday afternoon filed an inventory of the estate amounting to \$357,225, aside from the lease, which is nominally worth \$50,000. On it there is a mortgage for \$35,000, held by H. A. Ware, and a claim by R. S. and R. C. Munger and W. W. Spalding of \$70,000. Outstanding accounts due the hotel amount to \$43,366.

The answer of the receiver to the petition was also filed yesterday. He states that owing to the financial depression he has been unable to settle the estate's affairs before now, and that it would not be policy to sell the lease to the house until a better price could be obtained for it than now. It is claimed that the petition is a scheme to force the sale so it can be bought cheaply.

Six creditors of the estate filed a counter-petition asking that the first petition be dismissed as to the clause ordering the sale to take place immediately. Their objection to this is the same as the one urged by the receiver.

The Special Term.

The special term calendar this morning was the longest ever held in Duluth. It contained thirty-eight cases, and the three judges were kept busy all day with it.

The case of H. G. Ingersoll against Thomas P. Brown et al. came before Judge Moer on an order to show cause why Brown should not be adjudged in contempt. An order had been made by the court restraining Brown from parting with certain stocks connected with the case. An attachment was issued in the municipal court against the stocks and Brown gave them up to the court officer.

Judge Moer said that the municipal court has no business to override an order from the district court, and adjudged Brown in contempt. He was ordered to be confined in the county jail until he produces the stocks, not to exceed six months. A stay of five days was granted.

A part of the forenoon was taken up before Judge Moer in taking the testimony of Annie Anderson relative to the death of Annie Paulson, the girl who was said to have been burned in the St. Louis hotel fire. The testimony was taken from the district court, and adjudged Brown in contempt. He was ordered to be confined in the county jail until he produces the stocks, not to exceed six months. A stay of five days was granted.

Motions for new trials were denied in the cases of the State Bank of Duluth against Andrew Jackson et al. and Francis G. G. Nelson against the Duluth Music company.

In the case of W. N. Barbour against J. J. McCann, an order was made appointing a receiver, to be named by the court, pending an action for dissolution of partnership.

The demurrer of the Clyde Iron company to the complaint of Jones & McLaughlin was sustained and the plaintiffs given five days to amend their complaint.

A motion was given A. Fitzer & Co. for foreclosure of a mortgage on a note of \$200 given by Hans Dignies.

An order was made allowing the assignment of C. H. Nelson to sell the stock in gross at private sales.

A motion for judgment in the pleading was denied in the case of G. A. Tuft against the Cudahy Packing company. The judgment was given for the Keystone National bank against James Billings, et al. and F. W. Winslip et al.

The Norris case was not finished yesterday afternoon and it will be taken up again Monday. Craig was on the stand all the afternoon, unbosoming himself of all he knew against the proposed issuance of bonds. The plaintiff moved to amend his complaint so to allege that owing to the present financial stringency the condition of things has changed so from the time of the bond election that the council has now no right to proceed.

The motion was granted.

When court adjourned yesterday afternoon Judge Moer was hearing the case of George E. Snell against the West Duluth Lumber company to cancel \$40,000 in West Duluth bonds held by the lumber company.

The following setting of cases for next week ends the April term:
Monday—39, 144, 145, 86, 89, 154, 156, 162, 163, 164, 167, 169, 171, 3.
Tuesday—55, 41, 48.

SWINDLING LOCATORS.

Sharks Who Fleeced Poor Men by Selling Minutes for Worthless Lands at High Figures.

Some of the Methods They Employ in Roping in Their Ignorant and Unsuspecting Victims.

Norton's Conviction Will Have a Wholesome Effect and Will Make Some Others Pretty Nervous.

"I'm mighty glad to see that one of these shark land locators has at last run up against stern justice," said a pine land man who prides himself on honest dealing with his clients. "In my opinion, Billy Norton, who was recently convicted of fraud and who is now elected to a nice little term of not less than two years at Stillwater, should have gone there long ago.

"Norton ran across this man Deuser and wanted to locate him on a claim. With all the arts so well known to the sharks who prey upon these ignorant in the matter of public lands in this section, inspired him with a burning desire to own a fine pine claim. The fellow knew nothing about pine lands and was an easy victim to the tune of \$150 for the minutes of the land.

"A short time before Deuser proved up, he spoke about his claim to a man who was posted.

"What did you take that claim for?" asked the man of information.

"For the pine," said Norton's victim.

"There's no pine on that," was the surprising information.

"Deuser thought there was but finally decided to send out a pine land expert. He came back and said the land was barren of valuable pine. A second expert went out and when he returned reported that the claim bore about 25,000 feet of pine, which, at \$1 per 1000 would be worth the immense sum of \$25,000, one-sixth of the price paid for the minutes, to say nothing of attorney's fees, incidental expenses and the government's purchase price of \$100.

"Norton's act was brought up twice before the grand jury without an indictment being returned. The third time was a charmer. When 'Billy' serves out this sentence, which will soon be impossible, he may have to go to the penitentiary in Wisconsin, as he is wanted there for a similar offense.

"Louis Kouchleau got his first experience in land matters from Norton. Louis was inexperienced in the woods. He knew nothing about pine and government lands. Norton located him over on the north shore and after exhausting his considerable pre-emption right found that his claim was worthless. He evidently profited by his experience for today he is equal to the best of them when it comes to passing judgment on pine lands.

"Here's a scheme the fake locators work. The pre-emption law was repealed March 3, 1891. Any one who settled on lands previous to that date were entitled to their pre-emption right when the town was surveyed. These locators got men to put in a claim of settlement prior to the repeal of the law. That segregated the land. Then the sharks would get men to file over those making the false representations of settlement. Of course the matter would call for a contest and at the hearing, the perjured claimants would not show up with a defense as they well knew they would be exposed by the shark locators. These two last locating fees, and possibly an interest in the property, would be secured for one piece of land."

"Another scheme played by these precious rascals is to sell a man the minutes to a nice pine claim for \$150 or \$200, and see that he puts a timber and stone filing on it. The next step is to find a second man and see that he makes a homestead filing. That means a contest. Two heavy fees for the minutes of the land have already been received. One side is bound to lose its case. Perhaps both claimant and contestant may be hard up and unable to fight, then the chances are that one will fail to appear and the other will relinquish for a nominal sum. That may result in a third filing and a corresponding fee of \$200."

"About three years ago some girls went out in 60-10 and 11, east of Ely and located before the surveys were made. They made improvements, clearing land and erecting substantial cabins. When the plats were filed, a gang of these sharks saw that timber and stone filings were made and the girls, to better hold their lands, were compelled to make homestead filings, thereby exhausting two rights on one piece of land. That was about a year and a half ago, and the lands are still in litigation. There is no certainty that these bustling young women may not yet lose their lands.

"A certain explorer here approached a new comer from Chicago and offered him the minutes of a piece of land bearing 80,000 feet of pine. He was honest in his representations but the new comer said that he would not pay \$50 for 800,000 feet, so the deal fell through. Now in some way, one of these sharks overheard this conversation and he came up to the sucker from Chicago and said that he had a claim bearing 1,300,000 feet of white pine but that for the minutes, he wanted \$175. The land-seeker said that he'd give \$175 for land bearing 1,300,000 feet and the deal was made. What did that rascally shark do but locate his victim on the same piece of land that the honest locator had offered for \$50. Now that victim came here with but a little money, and today he and his wife and several children are living in one room so that they may economize. Burning at the stake is more to be feared than a punishment for that swindling locator.

"There's one firm of these swindlers here that locate their victims for \$150 or \$200, agree to furnish money with which to prove up, and further agree to buy the lands, when patented, at a good figure. Their bargain is never kept and

the chances are that the claimant is never able to prove up, loses his land and the band of robbers uses it to catch another victim.

"Last winter a considerable number of men and women from St. Paul were located on lands in 64-18 which were squatted on years before. Of course they lost their time and money.

"Tom Walsh, who has had about as much experience in the woods as the next one, had a little adventure one day while he was Mayor d'Autremont's private secretary that was very amusing to anyone who knows Tom. He has been out of the woods for a couple of years, hence many of these sharks don't know him. One day he stood in front of the city hall, in his shirt sleeves, smoking. At length a fellow stepped up to him and said:

"Hello, young feller, how are you? Do you clerk in some store here?"

"Yes, I work in a grocery store down town."

"Don't you want to take a claim?"

"What's a claim?" asked Tom, with eyes wide open and a look of innocence on his face.

"Why, said the shark, 'a piece of government land, with a whole lot of white pine on it. You locate on it, prove up and then sell it for a whole lot of money. Ever been in the woods?'"

"No, except around town here on little hunting trips."

"Thereupon the shark pulled out a plat book and pointed to some numbers of four figures.

"Here, said the land pirate, 'is a quarter section with 10,000,000 feet of pine on it. When you prove up, you can sell it for \$1 a 1000. I'll locate you for \$100."

"Cracky" said Tom, "That'll beat selling groceries at \$45 a month. When can I get it?"

"I'll meet me at the land office tomorrow morning."

"The next day came but Tom never showed up at the land office.

"These men who do crooked work, don't go into the woods at all. They hang around the land office, look at the plats, and when they find a piece of vacant land, endeavor to locate some victim on it, never knowing whether the piece is rock, water, swamp or pine. When describing a piece of land to a prospective victim, if the estimate proves too small to suit, then the shark goes away and sends around a pal who raises the estimate. If that don't suit, other pals are brought into service until the estimate of the number of feet of pine is large enough to excite the victim's cupidity and bring about a deal. It is needless to say that the different estimates are on the same piece of land."

"I see that some of the papers are trying to persuade idle and poor people to go up into the woods and make farms. If there's a movement of that kind, there will be a corresponding movement on the part of these swindling locators. These facts may save from loss some poor fellow who needs his money worse than these tin horn confidence men do. The government land swindlers and steals so common a few years ago, while they were in the woods, they were working for 25 cents a day, and his labor is so cheap that it does not pay to introduce machinery to do the work. The employers keep the men in that condition they cannot leave. An employer whose poor fellow may call upon a magistrate who will give him soldiers to bring them back.

"It is, of course, very easy to keep them in debt, as everything they use, such as farming implements or animals, is charged to them, and if they break an implement or an animal dies while in their hands they have to pay for it. Of course they can't do the work, so the manager keeps them in debt to him, making them to all purposes his slaves.

"None of the old Aztec religion remains. Cortes and his followers introduced Catholicism thoroughly, and the country is almost entirely Catholic today. The only little cluster of six or eight houses has its church and priests. The manager in which Catholicism was introduced is strikingly shown in a picture over the door of the old Indian building.

"There is not a word of explanation to the picture. Two naked hands are portrayed. In one hand is a sword, and in the other a cross. That was the choice left to the natives—the sword or the cross.

"Of course they took the cross and they have stuck to it faithfully ever since. Other religions are tolerated to a certain extent, but in an out of the way part of the country. About ten years ago in a small town called Atzala, an attempt to convert them to Protestantism met with a conclusive rejection. A number of Methodists started a chapel there, and before they had been there long, the natives took thirty-six of the followers to the plaza one night and chopped them to mince meat.

"It is useless to attempt to proselyte them. Protestant religious missionaries to them. The Catholic church, with its impressive forms and ceremonies, is the only thing that can hold their buttim perfectly civilized minds.

"In the southern part of the republic there lives a tribe called Pintos, whose existence is not generally known. Pinto means painted and is applied to the tribe by reason of the results of a very peculiar skin disease which makes their skins spotted with as many colors as Joseph's coat.

"The natives are very much addicted to their own peculiar kinds of drink, which are pulque and aguardiente. Aguardiente means 'tooth water' and is a very potent drink composed of pure alcohol extracted from sugar cane. Pulque is extracted from the maguey plant and has about 12 per cent of alcohol. As an instance of how much of the latter is drunk, every railroad running into the City of Mexico has one train a day loaded entirely with pulque. It is said to be wholesome, but requires practice for a foreigner to be able to take it. It has a stimulating effect on the buttim.

"While on one of my trips I saw a spectacle which I do not think many Americans and but few of this generation of Mexicans, ever beheld. It was a genuine Aztec feast, lasting four days, among a people in an out of the way part of the state of Puebla. They could not speak a word of Spanish. Their dance was beyond description. Imagine that they were suddenly thrown back to the time of the conquest and saw one of the spectacles pictured in the historical writings, and you will have some idea of what I saw.

"There was a multitude of long-haired

AMONG THE MEXICANS.

Engineer Spaulding Gives Some of His Observations During His Thirteen Years' Residence in Mexico.

The Impression Which Many Have That It Has a Very Hot Climate Is Wrong.

Saw a Genuine Aztec Feast in an Out of the Way Part of Pueblo State.

Edward G. Spaulding, civil engineer of the Minnesota Canal company, has been in many widely separated parts of the world in the practice of his profession. Among other places he spent thirteen years in Mexico, during which time he laid out the routes of several of the principal Mexican railways. This work carried him throughout the whole country on horseback, living at times among the natives, so that he has had an excellent opportunity for studying their habits and customs. To a Herald man he gave the following account of the results of some of his observations:

"I find that many people in the United States have an idea that the republic of Mexico, lying as it does so near the southern extremity of the continent, has a large part within the torrid zone, has a very hot climate. This is a mistake. On account of the immense table land occupying nearly the whole of the country at an altitude of from 7000 to 8000 feet the temperature is more like that of the temperate zone, ranging from 60 to 80 degrees the year around. On the coast you can get anything from temperate to extreme torrid. The air is dry during a part of the year so that the climate is very healthy. In the City of Mexico, however, the sanitary conditions are so bad that the death rate is forty in 1000, mostly from diseases of the typhoid class. The natives live in very primitive fashion, in adobe huts with thatched roofs. Their bill of fare from one year's end to the other consists of tortillas and frijoles. Tortillas consist of common corn ground up, made into a paste, and cooked in cakes in an earthen dish over a charcoal fire. Frijoles are common brown beans stewed up. The tortillas are used as spoons for the frijoles and when the frijoles are gone, the spoons follow.

"The peons are the natives, descendants of the race that was found by Cortes. Besides them there are the half castes and pure Spanish, the natives predominating. The peons are almost all slaves, for 25 cents a day, and his labor is so cheap that it does not pay to introduce machinery to do the work. The employers keep the men in that condition they cannot leave. An employer whose poor fellow may call upon a magistrate who will give him soldiers to bring them back.

"It is, of course, very easy to keep them in debt, as everything they use, such as farming implements or animals, is charged to them, and if they break an implement or an animal dies while in their hands they have to pay for it. Of course they can't do the work, so the manager keeps them in debt to him, making them to all purposes his slaves.

Imagine that they were suddenly thrown back to the time of the conquest and saw one of the spectacles pictured in the historical writings, and you will have some idea of what I saw.

"There was a multitude of long-haired

Arctics, dressed in fantastic costumes of bright yellow and red, brimless hats like stovepipes with the sides covered with small mirrors and the top with plumes. Bells hung to their arms and legs, streamers and ribbons dangled from their backs, and in their hands were swords and wooden snakes so constructed as to imitate the rattle of a rattlesnake.

"The whole of them were dancing a peculiar dance in which side movements like a quadrille, accompanied by crossing of swords, advancing and retreating with a whirl, drawing a circle on the ground with the point of the sword.

"The music of the tom-toms, a small pipe-like instrument, the bells, the stamping of the dancers and the confused jargon of the spectators, together with the bright colors and the confused whirling and mingling mass of dancers, made up a spectacle I never expected to see in modern Mexico.

"The women danced in a separate group. They were also dressed in fantastic and brightly colored costumes, cut rather decollete.

"The cantinas, two large bottles of aguardiente, were liberally patronized. Drinks were sold at the rate of 64 cents to \$1 and seemed to have much the same effect as high-priced ones do—making the dancers nimble at first and very sleepy afterward. When they could stand up no longer they would drop where they stood and go to sleep. It required some care on the part of the more sober ones to keep from stepping on them."

In Chicago has a novel and interesting way of announcing and registering the attendance. It is by means of the "Sunday school thermometer."

A long glass tube is mounted upon a wooden frame, the whole resembling a large thermometer. Thoseno is graduated by tens and hundreds, the degrees in this case ranging from 400 to 1,000. A string of tape, part of which is colored a bright red to represent the mercury, runs through the center of the tube and may be moved up or down by means of a small crank at the head. Four hundred is designated as "very cold," "500," "cold," "600," "temperate," "700," "warm," "800," "very warm," "900," "hot," "1,000," "very hot."

The idea is an excellent one and deserves imitation.—Youth's Journal.

THE WORLD OF LABOR.

The Trades Assembly Will Urge the Common Council to Grant Another Street Railway Franchise.

A Committee Will Support the City Railway Company's Application For Rights in the Streets.

The May Day Ball Under the Direction of the Assembly Promises to Be Successful.

The Federated Trades assembly held its regular meeting last evening. Through the persons of Frank Burke, H. Harris and ex-Mayor I. M. Martin, of West Duluth, the youthful face of the City Street Railway company shone in upon the delegates then and there assembled. The object of the appearance on the part of those gentlemen was to urge the assembly to use its influence to obtain the grant of the franchise for which the new street railway company now prays the city council. Each representative of the company made speeches, after which a committee, composed of Messrs. Hair, McCullum and Griffin, was appointed to wait upon the council and urge the passage of the franchise.

On May 1 quarterly working cards will be issued. There is considerable interest in the matter and a committee of eight was appointed to take charge of the work. A new rule was also adopted to the effect that all unions affiliated with the assembly will be allowed to send alternates in case of the absence of regular delegates.

The report the labor on the new fire hall is being paid only 85 cents a day aroused the sense of right and justice among the assembly's members and the vigilance committee was ordered to investigate. In case that is found to be a fact, the committee will refer the matter to the city council to see if fair wages cannot be secured.

The delegates from West Superior reported that the labor organizations there are steadily growing in strength. Messrs. Leyre and Carls were appointed to represent the Duluth assembly at meetings of the Superior assembly. On May 1 the assembly will hold a big ball at the Pavilion. The committee in charge made a report and the prospects are for a successful merry making.

WEALTH AND MISERY.

Accumulations of the People's Industry Held by a Few.

Dr. E. B. Foote, Jr., president of the Manhattan Liberal club and vice president of the Science Seminars society, is keenly interested in the solution of the social problem. To a reporter of the New York Advertiser he talked on "Our Great Wealth. What It Is, What It Ought to Be and How to Transfer It."

"In times like the present," he said, "when almost every one feels the pinch of depressed trade, there is naturally a pretty general disposition to ask, 'What's the matter with the system we are living under?' Some are content to find a short and easy solution of the problem in mistakes of politicians of the other party," but most of us are old enough to remember that pinching times have occurred before, and under administrations of both political parties, and therefore feel like finding fault with the system—financial, industrial and social.

"Our country is but little over 100 years old and has in those years accumulated a remarkable amount of substantial 'productive' wealth. It interests us all to know who now owns the most of it, and some statisticians of census figures have endeavored to tell us how it is distributed. His statement is being quoted, but for my purpose must be again given briefly. About 4,000 families among the millionaires own 20 per cent of accumulated wealth, over 1,000,000 more families possess 51 per cent, and 29 per cent is left for over 11,500,000 families, or over 75 per cent of our property is in the hands of 9 per cent of the population while 91 per cent of the people hold only 35 per cent of the wealth.

"Those who think the system is about right as it is claim that productive wealth is the result of savings, accumulations, that it is invested in properties that employ labor, and that if it had been more evenly distributed as fast as produced it would not have been saved up for use in its present shape, and so we would not only be less wealthy as a people, but should have fewer factories, railroads and other 'investments' that keep labor employed. They go on to show that, of the consumable wealth produced each year, half goes to labor in wages, a large proportion is used up in repairs and extensions of industrial plants, while the rest is available for the maintenance and luxuries of the 'well to do.'

"We are told that instead of railing at the multimillionaires we should rejoice that they have the ability to invest property, hard and reinvest and thus constitute themselves and their families the caretakers of these accumulations which, if not the property of us all, are indirectly serviceable in affording homes to rent, railroads to travel on and workshops to employ millions of hands. Since even the extreme wealthy can only consume a limited amount of the annual production of new stuff, they ought to be allowed the enjoyment of luxuries, unattainable by all, as extra compensation for the care and worry of management of the vast accumulated wealth which must afford means of comfort and subsistence for others indirectly.

"We are further told by the philosophers of content—some might call them the hirelings of capital—that the workers should be content with the half of the annual wealth produced, paid to them in wages, and the opportunity to live in modern buildings and work in

new class factories with the most improved machinery, but the present pressing problem for these philosophers is to explain how and why the masses should be content when the work is shut down, when there is no income to pay rent and no sufficient means of sustenance until such time as capital finds it expedient to let the wheels go round once more. These are the times that test our system of intrusting capital in a few hands, while the masses live from hand to mouth. It is only charity that saves it from being a worse system than actual slavery.

"When laborers are the property of capital, they must be maintained, even when there is no work to be done, in order that they may be ready to hand and available for work when needed. An express company, with more horses than can be kept at work just now, would put them out to grass or keep them in condition to be fit for work as business revives, but the employees are discharged to loaf for themselves, with the idea noted upon if not expressed, that if they should starve or suicide their places can be filled by other men who manage to beg and scrape an existence until the revival of trade.

"The working of our system has no doubt proved the advantage of accumulating wealth, of investing it in lasting improvements, in buildings that will stand 1,000 years instead of 100, in railroads, bridges, canals and all sorts of permanent business plants, but occasions like the present make us doubt the wisdom of permitting the vast accumulations to stand in the names of individuals or families or be consigned to the care of trusts or 'soulless corporations.'

"The accumulated wealth of which we boast today represents the labor of millions of men who have not enjoyed a fair share of their product, and 20 per cent of it is now found in the hands of a few. I per cent of our people—though it would not have been possible for them to produce it—simply because they have been clever enough to manage business under our system in a way to leave these vast accumulations booked in their names as their property. Now that they possess it, they use it to suit themselves, and in the long run they cannot use it profitably to themselves without making employment for the masses, but when a pinch comes and they think it to their advantage to shut it all out and run on their own, the accumulations of invested wealth are to a large extent no longer of any use to the masses, and then no wonder the latter begin to ask if the present system affords the best way of managing stored wealth of the past.

"Some think they see that it would be better for this stored wealth in productive property to belong to the people as a whole and to have it managed by their agents always for their interests. When one starts on this idea, it is as easy to decide where to stop as where to begin. Socialism carried to the extreme frightens away many who would already be disposed to have the state take control of all such monopolies as railroads, express business, gas, electric and water works, but the property of making further steps in this direction is evidenced by the Hewitt bill for underground rapid transit and franchises which will be offered to the coming constitutional convention.

"When Henry George made a strong run for the majority a few years ago, it was Mr. Hewitt who was put forward to 'save society' against just such socialistic propositions as this, which would make the city proprietor of a great rapid transit system. But now Mr. Hewitt himself helps us to have it. Is that tending or drifting or 'running into' socialism? Any one who agrees that this is a good thing to do now ought to be even more ready to convert to the view that it is a great pity that the city did not hold all its own franchises, own all its street car routes and furnish itself with gas and electric lights as well as water. It might as well have owned the elevated roads as the New York and Brooklyn bridge. It might have built model tenements and regulated their sanitation better than it can ever hope to control those in private hands. It could as well have owned both sides of Broadway as its water front on both rivers.

"Another big question is, 'Now that productive wealth is so largely in the hands of the few, how can the masses ever get possession of it?' Even if they have been 'robbed' of the most of it, it has been done so gradually, under the forms of law, that it would take a convention of capital's attorneys to devise a plan for reclaiming it that would be as indirect, insidious and unnoticeable as the system under which it was acquired, to put it mildly, by the few.

"A method which has occurred to me as likely in time to restore to the whole people a large amount of its capital without possibly hurting any of the present holders is that, in addition to a graduated income tax, let the law of inheritance be such that no one person could inherit over \$1,000,000 worth of property. That is start enough for any man or woman. If a man dies leaving \$10,000,000 and five children, \$5,000,000 would revert to the state or be in some proper proportion divided between his country, state and the United States. Wealth thus passing into the public purse could be used to buy up, as fast as possible, all the franchises and monopolies that have been foolishly let slip heretofore, until the people should thus gradually recover possession of their own and have reason to be duly grateful to the multimillionaires for helping them to it."

Will the Right Way Ever Be Found?

Another scheme for a co-operative socialism has been projected by the leaders of the "labor army" who have been persecuting their work in England. The organization is said to consist of 600 members, whose purpose it is to form agricultural, pastoral and manufacturing societies in different states of the Union with a view to abolishing "wage slavery" and substituting the system of co-operative production and distribution of wealth on the most improved economic and scientific principles.

The fact must be recorded that there

have been many propositions for such communities in recent years, and that most of the projects have ended in a miserable collapse of the communal states thus formed. With a theory founded on an ideal state of government the projectors have too often run upon some unforeseen rock of real circumstance or condition. And still similar hopes are formed and similar plans projected.

The facts serve to show the widespread interest in the hopes held out by modern political economy, which so far from being the "dull science" is now the most actively studied and vitally interesting of all. The proposed "colonies" are one of a hundred indications of a distinct tendency in modern life. Like a multitude of other plans, they hold out the rainbow hope of a social millennium in a land of plenty, and there is no lack of wise people to go hunting for treasure at the rainbow's foot.

And still the wonder is are the rainbow chasers all deceived, or are they merely looking for the right thing in the wrong way, and will they some day turn about and go wisely? Up to the present the query has stumped all the prophets—the best of them, Herbert Spencer, having deliberately turned from his hopes of former years and retreated into the darkness of hopeless pessimism.—Chicago Record.

Cease Your Strife.
Come, workmen, cease your strife.
That only serves to divide you.
While thus you play the game of life,
Your enemies will deride you.
Cast each unworthy thought away,
Join hands with your fellow neighbor
And all unite to make the fight
Over the rights and wrongs of labor.

For United Labor.
The Knights of Labor should cease to hold assemblies of any craft or trade where the same is organized under a trades union head. This would get rid of the cause of many bickerings and clashes of authority in trade affairs. Then bring the Knights of Labor and the trades union into line with all other forms of bona fide industrial organizations, blending all in one harmonious whole. Thus the organizations of labor could be "as many as the billows, yet one as the sea." I am heartily in the movement to unite labor's scattered forces.—P. J. McGuire.

OUR CHRISTIAN CIVILIZATION.
A Tragedy of the Kind That Makes Dynasties of Tender Hearted Men.
The stern arm of the law parted Eugene Courtenay and his wife forever when he was sent to the workhouse two weeks ago, for she did not pay his fine. He was taken from prison just long enough to catch a glimpse of her face. Courtenay and his wife had been living at 523 Peopling street for some time past. About two weeks ago, when the rent became due, Courtenay did not have the money to pay it. He had been unable to get any work and tried to persuade the landlord to wait a few days for his money. He told him he had no place to go, and that his wife was ill. The next day a constable made his appearance and tried to make Courtenay leave the premises at once. A quarrel followed, and Courtenay, it is said, gave the officer a beating. Soon afterward he was arrested and fined for assaulting an officer. Having no money to pay his fine, he was sent to the workhouse. Meanwhile the neighbors subscribed enough money to pay the rent, and the sick woman was allowed to remain in the house. She died Monday after making plaintive cries for "save society" as this, which would make the city proprietor of a great rapid transit system. But now Mr. Hewitt himself helps us to have it. Is that tending or drifting or "running into" socialism? Any one who agrees that this is a good thing to do now ought to be even more ready to convert to the view that it is a great pity that the city did not hold all its own franchises, own all its street car routes and furnish itself with gas and electric lights as well as water. It might as well have owned the elevated roads as the New York and Brooklyn bridge. It might have built model tenements and regulated their sanitation better than it can ever hope to control those in private hands. It could as well have owned both sides of Broadway as its water front on both rivers.

"Every day Courtenay inquired about his wife, and it is said, he was told that she was well. Monday afternoon when she died he was called from his work and told that she was dead. He could not believe it to be true. He begged to be allowed to go home and find out if it was not all a mistake. He promised to return before night and entreated the guards to tell him the truth. All Monday night he did not sleep, but walked back and forth in his cramped cell and repeated his wife's name. When morning came, he renewed his request to be allowed to see his wife. Friends prevailed on the watchmen to let him go to the funeral under the escort of an officer.

Courtenay was taken to the house, where his wife lay dead. He did not pay any attention to the greetings of his neighbors, but walked into the chamber of death and knelt beside the coffin, sobbing violently. Even there he was not alone with his grief, for the officer stood beside a reminder that he must return to prison when he had spent his allotted time with his dead. The neighbors as they saw how closely he was guarded expressed their indignation that he should not be allowed to enter the room alone. His grief was almost maniacal, and he did not leave the side of his dead wife until the officer touched him on the shoulder and told him that it was time to return to jail.

When he was taken back to the workhouse, he was put to work again, and he was breaking rocks at the time the funeral was taking place. He had the sympathy of all his fellow prisoners. Even the most depraved inmates of the workhouse pitied him in his grief.—St. Louis Republic.

True Christianity.
In a recent sermon Rev. George F. Hill of Germantown, Pa., said: "Many Christians complain grievously when they are confronted with unwelcome truths and say that the preacher should not discuss the themes that fill the highway or find entrance into the home. It is the old story of the priest who passed by on the other side, while his workingman brother, robbed of his wages, lay wounded and bleeding by the wayside. But I do not think that we should grow warm in doctrinal debate while God's children are hungry and naked. Indeed, while there is one wrong, unrighted or

one sinning cannot unclothed, the minister of Christ who wants to be like his Master can use his pulpit no better than by pleading for such.

"It is no strained sentimentality to put Christ before the world as a workingman. Some call Christ the carpenter's son, but it would be better to call him the carpenter. And if some hilly fingered aristocrat be ashamed of one who worked for a living, let him transfer his allegiance. It is heart sickening to find among Christians all mention suppressed of Christ's lowly life."

Pray Be Seated.
If a bill introduced by Senator McMillan ever becomes a law, the genial ex-chairman of the senate District committee will probably become the patron saint of the shopgirls of the district. In effect the bill says to these young women, "Pray be seated." In terms it provides that all persons who employ females in stores, shops, offices or manufacturing as clerks, assistants, operators or helpers in any business shall be required to provide proper and suitable seats for all such females and shall permit their use as may be necessary, and shall not make any rules, regulations or orders preventing the use of such seats when such female employees are not actually employed in their work. Section 2 of the bill provides that any neglect or refusal to provide seats in this manner shall be considered a misdemeanor, and each offense shall be punishable by a fine of not exceeding \$25, with costs. The bill was referred to the District committee.—Washington Star.

There is but one
way in the world to be sure of having the best paint, and that is to use only a well-established brand of strictly pure white lead, pure linseed oil, and pure colors.

The following brands are standard, "Old Dutch" process, and are always absolutely

Strictly Pure
White Lead
"Southern," "Red Seal,"
"Collier," "Shipman."

* If you want colored paint, tint any of the above strictly pure leads with National Lead Co.'s Pure White Lead Tinting Colors.

These colors are sold in one-pound cans, each can being sufficient to tint 25 pounds of strictly pure white lead. The colored shades, they are in no sense ready-mixed paints, but a combination of strictly pure colors in the handiest form to tint strictly pure white lead.

Send us a postal card and get our book on points and methods of tinting.

IT POPS.
Effervescent, too.
Exhilarating, appetizing.
Just the thing to build up the constitution.

Hires' Rootbeer
Wholesome and strengthening, pure blood, free from boils or carbuncles. General good health—results from drinking HIRE'S Rootbeer the year round.

Package makes five gallons, 25c. Ask your druggist or grocer for it. Take no other.

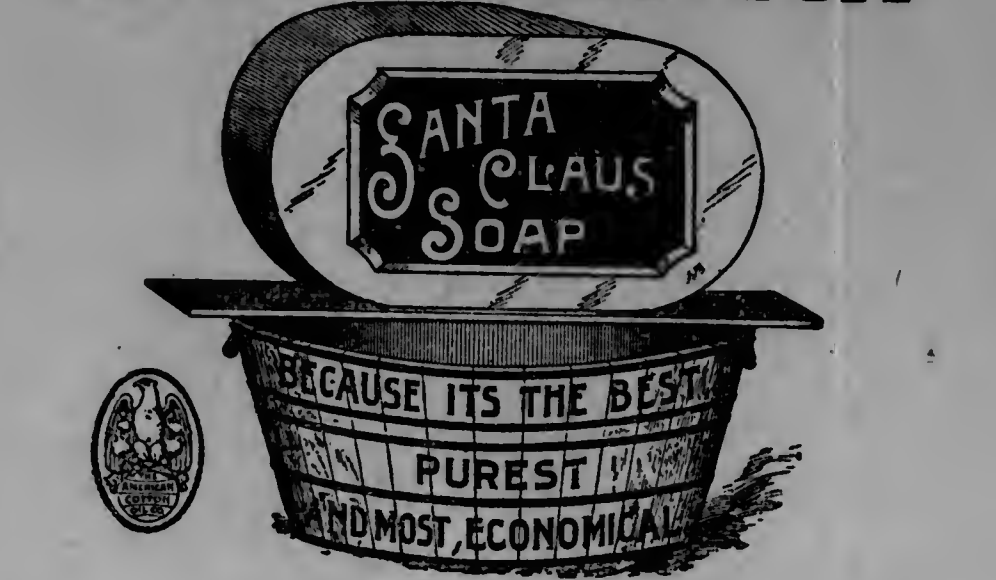

Send 2-cent stamp to the Charles F. Hires Co., 17 Arch St., Philadelphia, for beautiful picture cards.

Bids For Mason Work.
Sealed bids will be received by the board of public works, at the Central High School, for the erection of the foundation for the Irving school, situated in block 34 and 25, First Division, West Duluth, according to plans and specifications as prepared by Palmer, Hall & Hunt, architects, American Exchange Bank building, Duluth. Each bid must be accompanied by a certified check, payable to the order of the board of public works, in the sum of \$250.00. Said check to be forfeited to the board in case the bid should be accepted and high bidder should fail to execute contract. The board reserves the right to reject any or all bids.

THE TUB THAT STANDS ON ITS OWN BOTTOM

Sold everywhere by THE N.K. FAIRBANK COMPANY, Chicago.

Stop and Think.

Did you ever think of the strange consequences of events in this world, by which results of the most momentous importance often follow upon the most trifling causes?

Has it ever occurred to you that so small an action as the purchase of a copy of the "Book of the Builders" may be the birth of the whole life-movement in the direction of higher knowledge, broader culture, and richer appreciation of the beauties of art?

This is an opportunity which may never occur again in your lifetime. The small expenditure of One Cent (and a fraction) per day will secure you this greatest volume of the year. Do not hesitate.

Decide it to-day! Hear the strong arguments calling to you—an Encyclopedia of the World's Progress,—a Chronicle of the Greatest Mechanical Enterprise ever attempted by man,—the Greatest Autobiography of Human Effort ever given to the world,—and finally the Greatest Collection ever made in this country of the Original Work of American Artists.

Seriously, how can you be blind to the great opportunity? Send your coupons of different dates, and twenty-five cents, to our Art Department and secure a single part of this book. Address all orders to
